

What will I need to submit if I am applying for a building permit?

1. Residential Permits include structures such as homes, garages, carriage sheds, farm structures, etc. (buildings not used for commercial use)
2. Commercial Permits include structures such as churches, office buildings, machine shops, and stores just to name a few.

For Residential Building Plans- please bring in two copies of building, HVAC, and plumbing plans. For a bathroom addition- please submit a riser diagram only.

For Commercial Building Plans- Please bring in two copies of engineered stamped drawings. These plans should also include HVAC, and Plumbing as well as the building plans.

If you have any questions please call Joe Chrisman, Building Inspector and Zoning Officer at 610-721-2561.
