Restrictive Covenant Removal Permit (RP)

In order to maintain buildability of the property, the parcel where a Removal Permit was granted for a dilapidated dwelling will not be allowed to be split. The split of any lot, parcel, or tract which contains a Removal Permit would result in the permit being terminated. Termination of the removal permit may result in the property being non-buildable.

The Restrictive Covenant shall remain valid until the establishment of a dwelling unit on the property, unless the removal permit is expired or terminated.

Please see attached legal description
