

The Affordable Connectivity Program might be **ending**.

Unless Congress takes action, the ACP will run out of money in April 2024. Here's what you need to know:

- The last day people can enroll in ACP will be **February 7**.
- If you are enrolled in ACP before February 7, 2024, you will keep getting the \$30 benefit until the fund runs out, which is expected to be in **April 2024**.
- If you enrolled for **cellular** benefits through ACP, this applies to you as well.
- You should be getting notices from your internet provider about what that means for your bill and your options starting late January.
- If you are already using ACP and want to change where you use it, we recommend you make that change before **February 7**.
- Contact your internet provider before April if you want to continue or cancel your service and to learn more about your options.
