Village of Hinsdale Finance Commission Minutes of the Special Meeting on August 30, 2012

Members Present:

Chairman Hughes, Commissioners Balzekas, Morris, Rose,

Posthuma, and Waldo

Members Absent:

Commissioners Maali and Tobia

Staff Present:

Darrell Langlois, Assistant Village Manager/Finance Director;

Dave Cook, Village Manager and Chris Webber, Assistant

Finance Director

Also Present:

Trustees Geoga and Elder

Meeting Called to Order at 7:30 p.m.

Approval of Minutes

Chairman Hughes asked for a motion to approve the minutes of the June 21, 2012 Commission meeting. Commissioner Morris moved approval of the minutes, Commissioner Waldo seconded. Chairman Hughes pointed out two items of clarification to the minutes. After a brief discussion the minutes were unanimously approved with these changes.

Agenda Items

Review and Discussion of the July 2012 Treasurer's Report

Mr. Langlois presented the Treasurer's Report. Sales tax revenue continues to be strong and is up 12.9% for July and 11.5% for August. Sales Tax revenue is 7% above budget expectations. Local sales and use taxes are up 9.1% for the first four months of the year.

Income tax revenue for July and August increased so that revenue source has been strong. The 2013 Budget did not assume an increase for this revenue source.

The state of Illinois is still three months behind on their payments to the Village. Food and beverage tax increased about 13.5% over last year. June is the first big property tax revenue month and 46.5% has been collected so far. Utility tax revenue is 5.5% above last year and he expects that will remain strong.

Mr. Langlois reported that building permits revenue was down, a 31% decline from last year. August is expected to be in excess of \$120,000. Mr. Cook reported that the fall is now usually strong for permit revenue as contractors rush to get work done before winter.

The Commissioners discussed the Utility Tax revenues. Mr. Langlois reported that the legal fees are tracking below budget and all others expense items are tracking as expected. Mr. Langlois commented on increased water usage during the summer. Mr.

Village of Hinsdale Finance Commission Minutes of Meeting On August 30, 2012

Cook explained that there have been expenses from water main breaks. There was discussion among the Commissioners and Mr. Langlois regarding water usage and rates.

Mr. Langlois reported on the Capital Improvement Fund deficit, which is due to the three major road projects that are on-going, with some of the expenditures occurring before the revenue from bond proceeds has been received. There will be approximately \$5 million in bond proceeds received in September that will more than offset the current deficit. Bonds were sold in August and the Village received an average interest rate of 2.09% for 20 years.

Review and Discussion of the Five-Year Departmental Capital Plan

Chairman Hughes asked Mr. Langlois to explain the Plan. Mr. Langlois explained how the Five-Year Capital Plan was suspended at the onset of the recession and is now being reinstituted in order to address the long range planning of capital items not related to infrastructure. Mr. Langlois stated that staff submitted their department requests and explained the process for prioritizing the funding these projects at the staff level.

Mr. Langlois stated that a lot of the costs were revised during the process. Mr. Cook stated that a good portion of the capital are vehicles and they were put on a rotation schedule, and which is now included as an appendix in the Plan. Commission Morris asked what is the purpose of the Plan would be in the future.

Mr. Cook stated that this is the first year there is a reserve for capital, and also noted that the proposed spending is relatively even for each of the five years. Mr. Cook stated that each year approximately \$1.25 million will be put into the fund in order to smooth variances in capital from year to year, but this is the amount required to maintain capital. Chairman Hughes asked if this would be done annually and understands that this five year plan can change. There was discussion with the Commissioners regarding the plan and how the budget will include a capital fund. Mr. Cook explained the changes required if the Village goes to shared services for police and/or fire.

Chairman Hughes suggested that the list should be gone through department by department. Chairman Hughes asked Mr. Langlois if there was any additional information that needed to be discussed. The Commissioners asked about how Information Technology is managed at the Village. Mr. Langlois explained how the financial applications are outsourced and the police and fire manage their own applications. Mr. Langlois explained that the IT department consists of one full time staff member assisted by limited part time helpers.

The Commissioners discussed the IT costs and the servers. Mr. Langlois stated that the email server is scheduled to be replaced and that all emails have to be archived due to record retention and Freedom of Information requirements. Mr. Cook stated that all

Village of Hinsdale Finance Commission Minutes of Meeting On August 30, 2012

projects have supporting documentation, and in many cases inflation of 2% to 3% has been added to them.

