

NOTICE TO INDUSTRY

January 28, 2022

The Department of Development Services is requesting that all customers with eTRAKiT accounts go into the system and pay any fees that are due prior to February 16, 2022. The new EnerGov permitting system is scheduled to be available beginning February 22, 2022, and the information from the previous eTRAKiT system must be imported into EnerGov.

Thank you for your assistance in making the transition to our new permitting software as smooth as possible.
