DRAFT
MINUTES
VILLAGE OF HINSDALE
HISTORIC PRESERVATION COMMISSION

April 14, 2015

Memorial Hall – Memorial Building, 19 East Chicago Avenue, Hinsdale
5:00 P.M.

Chairman Peterson called the meeting of the Historic Preservation Commission to order at 5:00 p.m. on April 14, 2015 in Memorial Hall in the Memorial Building, 19 East Chicago Avenue, Hinsdale IL.

Present: Chairman Peterson, Commissioner Harloe-Mowery and Commissioner Bohnen, Commissioner Hutter,

Absent: Commissioner Gonzalez

Also Present: Robert McGinnis, Director of Community Development/Building Commissioner and Chan Yu, Village Planner

Minutes

Chairman Peterson introduced the minutes from March 10, 2015 meeting. Chairman Peterson asked for a motion to approve the minutes as presented. Commissioner Bohnen made a motion to approve the minutes as submitted. Commissioner Hutter seconded. The motion passed unanimously.

Discussion – Map Project

Chairman Peterson thanked Robb McGinnis for the list of demolished homes for 2012, 2013 and 2014.

Chairman Peterson discussed the ongoing efforts to create a landmark map, including a mapping application with the design of the new website. He asked Mr. McGinnis if there are any updates in regards it. Mr. McGinnis replied that May 1st is still the target. Of note however, Robb mentioned there are a lot of moving parts.

HPC Budget Update

Chairman Peterson asked if it was budget time yet, and if the HPC needs to attend any meetings for their request.

Mr. McGinnis answered he will let them know and asked what the amount they requested.

Chairman Peterson replied \$10,000.00.

Mr. McGinnis mentioned he will ask Ms. Suzanne Ostrovsky to inform the HPC. (Chan relayed the information)

2nd Tier Landmarking

Chairman Peterson reiterated that the Commission should come up with a different name for this program. Commissioner Harloe-Mowery mentioned that she has been thinking about it; and the name should contain "history" or something to that effect to tie the program's intent.

Fence Regulations

Commissioner Bohnen updated to the HPC that Commissioner Harloe-Mowery has provided a picture of a fence not ideal for Hinsdale. Commissioner Harloe-Mowery explained the fence was not to scale of the home.

Chairman Peterson wanted to make sure the Ordinance is available and that the exact adjustments can be reviewed and discussed in the future. Chairman Peterson asked if there were any additional fence related questions. Nobody had any further comments.

Preservation Month

The HPC discussed any progress made to date, the schedule and contests for the upcoming National Preservation Month in May. Deep Creek was mentioned for the art and photography judging component.

Chairman Peterson gave a brief review of the individual contests; and mentioned that the school contests has not picked up in terms of participation. To that end, Chairman Peterson decided to let the contests run until April 20th for judging thereafter.

The awards include framing the pictures and would be presented May 19th before the Board of Trustees meeting. Commissioner Harloe-Mowery reviewed that there are 3 judges, all AIA members and not residents of Hinsdale. She indicated that would take them around May 2nd.

Commissioner Harloe-Mowery asked if there is a count for contest submittals yet.

Chan Yu, Village Planner replied no, nothing yet.

Commissioner Bohnen recommended entering a few homes themselves, and referenced a few homes as examples. Chairman Peterson agreed and expressed that he had some homes in mind too.

Commissioner Bohnen asked Mr. McGinnis if he was familiar with the house being demolished on Elm and First and the environmental tax credit program. Mr. McGinnis knows of the program, but no additional details. Commissioner Hutter explained he had the details to the program and will bring the information to the HPC in the future. Additional examples that are possibly going through the program ensued.

Adjournment

With no additional discussion, Chairman Peterson entertained a motion to adjourn. Commissioner Hutter made the motion and Commissioner Bohnen seconded. The meeting was adjourned at 5:18 p.m. on April 14, 2015.

Respectfully Submitted,

A handwritten signature in black ink, appearing to be 'Chan Yu', with a stylized, sweeping flourish at the end.

