RE: 2022 – Garfield St Pavement Reconstruction Project

CONSTRUCTION ACTIVITY NOTICE (Project Progress)

**Activity Type: Pavement, Sidewalk, & Curb and Gutter - Removal & Replacement
(Third St to Fourth St)**

The Village's contractor, J Nardulli Concrete INC, will continue with removal operations on **Monday, June 27, 2022** (weather permitting). The scope of work includes manhole adjustments, curb and gutter repairs, ADA sidewalk replacement, pavement removal, and pavement base preparation. Concrete pours for curb, sidewalk, and pavement will begin June 29th.

In this phase of the project, construction will continue south on the west side pavement. Temporary stone ramps will be installed to provide access back onto your property at the end of each day. These ramps will be removed just prior to the pavement pour operations. Once removed, vehicle access to your property will be prohibited for 10 days (concrete placement & cure time). After the west side pavement has cured, removal operations will begin on the east side pavement.

Local residents within the activity area should expect traffic and access delays. In order to avoid conflicts, daily and overnight alternate parking will be available on the side streets. Daily work hours will be from 7AM to 5PM (M-F). Please maintain refuse and recycling routines. Advise guests, service providers, and deliveries of these access challenges (US Mail and parcel deliveries should not be affected).

In an effort to deliver prompt project updates, the Village is requesting that residents within the project limits provide an email address where progress information can be sent. These addresses will assist in delivering important information to specific areas related to water main shutdowns, street closings, and property access. The Village will provide a specific email address where residents can forward any questions or concerns related to the construction activities. Resident information will be kept private. For residents that do not provide an email address, notices of **major** activities will be provided via regular mail and posted on the Village website.

Please forward your **name, street address, phone number, and email** information to adiaz@villageofhinsdale.org or call the Engineering Department at 630-789-7029, with any questions or concerns. Thank you for your cooperation.

Parkway sprinkler systems will be affected by these improvements. Please coordinate with your sprinkler service to locate and mark ALL sprinkler heads. The contractor will take measures to protect the systems.

Al Diaz
Assistant Village Engineer, Village of Hinsdale
