

**VILLAGE OF HINSDALE  
ENVIRONMENT AND PUBLIC SERVICES COMMITTEE MINUTES  
MONDAY, MAY 12, 2014**

Chairman Laura LaPlaca called the meeting of the Environment and Public Services Committee to order at 7:34 P.M., Monday May 12, 2014, in Memorial Hall of the Memorial Building, 19 East Chicago Avenue, Hinsdale, IL.

**PRESENT:** Chairman Laura LaPlaca, Trustee Gerald Hughes, Trustee Bob Saigh

**ABSENT:** Trustee Haarlow

**ALSO PRESENT:** Kathleen Gargano, Village Manager; George Franco, Director of Public Services; Tom Bueser, Deputy Director of Public Services; Dan Deeter, Village Engineer.

**Approval of Minutes – April 14, 2014**

The EPS Committee reviewed the minutes from the April 14, 2014 meeting. Trustee Hughes provided staff a copy of the minutes with minor corrections. Trustee Saigh motioned for approval of the April 14, 2014 minutes. Trustee Hughes seconded. The motion passed unanimously.

**Public Services Monthly Report**

Mr. Franco provided an update on Public Service Department upcoming activities which include:

- Water restrictions which begin on May 15, 2014
- Parkway tree planting which is scheduled to begin on Thursday May 15, 2014; dependant upon weather. (Due to the current weather this program has been postponed until Monday May 19, 2014). Trustee Saigh inquired how many trees will be planted. Mr. Franco noted that approximately 120 trees will be planted.

Crews are focusing on maintenance to get the Community Pool running for opening day.

**Memorial Building Patio Update.** Mr. Franco provided Committee an update on the Memorial Building east patio drainage installation and new patio upgrades. The drainage system has been installed as well as the patio area replaced with brick pavers. Public Service crews will be handling restoration of excavation with dirt and seed repairs and concrete sidewalk replacement.

Trustee LaPlaca noted that the bricks utilized for the patio replacement have been reconstituted from the South Garfield reconstruction project.

## DRAFT

Trustee Saigh inquired about the three tubes located on the Memorial Building grounds. Mr. Franco noted that as there are no storm sewers in the area to directly tie the drainage system into, the three tubes serve as an endpoint of the system to let the water leach into the soil. These tubes will be cut flush with the ground after turf has been established.

**Village Lot Lighting Update.** Mr. Franco provided summary detail on this item which includes \$245,000 funding in the FY 2014-15 budget to complete resurfacing and electrical lighting upgrades in the Village Lot. Input from Committee was requested for the lighting portion of the upgrades to upgrade the lighting from current status to decorative lighting similar to KLM and Chestnut Street parking lots.

Trustee Saigh inquired if three lights would produce enough light in the lot with the current design which includes the installation of three lights. Mr. Franco noted that there are existing decorative light poles on the south, east, and west side of the parking lot. The three new lights will be installed in the interior of the parking lot. Also LED bulbs can be utilized during the installation.

Trustee LaPlaca requested that when a final draft of the improvements is completed, a map is brought back to Committee with the exact location of decorative light pole installation.

### **Engineering Monthly Report**

**Capital Project Status.** Mr. Deeter highlighted that construction continues on the 2014 Reconstruction Project on Walnut Street from Washington – Vine and on Clay Street from Maple – Walnut. In the Woodlands construction continues on Cleveland from Woodlands – 55<sup>th</sup> Street and Harding Road from Woodlands to Taft. Staff has recently been notified that the Flagg Creek Water Reclamation District construction on 55<sup>th</sup> Street will be estimated to take place in October or September.

**Project Change Order Request.** Mr. Deeter highlighted the project change orders to date. Mr. Deeter discussed with the committee how the Village avoided a larger change order by modifying the Woodlands plan to include a berm between Harding Road and 55<sup>th</sup> Street. This will provide the additional benefit of enhancing the screenings between residents and 55<sup>th</sup> Street.

**Oak Street Bridge Phase 2 (Design Engineering) Schedule.** Chairman LaPlaca reminded residents that they can still provide comments to the 04/29/14 Public Meeting until 05/01/14. Mr. Deeter highlighted the Oak Street Bridge activities in the last month.

**2014 Infrastructure and Resurfacing Project Status.** At the 04/25/14 bid opening, only two bids were submitted for construction of this project. Both were over the budget. Mr. Deeter discussed staff's analysis for the high bids and actions to construct as much of the project as possible. Staff is investigating different methods to construction portions of the project within the budget. These include adding some streets to existing projects (2014 Reconstruction or Woodlands Phase 2), using the Municipal Partnering Initiative bids, and re-bidding a smaller portion of the project.

**Retention of 2013 Reconstruction Project funds.** Mr. Deeter explained the circumstances surrounding the lien on the 2013 Reconstruction Project. This lien will not increase the Village's cost for this project. The Village attorney recommends that the Village should deposit funds that we have retained in the amount of the liens with the Clerk of the Circuit Court. After some discussion, the Committee directed staff to work with the Village attorney to identify the correct amount to deposit and proceed with depositing these funds with the Clerk of the Circuit Court.

**To Award the Engineering Services for Design of the 2015 Reconstruction Project to Bowman Consulting Group in the Amount Not to Exceed \$104,520.00.**

Chairman LaPlaca introduced this agenda item. Mr. Deeter noted that requests for proposals were sent out and received from eight engineering consultants. Staff recommends Bowman Consulting Group. Mr. Alan Swanson of Bowman Consulting Group addressed the committee. Mr. Swanson said that Bowman will honor the Construction Observation cost as stated in this proposal if they are recommended for that engineering service next year. Trustee Saigh moved to approve. Trustee Hughes seconded. The motion passed unanimously

**To Award the Engineering Services for Design of the 2015 Resurfacing Project to Christopher B. Burke Engineering Ltd. in the Amount Not to Exceed \$44,682.00.**

Chairman LaPlaca introduced this agenda item. Mr. Deeter noted that requests for proposals were sent out and received from eight engineering consultants. Staff recommends Christopher B. Burke Engineering, Ltd. (CBBEL). Mr. Steve Sugg of CBBEL said that CBBEL will honor the Construction Observation cost as stated in this proposal if they are recommended for that engineering service next year. Trustee Saigh moved to approve. Trustee Hughes seconded. The motion passed unanimously

**Other Business**

**Sump Pump Discharge from 412 E. Eighth Street.** Chairman LaPlaca introduced this agenda item. Mr. Deeter stated that excess sump pump discharges into the right of way is an issues throughout the Village. These can cause a public nuisance (perpetually

## DRAFT

wet or icy streets & sidewalks) such as at 412 E. Eighth Street. Staff has identified at least 22 areas where discharging into the right of way was a problem.

