RE: 2022 – Garfield St Pavement Reconstruction Project

CONSTRUCTION ACTIVITY NOTICE (Project Progress)

Activity Type: Project Start

Dear Resident,

The Village's contractor, Nardulli Concrete INC, will begin construction activities on the **2022 – Garfield Street Pavement Reconstruction Project (First St to 55th St)** the week of **April 25, 2022**. The scope of work includes utility improvements, curb and gutter repairs, ADA sidewalk replacement, pavement reconstruction, and parkway restoration. In the first phase of the project, construction will commence between 4th St. and 7th St. Traffic control signage and devices will be installed the week of April 25th, with road construction activities beginning the week of May 2, 2022 (weather permitting).

Local residents within the activity area should expect traffic and access delays. In order to avoid conflicts, daily and overnight alternate parking will be available on the side streets. Daily work hours will be from 7AM to 4PM (M-F). Please maintain refuse and recycling routines. Advise guests, service providers, and deliveries of these access challenges, (US Mail and parcel deliveries should not be affected).

In an effort to deliver prompt project updates, the Village is requesting that residents within the project limits provide an email address where progress information can be sent. These addresses will assist in delivering important information to specific areas related to water main shutdowns, street closings, and property access. The Village will provide a specific email address where residents can forward any questions or concerns related to the construction activities. Resident information will be kept private. For residents that do not provide an email address, notices of **major** activities will be provided via regular mail and posted on the Village website.

Please forward your **name, street address, phone number, and email** information to adiaz@villageofhinsdale.org or call the Engineering Department at 630-789-7029, with any questions or concerns. Thank you for your cooperation.

Parkway sprinkler systems will be affected by these improvements. Please coordinate with your sprinkler service to locate and mark ALL sprinkler heads. The contractor will take measures to protect the systems. However, the contractor is responsible for repairing all damages.

Al Diaz
Assistant Village Engineer
