234,469 SF

Below are clarifications to contractor comments:

1. Access road is dirt finish 12" depth, compacted to 90% MDD. No Agg Base.
2. City will provide water at no additional cost. Water access locations will be determined the City.
3. No, AC street cuts should be required.
4. There are three existing water line tie in points. Sta 85+11.40 (existing 18" water line), 8" water line tie at Tamarack Road, and Sta 150+00 (existing 18" water line)
5. Tamarack Road existing water line shut off valves are at the intersection of Tamarack Road and Royal Crest Drive for the 8" water line.
6. 36" and smaller culverts require flared end sections. 60" culverts are plain end.
7. No concrete required for culverts, just rip rap.
8. No erosion control fabric is required under the rip rap.
9. No concrete encasement of pipes at culvert crossings. No pipe joints allowed under the pipe crossing.
10. Jack and Bore is all inclusive. Steel casing, DIP carrier pipe, skid spacers, end seals, installation.
11. Notice to proceed will be determined when material supply is verified.
12. All fittings are thrust restrained with thrust blocks.
