To whom it may concern:

During this challenging time, we continue to deliver vital waste services across the communities we serve in middle Georgia, while keeping the safety of our team members, customers and communities front and center.

At Dependable Waste Services Inc. (DWSI) our members are family, and at a time like this – customers are family, too. While some ancillary services have been impacted in select areas, we will continue to maintain our waste collection and disposal services, even during emergency and shelter-in-place orders. We are proud to provide an essential service to the communities where we live and work.

DWSI is taking precautionary steps in response to the latest information from the Centers for Disease Control and Prevention (CDC) and other relevant federal, state and local agencies and experts to help prevent the spread of the coronavirus (COVID-19) as well as protect our own employees.

Please be aware the Non- Essential Waste services such as recycling are being discontinued until further notice effective immediately due to handling and employee exposure. Also, household garbage collection will not pick up non-containerized garbage effective immediately. All trash must be bagged and be completely in the DWSI supplied receptacle to induce pick up.

We know the needs of our communities are changing by the day, so we will continue to provide our customers with the solutions they need.

If you are a customer looking for additional information about your service, contact DWSI at 770-567-1733. You can find additional information on Covid 19 from the Centers for Disease Control and Prevention (CDC).

Thank you for your understanding during these trying times.