Chan Yu, Village Planner

Hinsdale Building Code

9-12-3: FENCES:

- A. Definitions: For the purposes of this section, the definitions of terms contained in the Hinsdale zoning ordinance shall apply to those terms as used in this section. Other terms are hereby defined as follows:

FENCE: Any structure, other than an enclosed building, forming a barrier or boundary between lots, between a lot and any street or alley, or between portions of a lot or lots.

MAINTENANCE: Incidental repairs to less than fifty percent (50%) of the total area of an existing fence.

REPLACE: The reconstruction of a fence due to damage, destruction, or alteration of fifty percent (50%) or more of the total area of an existing fence. "Maintenance" as defined in this section shall not be included.

WINGWALL: Architectural features of a structure that can appear to be a fence or wall, extending beyond the exterior face of a structure typically made of the same materials as the structure to which they are attached.

- B. General Prohibition: No fence shall be built, installed, erected, enlarged, extended, maintained, replaced, or allowed to exist in violation of the provisions of this section. Any fence so built, installed, erected, enlarged, extended, replaced, or maintained, except as provided in subsection K of this section, shall be removed by the owner thereof.
- C. Permit Required: No person shall build, install, erect, enlarge, replace, or extend a fence or part thereof without obtaining in advance a permit therefor and paying the fee provided in section 9-1-4 of this title. An application under this section shall be made to the building commissioner and shall include a sketch plan describing the proposed fence and showing, to the extent necessary to establish compliance with the requirements of this section, its location in relation to: 1) the lot lines of the lot on which the fence is placed, 2) any structures on said lot, and 3) any structures on adjacent properties, and depicting any proposed grade changes in said area
- D. Construction Standards; General: All fences shall be built, installed, erected, reconstructed, restored, replaced, or extended in a good and workmanlike manner. No structural components of a fence, other than the structural components of a brick or stone fence, shall exceed six inches (6") in width. All fences shall be securely anchored in the ground. All fences shall be built, installed, erected, reconstructed, restored, replaced, or extended so that all posts and other structural components, and the unfinished side of the fence, if any, shall face into the lot on which the fence is placed. Fences shall be constructed of wood, aluminum, wrought iron, brick, stone, or polyvinyl chloride (PVC). Welded wire and plastic fabric type fencing are prohibited unless otherwise authorized on a temporary basis pursuant to a permit issued by the village for demolition or to construct a new principal structure in accordance with subsection 9-1-7F of this title.
- E. Construction Standards; Height: No fence or part thereof shall be permitted in excess of the following height limits:

1. Residential districts and lots used for residential purposes:

a.	Front yard, except for subsections E1d and E1e of this section (solid fences shall be limited to 24 inches in height as measured from the natural grade as set forth in subsection H3 of this section)	3 feet
b.	Corner side yard, except for subsections E1d and E1e of this section	4 feet
c.	Any other yard, except for subsections E1d and E1e of this section	6 feet
d.	Within 10 feet of and parallel to a lot line of any lot used for nonresidential purposes	8 feet
e.	Within 10 feet of and parallel to a lot line abutting the Illinois Tri-State Toll Road, Route 83, 55th Street, or Ogden Avenue rights of way	8 feet

2. Nonresidential districts and lots used for nonresidential purposes:

- a. Front yard: Eight feet (8');
- b. Corner side yard: Eight feet (8');
- c. Any other yard: Eight feet (8');

provided, however, the maximum allowable fence height provided for in this subsection E2 shall be reduced to a maximum height of not less than four feet (4') along any lot line abutting a lot used for residential purposes, if determined by the building commissioner to be necessary for purposes of promoting pedestrian and vehicular traffic safety.

3. Exceptions to subsections E1 and E2 of this section:

a.	Chainlink fences wherever located	4 feet
b.	Any fence governed by the provisions of section <u>7-1D-4</u> or <u>7-1D-5</u> of this code	2 feet
c.	Any post or other principal vertical support component	6 inches above maximum height

F. Measurement Of Height: The height of all fences shall be measured from the existing natural grade on which the fence is located, as determined by the building commissioner, to the top of the fence.

