Public Comment

Chairman Bohnen introduced a discussion item regarding exterior appearance review for Nabuki to expand next door at 16 E. 1st Street, and asked Chan what elements of the application the HPC should opine on.

Chan gave a background on why the Village Board would like the HPC's input regarding the front façade at a public meeting.

Chairman Bohnen explained that the Plan Commission reviewed this and was discussed at the Village Board meeting the night before the HPC meeting. He asked Chan if the paint is still being proposed.

Chan replied that the applicant removed the paint above the awning per the request by the Plan Commission.

Ryan Nestor, the project architect introduced himself and stated that they are willing to remove all paint that is of concern. He stated that the window must be replaced regardless. The most important element of the 1,200 SF space is that the entry way door be removed.

Chairman Bohnen asked if a revised elevation was submitted.

Ryan Nestor replied yes, to the Village Board and noted that he found out the day before that this would be discussed at the HPC. To this end, he doesn't have a presentation ready.

Chairman Bohnen asked if the HPC has any thoughts.

Commissioner Prisby reviewed the architectural elements of the building, and is OK with the proposal as long as the limestone band course and everything above it stays as is because this is the most historic aspects of the building. And Commissioner Prisby is fine with the continuation of the paint, color and awning from the space next door (Nabuki) to the subject property.

Commissioner Weinberger agreed with Commissioner Prisby and is fine with everything as long as the terracotta element is not altered.

The applicant, Peter Burdi asked if it would be OK to paint below the awning.

Commissioner Prisby replied that he has no issues below the limestone.

Commissioner Weinberger stated she is OK with the paint as long as none of the decorative elements of the building are painted, below or above the awning.

Peter Burdi asked if the HPC was OK with the proposed windows.

Chan stated it was Trustee Stifflear's preference to keep the windows single paned.

Commissioner Haarlow concurred with Trustee Stifflear's recommendation and doesn't think the horizontal fenestration is appropriate, but is OK with the paint below the limestone.

Ryan Nestor asked if the HPC would be OK with fenestration on the inside of the window to expand the Nabuki bar experience all the way across.

Peter Burdi mentioned that he may be in the position to purchase the building in the next 3 to 5 years, but currently renting it.

Commissioner Haarlow asked to confirm the fenestration only on the inside of the windows.

Ryan Nestor replied correct, to achieve the Asian theme inside without impact to the exterior.

Commissioner Haarlow believes this is a better approach to preserve the building.

Commissioner Weinberger and Chairman Bohnen agreed.

Commissioner Haarlow asked Chan why this request did not appear before the HPC.

Chan replied that between the two historic districts, there's three types of permits that comes before the HPC. New construction or demo in the Robbins District and signage in the Downtown Historic District. This came before you because the Plan Commission made a recommendation to receive feedback from the HPC, and after the Village Board recommended to seek feedback at a public meeting.

Commissioner Haarlow asked if this is similar to what happened at the Hartley building.

Chairman Bohnen responded correct, and this process would change according to the Title 14 recommendation.

Chan mentioned that this is a conflict the Village is working through since the Plan Commission (PC) makes recommendations to the Village Board.

Commissioner Prisby stated that he believes the Title 14 recommendation was for the HPC to make a recommendation to the PC.

Commissioner Weinberger agreed.

Chairman Bohnen agreed that the HPC would have the first review for a recommendation to the PC. He also reviewed that the Village hired a consultant to move the Title 14 amendments along and believes should be introduced to the HPC.

Chan reviewed that Nate, the consultant is working on the incentives part with President Cauley and Michael Marrs and is a separate document than the Title 14 amendment the HPC and Mike D'Onofrio have worked on.

Chairman Bohnen asked why the Title 14 amendment isn't moving.

Chan replied that staff is creating a summary and decision making matrix while the Village Attorney is reviewing for conflicts with the Zoning Code and incentives document.

Chairman Bohnen asked if there's a timetable.

Chan responded staff is aiming for the next couple of weeks.

Adjournment

The HPC unanimously agreed to adjourn at 7:56PM on October 7, 2020.

