

Dear Customer

We know these are stressful times for our citizens and families that we serve. The Anadarko Public Works Authority wants to make sure we are being flexible in helping our customers during this time. As a valued customer, we want to make sure we don't disconnect your service unnecessarily.

If you need additional time to make your payment, we need for you to request an extension with the Utility Billing office by 4:30 PM on the 20th of each month. We encourage you to make a partial payment of at least 50 percent, however, if you are unable to make that amount please contact us to help make an arrangement that can meet your situation.

Forms are available in the foyer of City Hall and on the City's website at www.cityofanadarko.org

Communicating with us will keep us from disconnecting your service.

Failure to make a payment or a payment arrangement will result in suspension of service.

If you have questions or concerns, please call us at 405-247-2481.

By working together, we can make it through these difficult times.

Anadarko Public Works Authority

Kenneth Corn

City Manager

City of Anadarko