Mr. Langlois talked about the Food and Beverage tax that is collected for Economic Development. As a result of recent policy discussions, the Economic Development Commission may receive up to 50% of total Food and Beverage Tax collections, with 60% of this amount dedicated to advertising and promotion, and the remaining amount of 40% being available for capital projects that may be approved during the budget process.

The Commissioners discussed the Police section and asked about the costs for the parking enforcement computer software. Mr. Cook stated that the last one that was bought was \$6000. The Commissioners discussed patrol cars and if there was a more "green" option for purchasing vehicles. Mr. Cook reviewed the appendix showing the replacement cycle.

The Commissioners discussed the Fire Department section and questioned why one of the engines is scheduled to be replaced earlier than the other. Mr. Cook explained that with the service agreement with Clarendon Hills, one of the fire trucks will not be needed and will remain as a reserve engine. Chairman Hughes asked why the truck wouldn't be sold. Mr. Cook noted that the ladder truck life is 20 years and it will be paid off in 10 years.

The Commissioners discussed the Public Services section. Commission Waldo asked about the Historical Society building. Mr. Cook stated that it is cost sharing lease and with the Village owning the land. Chairman Hughes asked about the funds for street lights and wanted to know if they have a useful life. Mr. Cook stated that there are 250 ornamental street lights and that it is a proposed ten year program to replace them. Commissioners asked about the pool vehicles and the cost for resurfacing streets.

The Commissioners discussed the Parks and Recreation section. Chairman Hughes stated that no reserve is in place for replacement of the pool as the ultimate replacement will likely be a referendum question and a potential bond issue.

Trustee Geoga commented on the capital expenditures that are not infrastructure. He doesn't believe that they are being overly conservative in the numbers. Mr. Langlois stated that he thinks the figures could be off by 5% but are in a reasonable range. Trustee Geoga commented on the MIP and that many water mains that need replacement are not included in that.

Chairman Hughes stated that the Commission understands that the \$1.25 million capital does not cover replacing the pool and only covers maintaining it. He believes that there should be some figures including for including that replacement. Trustee Geoga believes that that expense should be one that goes to referendum to the voters.

Village of Hinsdale Finance Commission Minutes of Meeting On August 30, 2012

Chairman Hughes stated that the items on the list are all must haves, not wants and most of that money for Frisbee golf is grant money. Mr. Cook stated the useful life for playground equipment is around 12-15 years.

The Commission discussed the number of vehicles in public services and for the parks department. Mr. Langlois explained what the residents expect and believes the size of the fleet is within normal range. Chairman Hughes would like an inventory of all of the Village vehicles. Mr. Langlois stated that there is that inventory on the last page of the Plan.

Chairman Hughes noted that water and sewer billing will be discussed at the next meeting. Mr. Langlois will put together the list of assets that are more than \$50,000 for the next meeting.

Chairman Hughes thanked Mr. Langlois for the report. Commissioner Morris gave a report on the KLM Sub-Committee and no progress was made. Mr. Cook stated that there will be a new staff report summarizing operations on a monthly basis. Commissioner Morris stated that the rate structure was low and the fees should be increased. Mr. Cook commented on the options and staff is looking at rates of the competition.

Adjournment

As there was no further business to come before the Commission, Commissioner Morris moved to adjourn the meeting, seconded by Commissioner Posthuma. The meeting was adjourned at 9:25 p.m.

Respectfully Submitted:

Meeting Called to Order at 7:30 p.m.

Agenda Items

Review and Discussion of the August 2012 Treasurer's Report

Mr. Langlois reported that Base Sales Tax receipts for the months of August and for September amounted to \$228,600 and \$237,841 respectively. This represents an increase of 11.5% for August and an increase of 10.8% for September. Year-to-date base sales tax receipts for the first five months of FY 2012-13 total \$1,112,685, an increase of 10.4%. This variance is favorable when compared to budget as this revenue source was projected to increase 3% in the FY 2012-13 Budget. Total Sales Tax receipts (including local use taxes) for the first five months of the fiscal year amount to \$1,217,144, an increase of 9.4%.

Mr. Langlois reported that Income Tax revenue for the months of August and September increased 0.1% for August and 3.1% for September. Total Income Tax receipts for the first five months of FY 2012-13 total \$643,357, an increase of 12.3%. This variance is favorable when compared to budget as no increase was assumed in the FY 2012-13 Budget. Regarding the delay in income tax payments from the State of Illinois, the State remains three months or \$321,000 behind the normal payment schedule.