Respectfully Submitted,

- 1 the people to the south at the Kenny Carlin
- 2 house that was built; and some feel it's none of
- 3 our business. So I mean I have an issue with
- 4 the fenestration on probably 70 percent of the
- 5 houses that we have looked at in the last three
- 6 or four years as it pertains to a Historic
- 7 District. I've voiced it so many times I'm
- B tired of doing it.
- **9** Evidently, the world is changing
- 06:57PM 10 their opinion of these things; and it's going to
 - 11 be the new world's chore to get after them I
 - 12 guess. So absent somebody really invading
 - 13 someone's privacy with an existing house on
 - **14** either side of a new structure, I think this is
 - 15 a subject that we have exhausted. We keep
 - 16 seeing it and seeing it and seeing it, and we
 - 17 seem to be the only ones that are concerned.
 - So, again, if we don't have any
 - 19 further comments, why don't we move along and
- **20** have a motion to approve this and take a vote.
 - 21 MR. HAARLOW: I will move to approve

- **5** MR. YU: Commissioner Weinberger?
- 6 MS. WEINBERGER: Nay.
- 7 MR. YU: Chairman Bohnen?
- 8 CHAIRMAN BOHNEN: Aye.
- **9** MR. YU: Commissioner Haarlow?

CHAIRMAN BOHNEN: And what would you characterize this house as? MR. FORTELKA: This is definitely more of a English-manor style. There are not parapet walls on the front of this house, much shorter roof overhang, as well as fascia board conditions. It's a more formal house. You can tell the first house was a little bit more casual and rustic with the cedar wood components on the exterior. CHAIRMAN BOHNEN: Right. MR. FORTELKA: This one is just a

This house is going to have a slate roof with a shaved copper ridge, will be lime washed brick as well. Unfortunately, the lime washed brick is very popular. It's not just Hinsdale. We are doing houses like this all over the country. It's just a popular material right now. We will also have zinc roofing material as well as an exterior stone veneer belt course all the way around the house. We will have dark-clad windows as well. And kind of a fun design aspect, if you look over to the left-hand side of the house, there is going to be a game room of sorts on the 1st floor that we were kind of harkening back to the original house had a sun room I believe on the same side of the house with a	2 3 4 5 6 7 8 9 07:02PM 10 11 12 13 14 15 16 17 18 19	CHAIRMAN BOHNEN: If I might, Patrick. 6 8 1 MR. FORTELKA: Sure. Yes, I would say bothers me is the game room. You know, John has 1 modern. Modern is a specific architectural 2 always talked about the windows. He did on the 2 style so it's probably more of a contemporary last house. At least the windows on the rest of 3 English style. Arts and Crafts is the first the house are windows. They look like frame thing that comes to mind because Arts and Crafts around them, something that's purchased, popped is a kind of a modern reaction to Tudor, which in place, tacked up as an individual window. 6 6 the house started out that way and we kind of 7 This game room looks like it is corner-to-corner 7 went to a little bit more of an edited form of 8 almost floor-to-ceiling glass. 8 9 MR. FORTELKA: You have got a good eye. 9 English through the design process. MS. WEINBERGER: So, Patrick, the MR. PRISBY: It looks like a glass box 07:04PM 10 07:06PM 10 11 drawings that you submitted where you have your attached to the side of the house. I understand 12 house on top and then another house sketched on 12 your point that there was a glass room there the bottom, is that a comparison to a historic before; but it had so much landscaping in front 13 14 style? 14 of it, one, you didn't even see it; right? Two, 15 MR. FORTELKA: I believe Julie it was set way back from the street where this 15 submitted that package. is going to be prominently out on the corner. 16 16 And the old one kind of tied into the old 17 MS. WEINBERGER: Okay. 17 MS. PIEMONTE: I believe that that's Georgian kind of plantation look where it had a 18 18 19 actually, the bottom home is the Pickell home 19 couple of pilasters in the corner, the transom 07:04PM **20** that we originated with, that we came to you 07:06PM **20** windows, had a lot more molding that were tied 21 guys with. to that style. But even that, it may have been 21 22 MS. WEINBERGER: Okay. 22 a lot of glass but it was still individual 9 1 MS. I am concerned about how MS. PIEMONTE: You're welcome. that's going to look with that much glass 4 4 MS. WEINBERGER: Because I was a little 5 without landscaping to protect it and to have it confused what -sticking way out on that corner much farther out 6 7 MS. It's hard 11 for me to hear, too. approved in July. 12 12 13 MS. WEINBERGER: Okay. 13 What window system were you using 14 MR. FORTELKA: Yes. And to your for that? I'm assuming it's not kind of a 14 15 comments on the entryway, I think Jim Prisby had standard Marvin window? 15 brought it up, the Piemontes aren't 100 percent MR. FORTELKA: No. It's actually going 16 16 17 there on the entryway either. So we are still to be a custom unit. I'm drawing a blank on the 17 18 working on that component. So knowing that is 18 manufacturer right now. It was going to be like 19 of interest to change on your part, I will 19 a curtain wall-type system. It's a very 07:05PM **20** definitely take a harder look at that. 07:07PM **20** expensive steel, steel-frame system that we are 21 MR. PRISBY: Patrick, you know, as far probably not going to be able to pull off. So 21 as the elevations go, the only thing that really to your point, we will probably end up with some 22 22