The issue is caused by two main factors. First, because of unpredictable underground conditions, some sump pumps produce more water than anticipated. This excess water exceeds any ability to soak into the originating property. The majority of the water then runs into the right of way. Secondly, without a near-by sewer inlet, this excess surface flow causes slippery or icy conditions.

Trustee Hughes clarified that there are three different situations that the committee should consider:

- 1) How to prevent this in new construction.
- 2) How to address the existing problem areas.
- 3) How to address new problem areas caused by residents making building or landscaping changes.

Mr. Deeter informed the committee how the staff currently addresses the issue. For new construction, he recommended that the Village require the home owner to discharge their sump pumps into the nearest storm sewers. If no storm sewer is available, they should discharge the sump pump waters in the vicinity of a combined sewer inlet. This would require the owner or builder to installing storm sewer pipes through the right of way to the nearest sewer. This new storm sewer would be installed at the owner's/builder's expense. The committee agreed with this approach. Staff will develop new Village policies for the committee's review.

Staff is studying the existing problem areas in the Village. Staff will present recommendations for these at a future meeting. Village Manager Kathleen Gargano asked that we confirm that these existing discharges were approved at some time by Village staff. Drainage issues caused by future changes to landscaping or discharge points are addressed by staff when neighbors call the Village about the excess drainage. Staff will update the Village Engineering Standards for the Committee's review.

### Adjournment

With no further issues to be brought before the Committee, Trustee Saigh moved to adjourn. Trustee Hughes seconded. Motion carried and the meeting was adjourned at 9:08 P.M.

Respectfully submitted,

Dan Deeter  
Village Engineer

<b>AGENDA</b>	<b>ORIGINATING</b>
<b>SECTION NUMBER</b> EPS Consent Agenda	<b>DEPARTMENT</b> Community Development
<b>ITEM</b> Prevailing Wage Ordinance	<b>APPROVAL</b> Dan Deeter Village Engineer

The State of Illinois requires municipalities to adopt an ordinance stating that the municipalities will investigate and ascertain prevailing wages for the construction of public works projects. This is an annual ordinance.

**MOTION: To Adopt An Ordinance Establishing Prevailing Wages for Public Works in the Village of Hinsdale, Cook and DuPage Counties, Illinois**

<b>APPROVAL</b>	<b>APPROVAL</b>	<b>APPROVAL</b>	<b>APPROVAL</b>	<b>MANAGER'S APPROVAL</b>
<b>COMMITTEE ACTION:</b>				
<b>BOARD ACTION:</b>				

VILLAGE OF HINSDALE

ORDINANCE NO. \_\_\_\_\_

**AN ORDINANCE ESTABLISHING PREVAILING WAGES  
FOR PUBLIC WORKS IN THE VILLAGE OF HINSDALE,  
COOK AND DUPAGE COUNTIES, ILLINOIS**

**WHEREAS**, the State of Illinois has enacted the Prevailing Wage Act, 820 ILCS 130/0.01 *et seq.* (2011), as amended (“the Act”); and

**WHEREAS**, the Act requires that the Village of Hinsdale (“Village”) investigate and ascertain the prevailing rate of wages as defined in said Act for laborers, mechanics and other workers in the locality of the Village employed in performing construction of public works during the month of June of each year.

**NOW, THEREFORE, BE IT ORDAINED** by the President and Board of Trustees of the Village of Hinsdale, DuPage and Cook Counties and State of Illinois, as follows:

**Section 1. Recitals Incorporated.** The recitals set forth above constitute a material part of this Ordinance as if set forth in their entirety in this Section 1.

**Section 2. Determination of Prevailing Wages.** To the extent and as required by the Act, the general prevailing rate of wages in the Village for laborers, mechanics and other workers engaged in construction of public works coming under the jurisdiction of the Village is hereby ascertained to be the same as the prevailing wages for construction work in DuPage and Cook Counties, as determined by the Department of Labor of the State of Illinois as of June 1, 2014, a copy of said determinations being attached hereto and incorporated herein by reference as Group Exhibit A. The definition of any terms appearing in this Ordinance which are also used in the aforesaid Act shall be the same as in said Act.

**Section 3. Prevailing Wages Applicable to Public Works.** Nothing herein contained shall be construed to apply said general prevailing rate of wages as herein ascertained to any work or employment except public works construction of the Village to the extent required by the Act.

**Section 4. Posting of Determination.** The Village Clerk shall publicly post or keep available for inspection by any interested party this determination of such prevailing rate of wages or any revisions of such prevailing rate of wages. A copy of this determination or of the current revised determination of prevailing rate of wages then in effect shall be attached to contract specifications as required by the Act, or, if permitted by the Act, shall be referenced in the contract specifications.

**Section 5. Service of Determination.** The Village Clerk shall mail a copy of this determination to any employer and to any person or association of employees who have filed their names and addresses and have requested copies of any determination stating the particular rates and the particular class of workers whose wages will be affected by such rates.

**Section 6. Filing of Determination.** The Village Clerk shall promptly file a certified copy of this Ordinance with both the Secretary of State and the Department of Labor of the State of Illinois.

**Section 7. Publication of Determination.** Within thirty days after the filing with the Secretary of State, the Village Clerk is hereby authorized and directed to cause to be published in a newspaper of general circulation within the area notification of passage of this Ordinance, stating:

**VILLAGE OF HINSDALE  
DUPAGE AND COOK COUNTIES, ILLINOIS**

**PUBLIC NOTICE OF ADOPTION OF PREVAILING WAGE STANDARDS**

**PLEASE TAKE NOTICE** that on June \_\_, 2014, the President and Board of Trustees of the Village of Hinsdale, DuPage and Cook Counties, Illinois, adopted Ordinance Number \_\_\_\_\_, determining prevailing wages pursuant to 820 ILCS 130/1 *et seq.*, the Illinois "Prevailing Wage Act," which determination is now effective.

**(Date of Publication)**

**Published by Order of the President and Board of Trustees of the Village of Hinsdale**

**CHRISTINE M. BRUTON  
VILLAGE CLERK**

and such publication shall constitute notice that the determination is effective and that this is the determination of the Village.

