July 9, 2021

Dear Resident,

Since the flooding event on June 26, Village staff has been working diligently with the Tollway staff, Tollway engineers, and the Village's outside engineering firm to identify and resolve the cause of the flooding that occurred in your area.

Today, the Village received the attached letter from the Tollway, which sets forth steps that the Tollway has taken to ensure that such flooding does not occur in the future, as well as steps the Tollway is taking to make necessary flood-related infrastructure repairs. As the letter also states, the Tollway will assist in addressing homeowner inquiries relating to property damage claims.

Please rest assured that Village staff is working daily with the Tollway to restore Village infrastructure impacted by the flooding event, and to advocate on resident's behalf to ensure that residents are adequately compensated for any flood-related damage they suffered.

Sincerely,

A handwritten signature in black ink that reads "Tom Cauley". The signature is written in a cursive style with a large, looped "T" and a long, sweeping "y".

Tom Cauley
Village President