10 12 1 I do like the lower scale of the 1 framework on the corner. It was kind of being 2 revised plan. I definitely applaud the use of 2 done to clean up all the structure and get away from the pilasters and the ornamentation of the 3 high-quality materials, I think that's original room but still keep the idea of the sun 4 important. One of the things that is noted in 5 room space. the application is that this is a very prominent 6 MR. PRISBY: I like the concept of a 6 location and a very significant corner within 7 sun room there, it could be a game room. I just 7 the District. With the prior plans that we don't think that ties in with the rest of the 8 approved in July, the Orren Pickell plans, they 8 architecture. And it's to me the most prominent 9 9 went to great lengths when we had that hearing corner of that house, right? I would ask you to talk about the historical precedence for what 07:07PM 10 07:10PM 10 11 guys take another look at that. See if you can was going to be put on that spot. We were given 12 get that to be still significant glass if you all of these handouts that I pulled out from want it but something that ties in a little bit back in July. References to historical 13 13 buildings around the country, symmetry and so 14 better. This looks like kind of a unilock, fine 14 line, big window kind of system that I don't -forth. 15 15 16 16 It's very pricey. I just know that in my This new home, these new plans I 17 opinion -- okay, it's just my opinion -- it just 17 think, unfortunately, all of that is lost. I doesn't look right on that corner. That's a mean it's a very nice home. I don't think it 18 18 19 concern for me. 19 does justice to the lot the way that the prior 07:08PM **20** MR. FORTELKA: Understood. 07:11PM **20** plans did. I would have to say I was 21 MR. PRISBY: Now, is this one in for 21 disappointed in seeing these changes. The 22 permit or still in development? 22 Piemontes, it's their lot, their house, they 11 13 1 MR. FORTELKA: This one is in for should do what they want. But I feel that much permit as well. And just as a matter of record, 2 of what was persuasive and compelling in what we 3 I'm not calling anybody out on this but I, I approved in July has been lost. I think that's emailed Jim and -- Or Jim, you and Chan, 4 4 a disappointment given the prominence of the probably, I don't know, four or five months ago, 5 house that was there and the prominence of this 5 about both of these projects to get out in front lot now. So I guess I would hope that as much 6 6 of these. And because of Covid and all the 7 attention is given, as much consideration is 7 crazy business going on, I think it just kind of 8 given to that as possible and then the game room 8 went to the wayside. So we are really trying to 9 9 is maybe a place to start. 07:09PM **10** get out in front of these when we are in 07:12PM 10 MR. FORTELKA: Okay. 11 schematic design but the clients just can't wait 11 MS. WEINBERGER: I would echo what Bill 12 four months. just said. The work that went into the first 12 13 MR. PRISBY: No, understood. 13 design historically was a lot of work. We had a 14 CHAIRMAN BOHNEN: Any further comments? lot of discussion on it, and this house just 14 15 MR. HAARLOW: Well, I echo Jim's doesn't reflect that same historic conversation 15 16 concerns about the game room. I think because 16 that we had. I do appreciate that both the 17 the house is being pushed forward a lot on the north and south elevations do not have bulk, 17 18 lot and the way that it sits up on the hill 18 which is similar to the house that was torn down 19 that's going to become a very -- That's a very 19 was. But, yes, I agree with Bill's comments. 07:09PM **20** public space, a very public room, that everyone 07:13PM 20 CHAIRMAN BOHNEN: I think that, if I is going to see. So I think that I would concur 21 21 might speak for the Commission members, I think 22 with what Jim was saying before. what we are concerned about is that going years 22