**Section 8. Severability and Repeal of Inconsistent Ordinances.** If any section, paragraph, clause or provision of this Ordinance shall be held invalid, the invalidity thereof shall not affect any of the other provisions of this Ordinance. All ordinances in conflict herewith are hereby repealed to the extent of such conflict.

**Section 9. Effective Date.** This Ordinance shall be in full force and effect from and after its passage, approval, and publication in pamphlet form in the manner provided by law.

PASSED this \_\_\_\_th day of June 2014.

AYES:

NAYS:

ABSENT:

APPROVED this \_\_\_\_ day of \_\_\_\_\_ 2014.

**Explanations****COOK COUNTY**

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

TRUCK DRIVERS (WEST) - That part of the county West of Barrington Road.

**EXPLANATION OF CLASSES**

ASBESTOS - GENERAL - removal of asbestos material/mold and hazardous materials from any place in a building, including mechanical systems where those mechanical systems are to be removed. This includes the removal of asbestos materials/mold and hazardous materials from ductwork or pipes in a building when the building is to be demolished at the time or at some close future date.

ASBESTOS - MECHANICAL - removal of asbestos material from mechanical

systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

#### CERAMIC TILE FINISHER

The grouting, cleaning, and polishing of all classes of tile, whether for interior or exterior purposes, all burned, glazed or unglazed products; all composition materials, granite tiles, warning detectable tiles, cement tiles, epoxy composite materials, pavers, glass, mosaics, fiberglass, and all substitute materials, for tile made in tile-like units; all mixtures in tile like form of cement, metals, and other materials that are for and intended for use as a finished floor surface, stair treads, promenade roofs, walks, walls, ceilings, swimming pools, and all other places where tile is to form a finished interior or exterior. The mixing of all setting mortars including but not limited to thin-set mortars, epoxies, wall mud, and any other sand and cement mixtures or adhesives when used in the preparation, installation, repair, or maintenance of tile and/or similar materials. The handling and unloading of all sand, cement, lime, tile, fixtures, equipment, adhesives, or any other materials to be used in the preparation, installation, repair, or maintenance of tile and/or similar materials. Ceramic Tile Finishers shall fill all joints and voids regardless of method on all tile work, particularly and especially after installation of said tile work. Application of any and all protective coverings to all types of tile installations including, but not be limited to, all soap compounds, paper products, tapes, and all polyethylene coverings, plywood, masonite, cardboard, and any new type of products that may be used to protect tile installations, Blastrac equipment, and all floor scarifying equipment used in preparing floors to receive tile. The clean up and removal of all waste and materials. All demolition of existing tile floors and walls to be re-tiled.

#### COMMUNICATIONS ELECTRICIAN

Installation, operation, inspection, maintenance, repair and service of radio, television, recording, voice sound vision production and reproduction, telephone and telephone interconnect, facsimile, data apparatus, coaxial, fibre optic and wireless equipment, appliances and systems used for the transmission and reception of signals of any nature, business, domestic, commercial, education, entertainment, and residential purposes, including but not limited to, communication and telephone, electronic and sound equipment, fibre optic and data communication systems, and the performance of any task directly related to such installation or service whether at new or existing sites, such tasks to include the placing of wire and cable and electrical power conduit or other raceway work within the equipment room and pulling wire and/or cable through conduit and the installation of any incidental conduit, such that the employees covered hereby can complete any job in full.

#### MARBLE FINISHER

Loading and unloading trucks, distribution of all materials (all stone, sand, etc.), stocking of floors with material, performing all rigging for heavy work, the handling of all material that may be needed for the installation of such materials, building of scaffolding, polishing if needed, patching, waxing of material if damaged, pointing up, caulking, grouting and cleaning of marble,

holding water on diamond or Carborundum blade or saw for setters cutting, use of tub saw or any other saw needed for preparation of material, drilling of holes for wires that anchor material set by setters, mixing up of molding plaster for installation of material, mixing up thin set for the installation of material, mixing up of sand to cement for the installation of material and such other work as may be required in helping a Marble Setter in the handling of all material in the erection or installation of interior marble, slate, travertine, art marble, serpentine, alberene stone, blue stone, granite and other stones (meaning as to stone any foreign or domestic materials as are specified and used in building interiors and exteriors and customarily known as stone in the trade), carrara, sanionyx, vitrolite and similar opaque glass and the laying of all marble tile, terrazzo tile, slate tile and precast tile, steps, risers treads, base, or any other materials that may be used as substitutes for any of the aforementioned materials and which are used on interior and exterior which are installed in a similar manner.

MATERIAL TESTER I: Hand coring and drilling for testing of materials; field inspection of uncured concrete and asphalt.

MATERIAL TESTER II: Field inspection of welds, structural steel, fireproofing, masonry, soil, facade, reinforcing steel, formwork, cured concrete, and concrete and asphalt batch plants; adjusting proportions of bituminous mixtures.

#### OPERATING ENGINEER - BUILDING

Class 1. Asphalt Plant; Asphalt Spreader; Autograde; Backhoes with Caisson Attachment; Batch Plant; Benoto (requires Two Engineers); Boiler and Throttle Valve; Caisson Rigs; Central Redi-Mix Plant; Combination Back Hoe Front End-loader Machine; Compressor and Throttle Valve; Concrete Breaker (Truck Mounted); Concrete Conveyor; Concrete Conveyor (Truck Mounted); Concrete Paver Over 27E cu. ft; Concrete Paver 27E cu. ft. and Under; Concrete Placer; Concrete Placing Boom; Concrete Pump (Truck Mounted); Concrete Tower; Cranes, All; Cranes, Hammerhead; Cranes, (GCI and similar Type); Creter Crane; Spider Crane; Crusher, Stone, etc.; Derricks, All; Derricks, Traveling; Formless Curb and Gutter Machine; Grader, Elevating; Grouting Machines; Heavy Duty Self-Propelled Transporter or Prime Mover; Highlift Shovels or Front Endloader 2-1/4 yd. and over; Hoists, Elevators, outside type rack and pinion and similar machines; Hoists, One, Two and Three Drum; Hoists, Two Tugger One Floor; Hydraulic Backhoes; Hydraulic Boom Trucks; Hydro Vac (and similar equipment); Locomotives, All; Motor Patrol; Lubrication Technician; Manipulators; Pile Drivers and Skid Rig; Post Hole Digger; Pre-Stress Machine; Pump Cretes Dual Ram; Pump Cretes: Squeeze Cretes-Screw Type Pumps; Gypsum Bulker and Pump; Raised and Blind Hole Drill; Roto Mill Grinder; Scoops - Tractor Drawn; Slip-Form Paver; Straddle Buggies; Operation of Tie Back Machine; Tournapull; Tractor with Boom and Side Boom; Trenching Machines.

