- D. Annual Statement/Performance and Evaluation Report
- E. Certifications and Disclosures
- F. Louisville Metro Housing Authority's definition of substantial deviation and significant amendment/modification.

I. Introduction

The Louisville Metro Housing Authority (LMHA), formerly known as the Housing Authority of Louisville, is a nonprofit agency responsible for the development and management of federally assisted housing in the Louisville Metro area. In 2003, Louisville Metro Mayor Jerry Abramson and the Louisville Metro Council approved the merger of the Housing Authority of Louisville and Housing Authority of Jefferson County, thereby creating the Louisville Metro Housing Authority. A nine-member Board of Commissioners, appointed by the Metro Mayor, serves as the policy making body of the Agency.

LMHA presently manages over 3,400 units in four family housing communities, five housing communities for disabled and senior citizens, and a growing number of scattered site properties. Additionally, the Agency administers public housing assistance for over 700 public housing units located at its mixed-income and mixed-finance sites that are privately owned and managed. LMHA provides housing assistance to over 12,000 households in our combined public housing and leased housing programs.

Funding for the agency's operation comes from rental income and annual operating subsidy from the U.S. Department of Housing and Urban Development (HUD). The agency also receives Capital Improvement funds on an annual basis from HUD. Periodically, the agency also applies for funds from HUD and the City's Community Development Block Grant (CDBG) program to finance various modernization improvements.

Moving To Work Demonstration Program

Louisville Metro Housing Authority, then the Housing Authority of Louisville, became one of a small group of public housing agencies participating in the Moving to Work (MTW) Demonstration Program in 1999. The MTW program authorized by Congress and signed into Law as part of the Omnibus Consolidated Rescissions and Appropriations Act of 1996, offers public housing authorities (PHAs) the opportunity to design and test innovative, locally-designed housing and self-sufficiency strategies for low-income families. The program allows exemptions from existing low-income public housing and tenant-based Section 8 rules and permits LMHA to combine operating, capital, and rental assistance funds into a single agency-wide funding source.

Under the MTW program, LMHA creates and adopts an annual plan that describes new and ongoing activities that utilize authority granted to LMHA under the MTW Agreement. This plan focuses primarily on the Public Housing, Housing Choice Voucher (HCV) program and Capital Fund program, as these are the LMHA programs that fall under MTW. The plan also focuses on new proposed MTW activities and MTW activities that are ongoing. In addition, it contains a limited amount of information regarding LMHA's non-MTW initiatives such as the public housing site improvements and resident self-sufficiency programs. The MTW Annual Report prepared at the end of the fiscal year is an update on the status and outcomes of those activities included in the MTW Annual Plan.

MTW Goals and Objectives – An Overview

Moving to Work is a demonstration program that allows public housing authorities to design and test ways to achieve three statutory goals. LMHA's MTW activities and policies must achieve at least one of the statutory objectives of the demonstration program:

• Reduce costs and achieve greater cost effectiveness in federal expenditures;

- Give incentives to residents, especially families with children, to obtain employment and become economically self-sufficient; and
- Increase housing choices for low-income families.

At the inception of LMHA's status as a Moving to Work agency, LMHA carefully evaluated its own goals and objectives against those of the demonstration. The outcome was six goals for LMHA's participation in the MTW program. These goals, as outlined in the FY 1999 MTW Annual Plan, are locally-driven refinements of HUD's objectives:

- Increase the share of residents moving toward self-sufficiency;
- Achieve a greater income mix at LMHA properties,
- Expand the spatial dispersal of assisted housing;
- Improve the quality of the assisted housing stock;
- Reduce and/or reallocate administrative, operational and/or maintenance costs; and
- Enhance the Housing Authority's capacity to plan and deliver effective programs.

Since that time LMHA has recognized a growing number of populations with specific needs that often go unmet by existing housing and support service infrastructure. The Agency has revised and updated our goals to reflect changes in the local community and the evolution of the HUD MTW program into a performance-driven program:

 Develop programs and housing stock targeted to populations with special needs, especially those not adequately served elsewhere in the community.

Proposed and Previously Approved Moving To Work Activities

An MTW activity is defined as any activity LMHA is engaging in that requires MTW flexibility to waive statutory or regulatory requirements. Proposed initiatives outlined within the FY 2013 Annual Moving to Work Plan include:

• A local Housing Choice Voucher preference for participants of Wellspring, a program that provides housing and services to individuals with severe and persistent mental illness;

LMHA has a variety of previously approved MTW activities that will be ongoing in fiscal year 2013:

- A two-year recertification process of all families whose head of household or spouse is disabled or elderly;
- A standard medical deduction for all elderly and disabled families in the Public Housing and HCV programs;
- A payment standard adjustment for LMHA's Housing Choice Voucher Homeownership Program to 120% of Fair Market Rent (FMR) in exception payment areas;