14 16 into the future, whether or not we are around to 1 CHAIRMAN BOHNEN: Build something that 1 cast judgment or not, that homes that occupy 2 is admirable and that the community will 2 iconic sites like 419 and 716 South Oak, that 3 treasure and you will benefit from that. the homes that are built are built with a 4 MR. Any 8 these sites and the importance of the houses 9 further remarks? 9 that formerly occupied these sites and that our 07:16PM 10 May we have a motion? In light of 07:13PM 10 11 architects and new owners, if able, will go the Marco's last remarks, we may not be seeing the final iteration of this. So you might want to 12 extra mile to put detail into these homes that will give them a better chance to garner take that into consideration when you are voting 13 13 with the caveat that Marco and his bride Alexa 14 admiration and give a historic feeling 50, 60, 14 70, 80 years from now. would not take umbrage if you didn't vote in 15 15 16 Hard call I know to decide what the favor of this because they, evidently, are going 16 to redesign this. 17 future is going to love but --17 MR. FORTELKA: Well put. So having said that, why don't we 18 18 have a motion and see where the motion goes. Or 19 CHAIRMAN BOHNEN: I guess that's the 19 07:14PM **20** only thing I would say. So any other --07:17PM **20** we could postpone a vote until we see the new 21 MR. I will have a call with -- I if, in fact, you are going to come back to us 5 never saw it until today. I'm not happy that with a different design, would it impact you 6 that house looks like my house. So I will have 7 negatively if we postponed a vote on this 7 a call with Patrick and Julie tomorrow, and we 8 design? 8 are going to discuss it because I'm -- There 9 MS. LAUX: Yes, it would, because even 9 07:15PM 10 are going to be some changes. I'm not happy. 07:17PM 10 if they redesign the facade of the home they can 11 So I don't want to agree with you start to move forward at the foundation. The guys because like you guys are like my enemy I Piemontes have been long in waiting for this. 12 guess in a weird way with this whole process, So I think a vote would be helpful to get them 13 13 but I'm on your team now so we are going to on the track to getting started. 14 14 CHAIRMAN BOHNEN: So what you are 15 change it. 15 saying, Julie, is that if changes were made, 16 CHAIRMAN BOHNEN: That-a-boy. All 16 right, Marco. I love your spirit, man. they would not -- It would still be the same 17 17 18 MR. PIEMONTE: Thank you. I just hope 18 basic floor plan, foundation? 19 that --19 MS. LAUX: Correct. Yes. It would 07:15PM 20 CHAIRMAN BOHNEN: You are a young guy 07:18PM **20** allow them to get started. CHAIRMAN BOHNEN: Right. So we have 21 and you are going to be here for a long time. 21 22 MR. PIEMONTE: I am. come across this before in commercial work. 22