Class 2. Boilers; Broom, All Power Propelled; Bulldozers; Concrete Mixer (Two Bag and Over); Conveyor, Portable; Forklift Trucks; Highlift Shovels or Front Endloaders under 2-1/4 yd.; Hoists, Automatic; Hoists, Inside Elevators; Hoists, Sewer Dragging Machine; Hoists, Tugger Single Drum; Laser Screed; Rock Drill (Self-Propelled); Rock Drill (Truck Mounted); Rollers, All; Steam Generators; Tractors,

All; Tractor Drawn Vibratory Roller; Winch Trucks with "A" Frame.

Class 3. Air Compressor; Combination Small Equipment Operator; Generators; Heaters, Mechanical; Hoists, Inside Elevators (remodeling or renovation work); Hydraulic Power Units (Pile Driving, Extracting, and Drilling); Pumps, over 3" (1 to 3 not to exceed a total of 300 ft.); Low Boys; Pumps, Well Points; Welding Machines (2 through 5); Winches, 4 Small Electric Drill Winches.

Class 4. Bobcats and/or other Skid Steer Loaders; Oilers; and Brick Forklift.

Class 5. Assistant Craft Foreman.

Class 6. Gradall.

Class 7. Mechanics; Welders.

#### OPERATING ENGINEERS - HIGHWAY CONSTRUCTION

Class 1. Asphalt Plant; Asphalt Heater and Planer Combination; Asphalt Heater Scarfire; Asphalt Spreader; Autograder/GOMACO or other similar type machines; ABG Paver; Backhoes with Caisson Attachment; Ballast Regulator; Belt Loader; Caisson Rigs; Car Dumper; Central Redi-Mix Plant; Combination Backhoe Front Endloader Machine, (1 cu. yd. Backhoe Bucket or over or with attachments); Concrete Breaker (Truck Mounted); Concrete Conveyor; Concrete Paver over 27E cu. ft.; Concrete Placer; Concrete Tube Float; Cranes, all attachments; Cranes, Tower Cranes of all types: Creter Crane; Spider Crane; Crusher, Stone, etc.; Derricks, All; Derrick Boats; Derricks, Traveling; Dredges; Elevators, Outside type Rack & Pinion and Similar Machines; Formless Curb and Gutter Machine; Grader, Elevating; Grader, Motor Grader, Motor Patrol, Auto Patrol, Form Grader, Pull Grader, Subgrader; Guard Rail Post Driver Truck Mounted; Hoists, One, Two and Three Drum; Heavy Duty Self-Propelled Transporter or Prime Mover; Hydraulic Backhoes; Backhoes with shear attachments up to 40' of boom reach; Lubrication Technician; Manipulators; Mucking Machine; Pile Drivers and Skid Rig; Pre-Stress Machine; Pump Cretes Dual Ram; Rock Drill - Crawler or Skid Rig; Rock Drill - Truck Mounted; Rock/Track Tamper; Roto Mill Grinder; Slip-Form Paver; Snow Melters; Soil Test Drill Rig (Truck Mounted); Straddle Buggies; Hydraulic Telescoping Form (Tunnel); Operation of Tieback Machine; Tractor Drawn Belt Loader; Tractor Drawn Belt Loader (with attached pusher - two engineers); Tractor with Boom; Tractaire with Attachments; Traffic Barrier Transfer Machine; Trenching; Truck Mounted Concrete Pump with Boom; Raised or Blind Hole Drills (Tunnel Shaft); Underground Boring and/or Mining Machines 5 ft. in diameter and over tunnel, etc; Underground Boring and/or Mining Machines under 5 ft. in diameter; Wheel Excavator; Widener (APSCO).

Class 2. Batch Plant; Bituminous Mixer; Boiler and Throttle Valve; Bulldozers; Car Loader Trailing Conveyors; Combination Backhoe Front Endloader Machine (Less than 1 cu. yd. Backhoe Bucket or over or with attachments); Compressor and Throttle Valve; Compressor, Common Receiver (3); Concrete Breaker or Hydro Hammer; Concrete Grinding Machine; Concrete Mixer or Paver 7S Series to and including 27 cu. ft.; Concrete Spreader; Concrete Curing Machine, Burlap Machine, Belting Machine and Sealing Machine; Concrete Wheel Saw; Conveyor Muck Cars (Haglund or Similar Type); Drills, All; Finishing Machine -

Concrete; Highlift Shovels or Front Endloader; Hoist - Sewer Dragging Machine; Hydraulic Boom Trucks (All Attachments); Hydro-Blaster; Hydro Excavating (excluding hose work); Laser Screed; All Locomotives, Dinky; Off-Road Hauling Units (including articulating) Non Self-Loading Ejection Dump; Pump Cretes: Squeeze Cretes - Screw Type Pumps, Gypsum Bulker and Pump; Roller, Asphalt; Rotary Snow Plows; Rototiller, Seaman, etc., self-propelled; Self-Propelled Compactor; Spreader - Chip - Stone, etc.; Scraper - Single/Twin Engine/Push and Pull; Scraper - Prime Mover in Tandem (Regardless of Size); Tractors pulling attachments, Sheeps Foot, Disc, Compactor, etc.; Tug Boats.

Class 3. Boilers; Brooms, All Power Propelled; Cement Supply Tender; Compressor, Common Receiver (2); Concrete Mixer (Two Bag and Over); Conveyor, Portable; Farm-Type Tractors Used for Mowing, Seeding, etc.; Forklift Trucks; Grouting Machine; Hoists, Automatic; Hoists, All Elevators; Hoists, Tugger Single Drum; Jeep Diggers; Low Boys; Pipe Jacking Machines; Post-Hole Digger; Power Saw, Concrete Power Driven; Pug Mills; Rollers, other than Asphalt; Seed and Straw Blower; Steam Generators; Stump Machine; Winch Trucks with "A" Frame; Work Boats; Tamper-Form-Motor Driven.

Class 4. Air Compressor; Combination - Small Equipment Operator; Directional Boring Machine; Generators; Heaters, Mechanical; Hydraulic Power Unit (Pile Driving, Extracting, or Drilling); Light Plants, All (1 through 5); Pumps, over 3" (1 to 3 not to exceed a total of 300 ft.); Pumps, Well Points; Vacuum Trucks (excluding hose work); Welding Machines (2 through 5); Winches, 4 Small Electric Drill Winches.