G. Maintenance: All fences shall be maintained in good condition.

H. Prohibited Fences: Notwithstanding any provision of this code to the contrary, the following prohibitions apply to all fences in the village:

1. No fence shall be permitted in violation of sections 7-1D-4 to 7-1D-5 of this code.
2. No chainlink, stockage, or cinder block fence shall be permitted in any front yard or any corner side yard.
3. No "solid fence", as defined herein, shall be permitted that exceeds twenty four inches (24") in height as measured from the natural grade in any front yard or any corner side yard. A "solid fence" is a fence in which the open spaces, when viewed at a right angle to the vertical fence plane, constitute less than one-third ($\frac{1}{3}$) of the total fence contour. The "total fence contour" is the entire square foot area within and between the outside vertical outline of the fence. The "open spaces" are areas within the "total fence contour", which, when viewed at right angles to the vertical fence plane, allow clear visibility through said fence plane.
4. No chainlink fence shall contain strips or slats of any kind between or among the links.
5. No barbed wire fences shall be permitted; provided, however, that no more than three (3) strands of barbed wire may be used on the top of fences enclosing public utility facilities.
6. No electrically charged fences shall be permitted.
7. No wingwall may encroach into a required yard

I. Protective Fences: Any school, church, hospital, or library may petition to the zoning board of appeals for a permit to construct a protective fence that would not conform to the requirements of subsection E of this section or the requirements of subsection H1 of this section insofar as such requirements relate to chainlink fences; provided, however, that under no circumstances shall any fence be permitted under this subsection on a lot zoned in the AA or A residence districts of the Hinsdale zoning ordinance which is used for residential purposes except in conformance with all the requirements of this section. The zoning board of appeals shall approve such petition only upon the finding that: 1) the fence is justified in light of the seriousness of the risk posed to the safety of persons and the fence will mitigate that risk; 2) the fence will not alter the essential character of the locality; 3) the fence will be in harmony with the general purpose and intent of this section; 4) the fence will set no unfavorable precedent either to the locality or to the village as a whole; 5) the fence will be the minimum size and type necessary to accomplish its intended purpose; and 6) the fence will not adversely affect the public safety and general welfare.

J. Variations: Any person may petition to the zoning board of appeals for a variation from the provisions of this section. A petition for a variation shall include the following information: name, address, and telephone number of petitioner; a description of the requested variation; a site plan, drawn to scale, depicting the proposed fence and showing its location in relation to the lot lines of the lot on which the fence is placed, any structures on said lot, and all adjacent properties; existing elevations in the area in which the fence is placed and any proposed grade changes in

said area; and such additional information as the zoning board of appeals may require. The zoning board of appeals shall grant a variation from the provisions of this section only upon finding that: 1) the petitioner is affected by unique circumstances which create a hardship justifying relief from the provisions of this section, 2) the variation will not alter the essential character of the locality, 3) the variation will be in harmony with the general purpose and intent of this section, 4) the variation will set no unfavorable precedent either to the locality or to the village as a whole, 5) the variation will be the minimum necessary to afford relief to the petitioner, and 6) the variation will not adversely affect the public safety and general welfare. Every grant of a variation shall be based on written findings of fact evidencing compliance with the foregoing standards and specifying the reasons for granting the variation.

K. Nonconforming Fences: All fences heretofore lawfully constructed and not in conformity with the provisions of this section shall be deemed nonconforming fences and may exist and may be maintained; provided, however, that no such maintenance shall expand any existing nonconformity or create any new nonconformity. No nonconforming fence shall be enlarged or extended in any manner except in accordance with the provisions of this section.

L. Swimming Pools: Nothing in this section shall be construed to alter or limit the provisions of the international residential code related to fences designed to enclose swimming pools.

M. Exemptions: The provisions of this section shall not apply to fences owned or maintained by the village or to fences constructed and maintained by any other governmental body or agency for the principal purpose of reducing noise. (Ord. O2008-46, 8-12-2008)