Year to date Food and Beverage taxes earned for the first four months of the year amount to \$109,851, an increase of 5.1%. This variance is favorable when compared to budget as an increase of 3% was assumed in the FY 2012-13 Budget. Mr. Langlois reported that property tax collections through August amount to \$2,951,838, which is approximately 47.65% of the Village's \$6 million tax levy.

Combined Gas, Electric, Telecommunications, and Water Utility Taxes for the year are \$749,824, which is 7.1% above the prior year. It is expected that the hot summer will continue to have a positive impact on electric and water utility tax collections over the next several months.

Building Permit revenues for August were \$122,592, a decrease of 22.4%. The decrease is due to August of 2011 being unusually high. Year to date Building Permit revenue is \$316,956, which is a decrease of \$111,212 or 25.9% from the prior year. Park and Recreation Fees total \$561,999 which is an increase of 5.7% but the pool revenue is down a little.

Village of Hinsdale Finance Commission Minutes of Meeting On October 11, 2012

Mr. Langlois reported that most operating expenditures for all Departments are still well within budgetary expectations. Total legal billings through August amount to \$60,482, which is tracking below the prior year and is tracking below budget.

Mr. Langlois reported that for the first four months of the year total water and sewer billing revenue was \$3.2 million, which is \$734,000 over budget, due mostly to the dry and hot summer. For the month of August, water and sewer revenue was \$449,922 above the prior year; approximately \$90,000 of this large increase is due to there being approximately 10 more reading days in the billing this year as opposed to last year.

On August 14, 2012 the Village sold \$5.0 million in bonds to fund capital projects. The 20 year average rate was 2.09%, and as part of this process the Village's AAA bond rating was reaffirmed by both Fitch and S&P. The actual bond proceeds were received by the Village on September 5, 2012. In mid-November we expect to sell Special Service Area Bonds of \$1.575 million.

Review and Discussion of Water Meters and Water Meter Reading Systems Chairman Hughes asked Mr. Langlois to break down the report into background and recommendations and reminded the Commissioners that they can refer to the power point presentation for reference.

Mr. Langlois summarized the operating statement and explained the total billings. Approximately 78% of the water purchased is billed to the consumers. He explained the water rate increase history and how is has been a struggle to meet the annual \$1.5 million contribution towards infrastructure improvements.

Mr. Langlois explained how much water quantity is purchased from the DuPage Water Commission and the resulting affects on the amount of revenue received. The budget is based on a little less than average consumption year. Mr. Langlois noted that the average will likely trend downward with less irrigating by consumers due to the cumulative effect of the rates increases.

Mr. Langlois explained the unaccounted for water. Mr. Langlois explained that Municipal use is only about 1%. Industry trends and IDNR requirements would indicate that 85 -90% of the water purchased should be billed to residents. Mr. Langlois explained the slide regarding the loss of water. Mr. Langlois explained the minimum usage billing system, which inaccurately inflates to the quantity of water billed to residents.

Mr. Langlois explained the steps involved in the water system. There was discussion among the Commissioners regarding IDNR and Mr. Langlois was asked if there would be any penalties. Mr. Langlois reported on how meters are identified as being bad. Staff

Village of Hinsdale Finance Commission Minutes of Meeting On October 11, 2012

has to visibly go through each report to find all of the meters that may have stopped, which is a difficult process separating stopped meters from slow moving meters and meters in unoccupied homes.

Mr. Langlois explained that it would be extremely difficult to phase the replacement program in because there is only one staff member in water billing and very limited staff in the water department to change meters. The Commissioners discussed billing rates and recommended moving away from minimum billing. Mr. Langlois believes a fixed monthly service charge is a better option than minimum billing.

Mr. Langlois explained that water meters are expected to last 15 to 20 years. Technology has improved in how meters are read as well as meters being more accurate overall. The water department utilizes SCADA technology to monitor system pumpage and give indication of water main leaks, so it is believed that the age of water meters is a big problem causing unaccounted for water and billing loss. 3800 water meters are at least 20 years old and would cost over \$570,000 to replace them. If meters are replaced inhouse only 600 could be replaced annually, meaning it would take about seven years to replace all old meters.