Class 5. SkidSteer Loader (all); Brick Forklifts; Oilers.

Class 6. Field Mechanics and Field Welders

Class 7. Dowell Machine with Air Compressor; Gradall and machines of like nature.

#### OPERATING ENGINEER - FLOATING

Class 1. Craft Foreman; Master Mechanic; Diver/Wet Tender; Engineer; Engineer (Hydraulic Dredge).

Class 2. Crane/Backhoe Operator; Boat Operator with towing endorsement; Mechanic/Welder; Assistant Engineer (Hydraulic Dredge); Leverman (Hydraulic Dredge); Diver Tender.

Class 3. Deck Equipment Operator, Machineryman, Maintenance of Crane (over 50 ton capacity) or Backhoe (115,000 lbs. or more); Tug/Launch Operator; Loader/Dozer and like equipment on Barge, Breakwater Wall, Slip/Dock, or Scow, Deck Machinery, etc.

Class 4. Deck Equipment Operator, Machineryman/Fireman (4 Equipment Units or More); Off Road Trucks; Deck Hand, Tug Engineer, Crane Maintenance (50 Ton Capacity and Under) or Backhoe Weighing (115,000 pounds or less); Assistant Tug Operator.

Class 5. Friction or Lattice Boom Cranes.

SURVEY WORKER - Operated survey equipment including data collectors, G.P.S. and robotic instruments, as well as conventional levels and transits.

## TERRAZZO FINISHER

The handling of sand, cement, marble chips, and all other materials that may be used by the Mosaic Terrazzo Mechanic, and the mixing, grinding, grouting, cleaning and sealing of all Marble, Mosaic, and Terrazzo work, floors, base, stairs, and wainscoting by hand or machine, and in addition, assisting and aiding Marble, Masonic, and Terrazzo Mechanics.

## TRAFFIC SAFETY

Work associated with barricades, horses and drums used to reduce lane usage on highway work, the installation and removal of temporary lane markings, and the installation and removal of temporary road signs.

## TRUCK DRIVER - BUILDING, HEAVY AND HIGHWAY CONSTRUCTION - EAST &amp; WEST

Class 1. Two or three Axle Trucks. A-frame Truck when used for transportation purposes; Air Compressors and Welding Machines, including those pulled by cars, pick-up trucks and tractors; Ambulances; Batch Gate Lockers; Batch Hopperman; Car and Truck Washers; Carry-alls; Fork Lifts and Hoisters; Helpers; Mechanics; Helpers and Greasers; Oil Distributors 2-man operation; Pavement Breakers; Pole Trailer, up to 40 feet; Power Mower Tractors; Self-propelled Chip Spreader; Skipman; Slurry Trucks, 2-man operation; Slurry Truck Conveyor Operation, 2 or 3 man; Teamsters; Unskilled Dumpman; and Truck Drivers hauling warning lights, barricades, and portable toilets on the job site.

Class 2. Four axle trucks; Dump Crets and Adgetors under 7 yards; Dumpsters, Track Trucks, Euclids, Hug Bottom Dump Turnapulls or Turnatrailers when pulling other than self-loading equipment or similar equipment under 16 cubic yards; Mixer Trucks under 7 yards; Ready-mix Plant Hopper Operator, and Winch Trucks, 2 Axles.

Class 3. Five axle trucks; Dump Crets and Adgetors 7 yards and over; Dumpsters, Track Trucks, Euclids, Hug Bottom Dump Turnatrailers or turnapulls when pulling other than self-loading equipment or similar equipment over 16 cubic yards; Explosives and/or Fission Material Trucks; Mixer Trucks 7 yards or over; Mobile Cranes while in transit; Oil Distributors, 1-man operation; Pole Trailer, over 40 feet; Pole and Expandable Trailers hauling material over 50 feet long; Slurry trucks, 1-man operation; Winch trucks, 3 axles or more; Mechanic--Truck Welder and Truck Painter.

Class 4. Six axle trucks; Dual-purpose vehicles, such as mounted crane trucks with hoist and accessories; Foreman; Master Mechanic; Self-loading equipment like P.B. and trucks with scoops on the front.

## Other Classifications of Work:

For definitions of classifications not otherwise set out, the Department generally has on file such definitions which are available. If a task to be performed is not subject to one of the classifications of pay set out, the Department will upon being contacted state which neighboring county has such a classification and provide such rate, such rate being deemed to exist by reference in this document. If no neighboring county rate applies to the task,

the Department shall undertake a special determination, such special determination being then deemed to have existed under this determination. If a project requires these, or any classification not listed, please contact IDOL at 217-782-1710 for wage rates or clarifications.

#### LANDSCAPING

Landscaping work falls under the existing classifications for laborer, operating engineer and truck driver. The work performed by landscape plantsman and landscape laborer is covered by the existing classification of laborer. The work performed by landscape operators (regardless of equipment used or its size) is covered by the classifications of operating engineer. The work performed by landscape truck drivers (regardless of size of truck driven) is covered by the classifications of truck driver.

#### MATERIAL TESTER & MATERIAL TESTER/INSPECTOR I AND II

Notwithstanding the difference in the classification title, the classification entitled "Material Tester I" involves the same job duties as the classification entitled "Material Tester/Inspector I". Likewise, the classification entitled "Material Tester II" involves the same job duties as the classification entitled "Material Tester/Inspector II".

# Du Page County Prevailing Wage for June 2014

## Explanations

### DUPAGE COUNTY

IRON WORKERS AND FENCE ERECTOR (WEST) - West of Route 53.

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

### EXPLANATION OF CLASSES

ASBESTOS - GENERAL - removal of asbestos material/mold and hazardous materials from any place in a building, including mechanical systems where those mechanical systems are to be removed. This includes the removal of asbestos materials/mold and hazardous materials from ductwork or pipes in a building when the building is to be demolished at the time or at some close future date.

ASBESTOS - MECHANICAL - removal of asbestos material from mechanical systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

TRAFFIC SAFETY - work associated with barricades, horses and drums used to reduce lane usage on highway work, the installation and

removal of temporary lane markings, and the installation and removal of temporary road signs.

