6           **6. Pre-Hearing and Agenda Setting**

7           a) **V-01-10, 415 N. Bruner Street**

8           Mr. Jim Limparis, property owner, explained that in the process of  
9           putting together a plan to install a pool in the back yard, preplan review  
10          determined that technically on his thru lot, he has two front yards. He  
11          is requesting that the Bruner Place 'front yard' be noted as the back  
12          yard and that he be allowed to install a swimming pool and a fence. He  
13          described the situation of his home in the neighborhood. He explained  
14          that his lot is 100' x 200', but because of the Zoning Code he loses 120'  
15          feet of usable property. He confirmed that there is no other home on  
16          Bruner Street that has a fence or other accessory structure on the rear  
17          front yard, but that all the front doors of the Bruner Street residences  
18          face Bruner Street.  
19

20          The Board expressed concern for the property owners at the end of  
21          Bruner Street that do not have thru lots because they could end up  
22          looking out their front at somebody else's back yard structure. Mr.  
23          McGinnis stated that there is not any precedent for the request and by  
24          code Mr. Limparis has a 40' setback.  
25

26          Chairman Haarlow asked Mr. Limparis to provide landscape drawings at  
27          the public hearing. Discussion followed regarding the setting of  
28          precedent. Discussion followed regarding required fencing around a  
29          pool.  
30

31          The Public Hearing was set for the next regularly scheduled ZBA  
32          meeting on February 17, 2010.
