

# **NOTICE TO INDUSTRY**

**EFFECTIVE November 15, 2023**

Effective November 15, 2023 – All new seawalls **or** if any portion of the existing seawall is being replaced, the new or portion being replaced **MUST** meet the City of Cape Coral Engineering Design standards that went into effect on March 1, 2022, Ordinance 85-21. Please click on the link below for the current engineering design standards.

[https://www.capecoral.gov/department/public\\_works/seawall\\_engineering\\_design\\_standards.php](https://www.capecoral.gov/department/public_works/seawall_engineering_design_standards.php)

Repairs to current seawalls are not required to meet the Engineering Design Standard that went into effect on March 1, 2022, if **no** portion of the seawall is being removed and replaced.
