

NOTICE TO INDUSTRY
MARINE IMPROVEMENT DESIGN CRITERIA AND
ALLOWABLE SLOPE
EFFECTIVE March 9, 2024

In accordance with Article 3 of the City of Cape Coral Land Development Code, the Public Works Department has issued an Administrative Interpretation related to the Engineering Design Standards pages H-1J and H-1K.

The Engineering Design Standards (EDS) page H-1J, note 2, lists minimum design criteria for variations to established seawall standards.

Variations to the seawall standards, including Vertical Bulkhead Alternate 1 and Vertical Bulkhead Alternate 2, must be submitted with plans sealed by a professional engineer.

For Vertical Bulkhead Alternate 2, note 2.A is modified to a maximum allowable slope of 1:2 by implementation of tandem stone and cloth slope reinforcement.

The City of Cape Coral Engineering Design Standards can be found at https://www.capecoral.gov/government/laws_and_codes/engineering_and_design_standards/index.php.
