Indicator Summary

Value Unit
 *Pollution Reduction Estimates not entered for any of these projects.

Initiative: 2011 SSTS CWL Grant Administration

Year: 2011

Start Date: 11/23/2010

Initiative Type: Admin/Coordination

Completion Date: 08/18/2012

Description

County time to work with homeowners on permit submittal, inspection, completion of project and grant reporting.

Actual Results

Four individual septic systems were installed with the 2011 grant funding. With completion of the four septic systems 1950 gpd of sewage was diverted from polluting the ground surface. The grant funding allowed these four systems to receive a "Certificate of Compliance". It is unlikely that these systems would have been updated without the grant funding for low income homeowners.

Comments

Three of the systems were completed by December of 2011. Money leftover from completing these systems was used to partially fund a fourth system.

The 2011 SSTS IHT Grant is completed. Four individual septic systems were installed and received a "Certificate of Compliance" from Dodge County. The average cost including county administration, inspections, documentation and installation was \$11,379. All four of the systems were above ground or mound systems.
