

## **Commercial Permit Guidelines**

### **Pool Heater Replace Gas**

**CPC, Plumbing Contractor, Mechanical Contractor or Owner/Builder may apply for permit**

- Trade application.
- NOC required if value is \$2500 or greater
- Owner Builder Affidavit (if homeowner)
- Two (2) copies site plan showing the following:
  - Location of existing LP tank
  - Location of Pool Heater
  - Existing building or structures
  - Distance to property lines, PUE, and structures
  - Whether tank is above or below ground
- Two (2) copies of LP plan details:
  - Location of piping, gas connections & size of line piping
  - All openings to structure – distance from openings (doors/windows)
  - Distance from ignition sources
  - Appliance legend with BTU's and corresponding labels that match drawings
  - Include regulator manufacturer and model number
  - Indicate depth of pipe and tracer wire if necessary

### **ALL INFORMATION MUST BE CLEARLY LEGIBLE.**

**\*\*\*NOTE:** This is not a complete list. Depending on specific job, additional details such as isometrics, pad size, remote venting. . . etc. may be required. Simply stating "Compliance with NFPA 54 & 58 and local/state codes" is not adequate.
