RE: 2019 Infrastructure Improvement Project

CONSTRUCTION ACTIVITY NOTICE (Project Progress)

Activity Type: Pavement Sawing – Adams St (North St to Ogden Ave)

Dear Resident,

Trine Construction will begin saw cutting pavement this week in preparation for the watermain installation next week. The cutting process will use water to control dust, which creates slurry on the pavement surface. We urge caution when driving or walking near the slurry.

Access to the street and driveways should not be affected as the cutting process does progress down the street. Please use alternate side streets for daily and overnight parking if you wish to avoid any conflicts. The alignment of the pavement cutting is down the center of the street. Please use caution and plan accordingly.

Daily operations will begin at 7 AM and should be completed by 4 PM. To avoid conflicts with construction operations, please have your vehicles out of the driveway prior to 7 AM. The watermain portion of the project is scheduled for completion by **June 7th**.

Residents should avoid the construction zones as much as possible. Daily parking is available on side streets. If travel through the work zone is necessary, please use extreme caution.

Thank you for your patience and cooperation. If you have not already done so, please share a contact number and email so that we may send you timely notifications. Contact the Village of Hinsdale Engineering Department at adiaz@villageofhinsdale.org or call 630-789-7029 with any questions or concerns.