Mr. Langlois explained data used to determine the age of the meters and about 65% are more than 20 years old. 500 have been replaced this year and these are state of the art meters in measuring water accurately. The increased revenues would pay for the cost of the new system. Chairman Hughes asked Mr. Langlois if the goal is for the user fees to pay for the system. Mr. Langlois stated that the true cost of the infrastructure is more than \$1.5 million. Mr. Langlois will prepare a budget using different amounts for the Commission. There was discussion among the Commission and Mr. Langlois regarding the capital needed for the fund.

Chairman Hughes stated that 7% of the users are non-residents. Chairman Hughes discussed what the options are for funding. Mr. Langlois commented on the five year plan for water main work. There is no funding source for water main replacement that is not included in the MIP. Chairman Hughes stated that this should be part of budget and rates discussion.

Mr. Langlois stated that the issue is accountability; the people using the water are the ones that need to pay for it. Mr. Langlois explained the three options and how water meters are read. The village relies on one person to read all the meters and it is very slow as routinely 50 or 60 days may elapse from the time a meter is read until it is billed. Any meters missed are read by Public Services staff. Mr. Langlois explained how the meters are read and the current reading system is 25 years old. Radio reading technology is the new way to read meters and is powered by batteries that last 20 years.

Village of Hinsdale Finance Commission Minutes of Meeting On October 11, 2012

Mr. Langlois commented on the concerns he has regarding the vendors going into the homes of residents. The installation contract would go to the company bidding on the job.

Chairman Hughes asked Mr. Langlois for his recommendation. Mr. Langlois believes all of it should be done on the accelerated program. The savings are greater in the first years. The Commissioners discussed rate information and that each month \$50,000 is lost in slow or stopped meters. Mr. Langlois stated that \$1.9 million is the cost estimate of the project. The Commissioners agreed that the meters need to be replaced on an accelerated basis, the funding of the project would be financed, and the project should also incorporate the new meter reading technology.

Mr. Langlois stated that the next step will be preparing an agenda item to go before ACA that will authorize the issuance of a RFP for the project.

Adjournment

As there was no further business to come before the Commission, Commissioner Waldo moved to adjourn the meeting, seconded by Commissioner Tobia. The meeting was adjourned at 9:25 p.m.

MEMORANDUM

Date:

December 13, 2012

To:

Chairman Hughes and Finance Commission

From:

Darrell Langlois, Assistant Village Manager/Finance Director $\, \, \mathcal{M} \,$

RE:

Discussion of the Five-Year Departmental Capital Plan

At the meeting on August 30, 2012, the Finance Commission reviewed a draft of the proposed Five-Year Departmental Capital Plan. This document was the first non-infrastructure capital plan produced in Hinsdale since the onset of the recession. Reaction from the Finance Commission was favorable to the document as presented. However, as a follow up item, several Commission members indicated a need to able to assess the "completeness" of the document, i.e. are there any major items that were missed.

To facilitate this type of analysis, I am enclosing the building inventory that is provided by the Village's insurance carrier, IRMA, and can be used to review the buildings the Village owns. In addition, I am including a fixed asset listing for items over \$10,000 (at estimated historical cost) that we use for financial reporting purposes. As the Five Year Plan attempts to capture costs for only the next five years, the vast majority of items on these listings will not appear as items in the Five Year Plan. That being said, a review of these listings may be beneficial to assessing over all if anything significant was missed on the Five Year Plan.

It is staff's belief that the Five-Year Departmental Plan is complete based on currently known factors. We are hopeful that after reviewing these documents the Commission can endorse the Five Year Plan so it can be used a basis for preparation of the FY 2013-14 Budget. It is expected that the first year of the Five Year Plan will form the foundation of next year's departmental capital budget.

MEMORANDUM

Date:

December 17, 2012

To:

Chairman Hughes and Finance Commission

From:

Darrell Langlois, Assistant Village Manager/Finance Director ()

RE:

FY 2013-14 Budget

At the end of December, Village staff will begin preparation of the FY 2013-14 Budget. While the budget pressures driven by such factors as the funding of the MIP, water main replacement, and other capital items funded in part by transfers from the corporate fund will remain for an extended period, heading into the budget process, many budget line item issues have stabilized. For the last several years, most salary accounts have been benchmarked against changes in the consumer price index (CPI), which as of now is running at a manageable 1.8% through November. Pension costs and other employee benefit accounts have likewise posted inflation-like increases. On the revenue side, property tax revenue provides approximately 33% of annual funding to the General Fund. Tax cap legislation will allow for growth in property tax revenue of 3.0% (plus allowed growth) for FY 2013-14. The one major unknown factor centers around the possible consolidation of the Police Department with Clarendon Hills, with a more definitive course of action will likely be determined at some point during the budget process