18 20 Oftentimes we go in for foundation permits and 1 MS. Does it serve a purpose to --8 conditions? 8 9 9 I mean if we vote yes, they start MR. YU: I think it's just better with 07:18PM 10 on their foundation, we are caught in the middle conditions. I don't know if you can break up a 07:21PM 10 of this thing. Can we have a vote to approve building permit approval with the foundation 12 the foundation plan so they can go in for permit 12 versus the rest of the house. and withhold a vote on the final design until 13 MR. PRISBY: Chan, my track record with 13 14 they come back to us? 14 the Village, they will not do that. Maybe Robb 15 MS. YU: We have done the condition of 22 22 Residential, no. 21 approval with working with the HPC architects. 1 CHAIRMAN BOHNEN: We do substructure We have done that commonly. and superstructure. But, again, I'm not here to 3 MR. PRISBY: Yes, but you know what my change the rules. Changing rules, as we know, 4 opinion is on that right now. 4 takes years in this Village. 5 CHAIRMAN BOHNEN: Well, give it to us. 5 MR. PRISBY: John, here is my input on 6 MR. PRISBY: Okay. this. Kind of like we talked about for the 6 CHAIRMAN BOHNEN: I mean it appears 7 first house tonight, right? You know, we are 7 that Mr. Piemonte wants to revisit some elements advisory. They can essentially do whatever they 8 8 want and we don't vote, and they still get to go 9 of design. 9 07:20PM 10 MR. PRISBY: Correct. And you know 07:22PM 10 ahead and pull a permit. what, at some level when we get a new design we 11 I think it's great that Piemonte 11 should review it as a group. But to Julie's wants to redesign some aspects to this. I would 12 12 13 point, you know, if they can get the foundation 13 love to be somehow as a group involved in that going, I think it might be ideal. process; but I think at this point you can 14 14 15 CHAIRMAN BOHNEN: Right. almost do that under good faith and say, Look, 15 MS. LAUX: They have just been at this you know, give them their approval tonight in 16 16 17 so long with all of the challenges that they hopes that they come back in front of us to get 17 18 have faced through this committee, Covid, 18 some feedback on the changes as they go; and 19 etcetera, etcetera, change of things, all the then we are not holding them up. And whether 07:20PM **20** difficulties that they had. 07:22PM 20 they accept our recommendations the next time through or not really is insignificant. 21 CHAIRMAN BOHNEN: No, we understand. I 21 22 understand. 22 MS. LAUX: I appreciate that statement.

RE: 448 E. 6th St. – Application for Certificate of Appropriateness to Demolish a Home in the

Robbins Park Historic District and to Construct a New Home

Case HPC-10-2020

Summary

The Village of Hinsdale has received an application from Michael Ryan of Park Five Homes (builder), requesting approval for a Certificate of Appropriateness to demolish an existing home in the Robbins Park Historic District to construct a new house. The project architect is Moment Design. Per the Village Code, no permits shall be issued for demolition or new construction of any structure located in a designated historic district without the rendering of a final decision by the Historic Preservation Commission (HPC) on an application for a Certificate of Appropriateness.

Request and Analysis

The existing home on 448 E. 6th Street was designed by Anderson Walter, constructed by Bellevue Builders in 1954 and a contributing structure in the Robbins Park Historic District according to the National Register of Historic Places. The applicant would like to seek the right to obtain a demolition permit to construct a new Code compliant single family house (attached). The proposed house features limewashed brick parapets, a covered front porch along with a cedar roof, and cedar board and batten siding. The subject property is located in the R-1 Single Family Residential District and borders the same to the north, south, east and west. The parcel is a legal nonconforming 14,979 SF lot. The application includes a colored front elevation, site plan and elevations of all sides of the new proposed 2.5-story 4,789 SF Belgian style farmhouse.

Process

Pursuant to Title 14, Section 14-5-1: (B) Historic District: No alteration shall be allowed to, and no permits shall be issued for, the alteration, demolition, signage, or any other physical modifications of the exterior architectural appearance of any structure, building, site, or area located in a designated historic district without the rendering of a final decision by the commission on an application for a certificate of appropriateness. The final decision of the commission shall be advisory only.

The Title 14, Section 14-5-2 (A) General Standards and (B) Design Standards to review can be found on Attachment 4.

CERTIFICATE OF APPROPRIATENESS

14-5-2: CRITERIA:

All applications for a certificate of appropriateness shall conform to the applicable standards in this section.

