

Prepared in cooperation by the Dodge County Historical Society, Dodge County Environmental Services and the Goodhue County GIS Office

Mantorville Historic District

LOCATION: Both sides of MN 57 and 5th St, Mantorville, MN 55955

STATUS: Public

TYPE: Historic, District, Commercial

HISTORY: Mantorville Historic District is nestled in a small valley on the South Middle Branch of the Zumbro River and is accessible only by Trunk Highway 57. This highway forms the major north/south axis of Mantorville and coincides with Main Street while the major east/west axis is Fifth Street. The intersection of the two axes form the hub of the historic district. Buildings and structures within the historic district exist today in much the same configuration as is noted in turn of the century photos and documents with only minor alterations. The district has suffered no major intrusions of incompatible structures or functions. Of the twenty-four structures given historic designation all stylistic developments in architecture are represented from the log and Greek revival buildings of the 1850's to the vernacular stone architecture of the Opera House constructed in 1918.