Before undertaking this process, the Finance Commission has traditionally made recommendations to the Village Board as to assumptions/targets to be used in formulating the budget. The following are areas the Commission has given guidance on in the past:

<u>Major Revenues</u>- Attached are a number of tables that provide trend data on major revenue sources as well as the current staff estimate of the FY 2012-13 actual year-end results. To facilitate discussion, staff has provided an initial projection for FY 2013-14. Please note that these tables will change monthly as we receive more actual results, which we expect to receive at least two and in some cases three more months of actual data prior to finalizing the draft FY 2013-14 Budget.

<u>Legal Services</u>- Several years ago the cost of legal services had been an area of concern expressed by the Finance Commission. After discussion last year, the Commission recommended a budget amount of \$225,000. Through six months of the year, total legal fees to the Corporate Fund amount to \$91,092, which is tracking below the budgeted amount. In FY 2012, the total amount spent on legal services was \$188,174. Due to the most recent history and other contractual changes it would be staff's recommendation to considering lowering the amount budgeted for legal services to \$175,000 or \$200,000.

Departmental Capital- In prior years, the Commission has expressed concern regarding balancing the operating budget of the Village by deferring necessary maintenance items and capital purchases to future budgets. Over the last several years, we have taken a number of steps to avoid this from occurring. In FY 2012-13, a total of \$1,255,700 was budgeted for Departmental Capital. In order to better guide the capital budgeting process, (a) a non-infrastructure capital reserve fund was established with a view toward relatively level annual contributions being made to the fund and expenditures, which will vary from year to year, being funded using withdrawals from the fund, and (b) in an effort to provide insight into an appropriate level of annual deposits to that fund, staff has completed a Five-Year Departmental Plan for the first time in several years. This Plan, which was reviewed by the Finance Commission in August, contemplated a Departmental Capital budget of \$1,343,000 for FY 2013-14. The opening fund balance for the noninfrastructure capital reserve fund is estimated to be approximately \$400,000. It would be staff's recommendation to identify an annual contribution level to the fund based upon the five year plan, and to budget expenditures from that fund consistent with the five year plan for FY 2013-14.

Transfer to Infrastructure Fund— For the first time, the FY 2010-11 Budget included a \$500,000 transfer from the Corporate Fund to the Infrastructure Fund in order to assist with funding the Infrastructure Investment Plan. Due to surpluses in that year, we were able to increase the actual transfer amount to \$1.4 million. For FY 2011-12, the actual transfer was \$1.5 million, which was \$400,000 above the amount budgeted of \$1.1 million in that year. For FY 2012-13, the budgeted amount is \$1.3 million, which may be increased depending on the programmed use of possible budget surpluses this year. For FY 2013-14, the Infrastructure Master Plan contemplates a Corporate Fund transfer of \$1.0 million, but it would staff's recommendation to strive to fund the current budget amount of \$1.3 million at a minimum.

Corporate Fund Reserve Policy- After declining below the stated policy level of 25% several years ago, the Corporate Fund balance at the end of FY 2011-12 was 26.88%. Current year budget projections forecast an operating surplus of at least \$600,000, which would result in the reserve percentage ending the year above 32.0%. The FY 2012-13 Budget will be designed to maintain the Corporate Fund reserve in excess of 25%. Consideration can be given to the use of an operating surplus (including an increase in the general corporate reserve, an increase in the non-infrastructure capital reserve fund, and other potential uses).

Contingency—For the last several years, the Corporate Fund budget has included a contingency amount to safeguard against declines in revenues or unforeseen expenditures. Originally established at \$300,000, this amount was reduced to \$200,000 three years ago and lowered again to \$100,000 this budget year. The justification for these decreases was due to the Village having reserves in excess of the 25% fund balance policy, which would also be able to be used should these unforeseen events occur. The Village has not utilized the contingency amount in the prior four fiscal years, nor is it expected to be used this budget year. Direction as to whether to continue include a contingency, as well as the amount, is something staff would like to have the Commission's opinion on heading into the budget process.