#### CERAMIC TILE FINISHER

The grouting, cleaning, and polishing of all classes of tile, whether for interior or exterior purposes, all burned, glazed or unglazed products; all composition materials, granite tiles, warning detectable tiles, cement tiles, epoxy composite materials, pavers, glass, mosaics, fiberglass, and all substitute materials, for tile made in tile-like units; all mixtures in tile like form of cement, metals, and other materials that are for and intended for use as a finished floor surface, stair treads, promenade roofs, walks, walls, ceilings, swimming pools, and all other places where tile is to form a finished interior or exterior. The mixing of all setting mortars including but not limited to thin-set mortars, epoxies, wall mud, and any other sand and cement mixtures or adhesives when used in the preparation, installation, repair, or maintenance of tile and/or similar materials. The handling and unloading of all sand, cement, lime, tile, fixtures, equipment, adhesives, or any other materials to be used in the preparation, installation, repair, or maintenance of tile and/or similar materials. Ceramic Tile Finishers shall fill all joints and voids regardless of method on all tile work, particularly and especially after installation of said tile work. Application of any and all protective coverings to all types of tile installations including, but not be limited to, all soap compounds, paper products, tapes, and all polyethylene coverings, plywood, masonite, cardboard, and any new type of products that may be used to protect tile installations, Blastrac equipment, and all floor scarifying equipment used in preparing floors to receive tile. The clean up and removal of all waste and materials. All demolition of existing tile floors and walls to be re-tiled.

#### COMMUNICATIONS TECHNICIAN

Low voltage installation, maintenance and removal of telecommunication facilities (voice, sound, data and video) including telephone and data inside wire, interconnect, terminal equipment, central offices, PABX, fiber optic cable and equipment, micro waves, V-SAT, bypass, CATV, WAN (wide area networks), LAN (local area networks), and ISDN (integrated system digital network), pulling of wire in raceways, but not the installation of raceways.

#### MARBLE FINISHER

Loading and unloading trucks, distribution of all materials (all stone, sand, etc.), stocking of floors with material, performing all rigging for heavy work, the handling of all material that may be needed for the installation of such materials, building of scaffolding, polishing if needed, patching, waxing of material if damaged, pointing up, caulking, grouting and cleaning of marble, holding water on diamond or Carborundum blade or saw for setters cutting, use of tub saw or any other saw needed for preparation of material, drilling of holes for wires that anchor material set by setters, mixing up of molding plaster for installation of material, mixing up thin set for the installation of material, mixing up of sand to cement for the installation of material and such other work as may be required in helping a Marble Setter in the handling of all material in the erection or installation of interior marble, slate,

travertine, art marble, serpentine, alberene stone, blue stone, granite and other stones (meaning as to stone any foreign or domestic materials as are specified and used in building interiors and exteriors and customarily known as stone in the trade), carrara, sanionyx, vitrolite and similar opaque glass and the laying of all marble tile, terrazzo tile, slate tile and precast tile, steps, risers treads, base, or any other materials that may be used as substitutes for any of the aforementioned materials and which are used on interior and exterior which are installed in a similar manner.

MATERIAL TESTER I: Hand coring and drilling for testing of materials; field inspection of uncured concrete and asphalt.

MATERIAL TESTER II: Field inspection of welds, structural steel, fireproofing, masonry, soil, facade, reinforcing steel, formwork, cured concrete, and concrete and asphalt batch plants; adjusting proportions of bituminous mixtures.

#### OPERATING ENGINEER - BUILDING

Class 1. Asphalt Plant; Asphalt Spreader; Autograde; Backhoes with Caisson Attachment; Batch Plant; Benoto (requires Two Engineers); Boiler and Throttle Valve; Caisson Rigs; Central Redi-Mix Plant; Combination Back Hoe Front End-loader Machine; Compressor and Throttle Valve; Concrete Breaker (Truck Mounted); Concrete Conveyor; Concrete Conveyor (Truck Mounted); Concrete Paver Over 27E cu. ft; Concrete Paver 27E cu. ft. and Under; Concrete Placer; Concrete Placing Boom; Concrete Pump (Truck Mounted); Concrete Tower; Cranes, All; Cranes, Hammerhead; Cranes, (GCI and similar Type); Creter Crane; Spider Crane; Crusher, Stone, etc.; Derricks, All; Derricks, Traveling; Formless Curb and Gutter Machine; Grader, Elevating; Grouting Machines; Heavy Duty Self-Propelled Transporter or Prime Mover; Highlift Shovels or Front Endloader 2-1/4 yd. and over; Hoists, Elevators, outside type rack and pinion and similar machines; Hoists, One, Two and Three Drum; Hoists, Two Tugger One Floor; Hydraulic Backhoes; Hydraulic Boom Trucks; Hydro Vac (and similar equipment); Locomotives, All; Motor Patrol; Lubrication Technician; Manipulators; Pile Drivers and Skid Rig; Post Hole Digger; Pre-Stress Machine; Pump Cretes Dual Ram; Pump Cretes: Squeeze Cretes-Screw Type Pumps; Gypsum Bulker and Pump; Raised and Blind Hole Drill; Roto Mill Grinder; Scoops - Tractor Drawn; Slip-Form Paver; Straddle Buggies; Operation of Tie Back Machine; Tournapull; Tractor with Boom and Side Boom; Trenching Machines.

Class 2. Boilers; Broom, All Power Propelled; Bulldozers; Concrete Mixer (Two Bag and Over); Conveyor, Portable; Forklift Trucks; Highlift Shovels or Front Endloaders under 2-1/4 yd.; Hoists, Automatic; Hoists, Inside Elevators; Hoists, Sewer Dragging Machine; Hoists, Tugger Single Drum; Laser Screed; Rock Drill (Self-Propelled); Rock Drill (Truck Mounted); Rollers, All; Steam Generators; Tractors, All; Tractor Drawn Vibratory Roller; Winch Trucks with "A" Frame.

Class 3. Air Compressor; Combination Small Equipment Operator; Generators; Heaters, Mechanical; Hoists, Inside Elevators (remodeling or renovation work); Hydraulic Power Units (Pile Driving, Extracting, and Drilling); Pumps, over 3" (1 to 3 not to exceed a total of 300 ft.); Low Boys; Pumps, Well Points; Welding Machines (2 through 5); Winches, 4 Small Electric Drill Winches.

Class 4. Bobcats and/or other Skid Steer Loaders; Oilers; and Brick Forklift.

Class 5. Assistant Craft Foreman.

Class 6. Gradall.

Class 7. Mechanics; Welders.