A. General Standards:

- 1. Alterations that do not affect any essential architectural or historic features of a structure or building as viewed from a public or private street ordinarily should be permitted.
- 2. The distinguishing original qualities or character of a structure, building, or site and its environment should not be destroyed. No alteration or demolition of any historic material or distinctive architectural feature should be permitted except when necessary to assure an economically viable use of a site.
- 3. All structures, buildings, sites, and areas should be recognized as products of their own time. Alterations that have no historical basis and that seek to create an earlier appearance than the true age of the property are discouraged.
- 4. Changes that may have taken place in the course of time are evidence of the history and development of a structure, building, or site and its environment. These changes may have acquired significance in their own right, and this significance should be recognized and respected when dealing with a specific architectural period.
- 5. Distinctive stylistic features or examples of skilled craftsmanship that characterize a structure, building, site, or area should ordinarily be maintained and preserved.
- 6. Deteriorated architectural features should be repaired rather than replaced, whenever possible. In the event replacement is necessary, the new material should match the material being replaced in composition, design, color, texture, and other visual qualities. Repair or replacement of missing architectural features should be based on accurate duplications of features, substantiated by historic, physical, or pictorial evidence rather than on conjectural designs or the availability of different architectural elements from other buildings or structures.
- 7. The surface cleaning of structures and buildings should be undertaken with the gentlest means possible. Sandblasting and other cleaning methods that will damage the structures and buildings should be avoided.
- 8. New structures or buildings, or alterations to sites should not be discouraged when such structures or alterations do not destroy significant historical or architectural features and are compatible with the size, scale, color, material, and character of the site, neighborhood, or environment.
- 9. Whenever possible, new structures or buildings, or alterations to the existing conditions of sites should be done in such a manner that, if such new structures or alterations were to be removed in the future, the essential form and integrity of the original structure, building, site, or area would be unimpaired.
- 10. Any permitted alteration or demolition should promote the purposes of this Title and general welfare of the Village and its residents.

11. Demolition should not be permitted if a structure, building, or site is economically viable in its present condition or could be economically viable after completion of appropriate alterations, even if demolition would permit a more profitable use of such site.

B. Design Standards:

- 1. Height: The height of a landmark after alteration should be compatible with the height of the original landmark. The height of a structure or building and adjacent open spaces after any proposed alteration or construction within an historic district should be compatible with the style and character of the structure or building and with surrounding structures and buildings in an historic district.
- 2. Relationship Between Mass And Open Space: The relationship between a landmark and adjacent open spaces after its alteration should be compatible with such relationship prior to such alteration. The relationship between a structure or building and adjacent open spaces after alteration within an historic district should be compatible with the relationship between surrounding structures, buildings and adjacent open spaces within such historic district.
- 3. Relationship Among Height, Width And Scale: The relationship among the height, width, and scale of a landmark after alteration should be compatible with such relationship prior to such alteration. The relationship among height, width, and scale of a structure or building after an alteration within an historic district should be compatible with the relationship among height, width, and scale of surrounding structures and buildings within such historic district.
- 4. Directional Expression: The directional expressions of a landmark after alteration, whether its vertical or horizontal positioning, should be compatible with the directional expression of the original landmark. The directional expression of a structure or building after alteration within an historic district should be compatible with the directional expression of surrounding structures and buildings within such historic district.
- 5. Roof Shape: The roof shape of a landmark after alteration should be compatible with the roof shape of the original landmark. The roof shape of a structure, building, or object after alteration within an historic district should be compatible with the roof shape of surrounding structures and buildings within such historic district.
- 6. Architectural Details, General Designs, Materials, Textures, And Colors: The architectural details, general design, materials, textures, and colors of a landmark after alteration should be compatible with the architectural details, general design, materials, textures, and colors of the original landmark. The architectural details, general design, materials, textures, and colors of a structure or building after alteration within an historic district should be compatible with the architectural details, general design, materials, textures, and colors of surrounding structures and buildings within such historic district.
- 7. Landscape And Appurtenances: The landscape and appurtenances, including without limitation signs, fences, accessory structures, and pavings, of a landmark after alteration should be compatible with the landscape and appurtenances of the original landmark. The landscape and appurtenances of a structure or building after alteration within an historic district should be compatible with the landscape and appurtenances of surrounding structures and buildings within such historic district.
- 8. Construction: New construction in an historic district should be compatible with the architectural styles, design standards and streetscapes within such historic districts.
