Fiber service speeds claim represent maximum network service capability speeds and based on wired connection to gateway. Actual customer speeds may vary based on a number of factors and are not guaranteed. Download speeds are typically up to 940 Mbps due to overhead capacity reserved to deliver the data. For more information, go to [www.att.com/speedtest](http://www.att.com/speedtest).

2. Whole home Wi-Fi connectivity may require AT&T Smart Wi-Fi Extender(s) sold separately.

## BUILDING OUR BETTER, FASTER INTERNET in your neighborhood.

Over the next several weeks, AT&T crews will be working in your neighborhood. This work will sometimes require access to our network that is located in easements or public right-of-ways. We will always do our best to minimize any disruptions to you. Once the work is complete, we will remedy any disorder caused to your landscape, if necessary.