#### OPERATING ENGINEERS - HIGHWAY CONSTRUCTION

Class 1. Asphalt Plant; Asphalt Heater and Planer Combination; Asphalt Heater Scarfire; Asphalt Spreader; Autograder/GOMACO or other similar type machines: ABG Paver; Backhoes with Caisson Attachment; Ballast Regulator; Belt Loader; Caisson Rigs; Car Dumper; Central Redi-Mix Plant; Combination Backhoe Front Endloader Machine, (1 cu. yd. Backhoe Bucket or over or with attachments); Concrete Breaker (Truck Mounted); Concrete Conveyor; Concrete Paver over 27E cu. ft.; Concrete Placer; Concrete Tube Float; Cranes, all attachments; Cranes, Tower Cranes of all types: Creter Crane; Spider Crane; Crusher, Stone, etc.; Derricks, All; Derrick Boats; Derricks, Traveling; Dredges; Elevators, Outside type Rack & Pinion and Similar Machines; Formless Curb and Gutter Machine; Grader, Elevating; Grader, Motor Grader, Motor Patrol, Auto Patrol, Form Grader, Pull Grader, Subgrader; Guard Rail Post Driver Truck Mounted; Hoists, One, Two and Three Drum; Heavy Duty Self-Propelled Transporter or Prime Mover; Hydraulic Backhoes; Backhoes with shear attachments up to 40' of boom reach; Lubrication Technician; Manipulators; Mucking Machine; Pile Drivers and Skid Rig; Pre-Stress Machine; Pump Cretes Dual Ram; Rock Drill - Crawler or Skid Rig; Rock Drill - Truck Mounted; Rock/Track Tamper; Roto Mill Grinder; Slip-Form Paver; Snow Melters; Soil Test Drill Rig (Truck Mounted); Straddle Buggies; Hydraulic Telescoping Form (Tunnel); Operation of Tieback Machine; Tractor Drawn Belt Loader; Tractor Drawn Belt Loader (with attached pusher - two engineers); Tractor with Boom; Tractaire with Attachments; Traffic Barrier Transfer Machine; Trenching; Truck Mounted Concrete Pump with Boom; Raised or Blind Hole Drills (Tunnel Shaft); Underground Boring and/or Mining Machines 5 ft. in diameter and over tunnel, etc; Underground Boring and/or Mining Machines under 5 ft. in diameter; Wheel Excavator; Widener (APSCO).

Class 2. Batch Plant; Bituminous Mixer; Boiler and Throttle Valve; Bulldozers; Car Loader Trailing Conveyors; Combination Backhoe Front Endloader Machine (Less than 1 cu. yd. Backhoe Bucket or over or with attachments); Compressor and Throttle Valve; Compressor, Common Receiver (3); Concrete Breaker or Hydro Hammer; Concrete Grinding Machine; Concrete Mixer or Paver 7S Series to and including 27 cu. ft.; Concrete Spreader; Concrete Curing Machine, Burlap Machine, Belting Machine and Sealing Machine; Concrete Wheel Saw; Conveyor Muck Cars (Haglund or Similar Type); Drills, All; Finishing Machine - Concrete; Highlift Shovels or Front Endloader; Hoist - Sewer Dragging Machine; Hydraulic Boom Trucks (All Attachments); Hydro-Blaster; Hydro Excavating (excluding hose work); Laser Screed; All Locomotives, Dinky; Off-Road Hauling Units (including articulating) Non Self-Loading Ejection Dump; Pump Cretes: Squeeze Cretes - Screw Type Pumps, Gypsum Bulker and Pump; Roller, Asphalt; Rotary Snow Plows; Rototiller, Seaman, etc., self-propelled; Self-Propelled Compactor; Spreader - Chip - Stone, etc.; Scraper - Single/Twin Engine/Push and Pull; Scraper - Prime Mover in Tandem (Regardless of Size); Tractors

pulling attachments, Sheeps Foot, Disc, Compactor, etc.; Tug Boats.

Class 3. Boilers; Brooms, All Power Propelled; Cement Supply Tender; Compressor, Common Receiver (2); Concrete Mixer (Two Bag and Over); Conveyor, Portable; Farm-Type Tractors Used for Mowing, Seeding, etc.; Forklift Trucks; Grouting Machine; Hoists, Automatic; Hoists, All Elevators; Hoists, Tugger Single Drum; Jeep Diggers; Low Boys; Pipe Jacking Machines; Post-Hole Digger; Power Saw, Concrete Power Driven; Pug Mills; Rollers, other than Asphalt; Seed and Straw Blower; Steam Generators; Stump Machine; Winch Trucks with "A" Frame; Work Boats; Tamper-Form-Motor Driven.

Class 4. Air Compressor; Combination - Small Equipment Operator; Directional Boring Machine; Generators; Heaters, Mechanical; Hydraulic Power Unit (Pile Driving, Extracting, or Drilling); Light Plants, All (1 through 5); Pumps, over 3" (1 to 3 not to exceed a total of 300 ft.); Pumps, Well Points; Vacuum Trucks (excluding hose work); Welding Machines (2 through 5); Winches, 4 Small Electric Drill Winches.

Class 5. SkidSteer Loader (all); Brick Forklifts; Oilers.

Class 6. Field Mechanics and Field Welders

Class 7. Dowell Machine with Air Compressor; Gradall and machines of like nature.

SURVEY WORKER - Operated survey equipment including data collectors, G.P.S. and robotic instruments, as well as conventional levels and transits.

TRUCK DRIVER - BUILDING, HEAVY AND HIGHWAY CONSTRUCTION

Class 1. Two or three Axle Trucks. A-frame Truck when used for transportation purposes; Air Compressors and Welding Machines, including those pulled by cars, pick-up trucks and tractors; Ambulances; Batch Gate Lockers; Batch Hopperman; Car and Truck Washers; Carry-alls; Fork Lifts and Hoisters; Helpers; Mechanics Helpers and Greasers; Oil Distributors 2-man operation; Pavement Breakers; Pole Trailer, up to 40 feet; Power Mower Tractors; Self-propelled Chip Spreader; Skipman; Slurry Trucks, 2-man operation; Slurry Truck Conveyor Operation, 2 or 3 man; Teamsters; Unskilled Dumpman; and Truck Drivers hauling warning lights, barricades, and portable toilets on the job site.

Class 2. Four axle trucks; Dump Crets and Adgetors under 7 yards; Dumpsters, Track Trucks, Euclids, Hug Bottom Dump Turnapulls or Turnatrailers when pulling other than self-loading equipment or similar equipment under 16 cubic yards; Mixer Trucks under 7 yards; Ready-mix Plant Hopper Operator, and Winch Trucks, 2 Axles.

Class 3. Five axle trucks; Dump Crets and Adgetors 7 yards and over; Dumpsters, Track Trucks, Euclids, Hug Bottom Dump Turnatrailers or turnapulls when pulling other than self-loading equipment or similar equipment over 16 cubic yards; Explosives and/or Fission Material Trucks; Mixer Trucks 7 yards or over; Mobile Cranes while in transit; Oil Distributors, 1-man operation; Pole Trailer, over 40 feet; Pole and Expandable Trailers hauling material over 50 feet long; Slurry trucks, 1-man operation; Winch trucks, 3 axles or more; Mechanic--Truck Welder and Truck Painter.

Class 4. Six axle trucks; Dual-purpose vehicles, such as mounted crane trucks with hoist and accessories; Foreman; Master Mechanic; Self-loading equipment like P.B. and trucks with scoops on the front.

#### TERRAZZO FINISHER

The handling of sand, cement, marble chips, and all other materials that may be used by the Mosaic Terrazzo Mechanic, and the mixing, grinding, grouting, cleaning and sealing of all Marble, Mosaic, and Terrazzo work, floors, base, stairs, and wainscoting by hand or machine, and in addition, assisting and aiding Marble, Masonic, and Terrazzo Mechanics.

#### Other Classifications of Work:

For definitions of classifications not otherwise set out, the Department generally has on file such definitions which are available. If a task to be performed is not subject to one of the classifications of pay set out, the Department will upon being contacted state which neighboring county has such a classification and provide such rate, such rate being deemed to exist by reference in this document. If no neighboring county rate applies to the task, the Department shall undertake a special determination, such special determination being then deemed to have existed under this determination. If a project requires these, or any classification not listed, please contact IDOL at 217-782-1710 for wage rates or clarifications.

#### LANDSCAPING

Landscaping work falls under the existing classifications for laborer, operating engineer and truck driver. The work performed by landscape plantsman and landscape laborer is covered by the existing classification of laborer. The work performed by landscape operators (regardless of equipment used or its size) is covered by the classifications of operating engineer. The work performed by landscape truck drivers (regardless of size of truck driven) is covered by the classifications of truck driver.

#### MATERIAL TESTER & MATERIAL TESTER/INSPECTOR I AND II

Notwithstanding the difference in the classification title, the classification entitled "Material Tester I" involves the same job duties as the classification entitled "Material Tester/Inspector I". Likewise, the classification entitled "Material Tester II" involves the same job duties as the classification entitled "Material Tester/Inspector II".

#36

DATE May 3, 2014**REQUEST FOR BOARD ACTION**

<b>AGENDA</b> EPS Agenda <b>SECTION NUMBER</b>	<b>ORIGINATING</b> <b>DEPARTMENT</b> PUBLIC SERVICES
<b>ITEM</b> AWARD –Bid #1564 Salt Shed Roof Replacement	<b>APPROVAL</b>

There is \$85,000 budgeted in Public Services Department funding (account 2201-7909) for the replacement of the salt shed roof at the Public Services Department. Village staff solicited bid packets to 9 roofing contractors for this service and the bid notice was in circulation of a local newspaper for two weeks before the bid opening. One sealed bid was opened on May 29, 2014 from Funderburk Roofing Inc. in the amount of \$63,000.

Public Services staff has contacted the other 8 vendors to explore reasons for not participating in the bid process for this project. Vendor name and responses are listed in the chart below.

Brigadier Roofing	Could not meet bonding requirements of contract
Clayton Roofing, Inc.	No response to messages
Dura-Ply Roofing Corp.	No response to messages
Dyna-Flow Corp.	Too much work scheduled to place bid
Feze Roofing	No response to messages
Matthews Roofing	Non-union shop; unable to meet prevailing wage requirement
Olsson Roofing Co., Inc	Not covered on their general liability insurance for steel portion of contract
Waukegan Roofing Co., Inc.	Beyond their scope of work

After reviewing the bid packet and speaking with the qualified low bidder; Public Services staff would like to recommend to Committee the award of bid #1564 to Funderburk Roofing, Inc.

If Committee concurs with this recommendation, the following motion would be appropriate:

**MOTION:** To award the issuance of a purchase order for Bid #1564 for the service of salt shed roof replacement, to Funderburk Roofing, Inc. in the bid amount of \$63,000.

**STAFF APPROVALS**

**BOARD ACTION:**

**Daniel Deeter**

**From:** George Franco  
**Sent:** Tuesday, June 03, 2014 1:39 PM  
**To:** Daniel Deeter  
**Subject:** FYI

**Justification:** The roof which shelters the Village's supply of salt and gravel needs replacement. It is located at the Public Services building at 225 Symonds Drive. The shelter was constructed in 1985. Some of the steel cross members are rusted or broken. This compromises the structural integrity of the shelter. This project includes the roof structure, gutters and covering materials.

DATE: June 9, 2014**REQUEST FOR BOARD ACTION**

<b>AGENDA</b>	<b>ORIGINATING</b>
<b>SECTION NUMBER</b> EPS Consent Agenda	<b>DEPARTMENT</b> Community Development
<b>ITEM</b> Rejection of Bids for 2014 Resurfacing and Infrastructure Project	<b>APPROVAL</b> Dan Deeter Village Engineer

The 2014 Resurfacing & Infrastructure Improvements project has consolidated a number of projects to try to achieve some economy of scale. These projects include:

- 2014 Resurfacing
- 2013/14 Water Main
- 2014 Maintenance
- Robbins Park Storm Sewer
- Central Business District (CBD) Parking Lot
- Brook Park Parking & Walking Path
- Burlington Park Parking Lot

During the bidding process eleven contractors picked up bid packets. We estimate eight of these contractors had the potential to be general contractors. On the bid opening date, 04/17/14, only two contractors provided bids: Martam Construction and John Neri Construction. For the first time in 15 bid openings, the construction bids were higher than both the engineer's estimate and Village budget. The costs are listed below:

	Base Bid	Alternative D (Base + all alternatives)
• Budget		\$2,868,192
• Engineer's Estimate		\$3,528,857
• Martam Constr. Co.	\$3,405,327	\$3,917,501
• John Neri Constr. Co.	\$3,548,415	\$4,038,772

The result is that the lowest bid is above the Village budget for the project by \$1.1M. Staff recommends that all bids should be rejected. Per the information provided to the Committee during the May EPS meeting, Staff has re-organized the project into smaller projects for re-bidding.

**MOTION: To Reject All Bids for the 2014 Resurfacing and Infrastructure Project Opened on April 17, 2014.**