- Mandatory case management for residents at New Scattered Site single-family homes;
- An earned income disregard for elderly families in the Housing Choice Voucher program;
- A flexible third-party verification policy for the HCV Homeownership program;
- Simplified procedures to acquire and/or develop new public housing properties;
- Term limits and educational/employment requirements for highly desirable New Scattered-Site single-family units;
- A local definition of elderly as families whose head of household or spouse is age 55 and over at LMHA elderly/disabled high-rises;
- Special referral Housing Choice Voucher programs that provide rental assistance to families at Center for Women and Families and Family Scholar House while they live onsite and portable vouchers upon graduation;
- An exception payment standard for the HCV Homeownership program;
- Lease-up incentives for new residents at Dosker Manor as an effort to improve occupancy rates;
- Authority to acquire properties for public housing without prior HUD approval to expedite acquisition
 of units in mixed-income communities;
- Amendment of the Housing Choice Voucher admissions policy to allow for deduction of child-care expenses in determination of eligibility; and
- A set of locally defined guidelines for development, maintenance and modernization of public housing development.
- Authority to allocate MTW Housing Choice Vouchers to special referral programs with serviceenriched housing providers;
- A local preference to provide voucher assistance to persons referred by Wellspring with intellectual disabilities who wish to live independently at its Youngland facility;
- A local preference to provide voucher assistance to persons referred by Day Spring, a program that offers adults with developmental disabilities support services in a residential setting;
- A public housing rent policy to set rent payments at 30% of adjusted annual income;
- A Special Referral Housing Choice Voucher program with Family Scholar House (FSH) at the Stoddard Johnston Scholar House.
- A Special Referral Housing Choice Voucher program with the 100,000 Homes Initiative.
- Elimination of the mandatory Earned Income Disregard (EID).

LMHA does not have any MTW activities that were previously proposed and approved, but have not been implemented.

Also, LMHA has one activity on hold:

• Streamlined demolition and disposition application process for MTW Agencies.

Finally, LMHA has closed out two initiatives:

- Increased flat rents at New Scattered Sites; and
- Limiting the concentration of Housing Choice Voucher assisted units in complexes of one hundred or more units to 25% (excluded both elderly/disabled and special referral program sites).

Moving To Work (MTW) Activity Matrix

Number	Year	MTW Activity	Status
35	2013	Special Referral MTW HCV Program and Local Preference – Wellspring at Bashford Manor/Newburg	Proposed
34	2012	Allocate MTW Housing Choice Vouchers to Special Referral Programs	Ongoing
33	2012	Special Referral MTW HCV Program and Local Preference – Wellspring at Youngland Avenue	Ongoing
32	2012	Rents Set at 30% of Adjusted Income - Public Housing Program	Ongoing
31	2012	Elimination of the Earned Income Disregard	Ongoing
30	2012	Special Referral HCV Program - Stoddard Johnston Scholar House	Ongoing
29	2012	Special Referral HCV Program – 100,000 Homes Initiative	Ongoing
28	2011	Locally Defined Guidelines for Development, Maintenance and Modernization of Public Housing	Planning
27	2011	Amend Public Housing and HCV Program Admissions Policy to Allow for Deduction of Child-Care Expenses in Determination of Eligibility	Ongoing
26	2011	Acquisition of Mixed-Income Sites for Public Housing	Ongoing
24	2010	Increased Flat Rents for New Scattered Sites	Ongoing
23	2010	Lease-up Incentives for New Residents at Dosker Manor	Ongoing
22	2010	CFL Trade-in Pilot Program for Avenue Plaza Residents	Completed
21	2010	Occupancy Criteria Changes for New Scattered Sites - Mandatory Case Management	Ongoing
20	2010	Special Referral HCV Program - Downtown Family Scholar House	Ongoing
19	2010	Weatherization and Energy Efficiency Pilot and Section 8 Homeownership	Evaluation
18	2009	Simplification of the Public Housing Development Submittal	Ongoing
17	2009	Multicultural Family Assistance Program	Planning
16	2009	Streamlined Demolition and Disposition Application Process for MTW Agencies	Tabled
15	2009	Special Referral HCV Program - Louisville Scholar House	Ongoing
14	2009	Center for Women and Families at the Villager - Determinations for Program Eligibility	Ongoing
13	2009	HCV Homeownership Program – Exception Payment Standards	Ongoing
12	2009	Housing Choice Voucher Program Maintenance Specialist	Planning
11	2009	HCV Homeownership - Flexibility in Third-Party Verifications	Ongoing
10	2008	Locally Defined Definition of Elderly	Ongoing
9	2007	Term Limits and Employment/Educational Work Requirements for New Scattered Sites	Ongoing
8	2008	Rent Simplification for Public Housing and Housing Choice Voucher Programs - Standard Medical Deduction	Ongoing
7	2008	Special Referral MTW HCV Program and Local Preference - Day Spring (Renewed 2012)	Ongoing
6	2008	Rent Simplification in the HCV Program - Earned Income Disregard for Elderly Families	Ongoing
5	2007	Spatial Deconstruction of HCV Assisted Units	Ended
4	2007	Rent Simplification for PH and HCV Programs - Alternate Year Reexaminations of Elderly and Disabled Families (Amended 2012)	Ongoing
3	2006	Distribution of Homeownership Assistance	Ongoing
2		MTW Inspections Protocol	Ongoing
1	2005	Special Referral HCV Program - Center for Women and Families	Ongoing

Long Term MTW Plan

The mission of the Louisville Metro Housing Authority is to provide quality, affordable housing for those in need, assist residents in their efforts to achieve financial independence, and work with the community to strengthen neighborhoods. In implementing these goals, LMHA will continue to focus on the following initiatives:

Reposition and redevelop the conventional Public Housing stock

The physical stock of the remaining original family developments owned and managed by LMHA needs to be completely redeveloped. These sites – large, dense, urban and often isolated – need major renovation or replacement. LMHA's goal is to transform these communities in the coming years, replacing the current public housing developments with mixed income communities, while at the same time providing replacement units so that the overall number of families served will not decrease. In the elderly developments, modernization efforts will proceed with an eye toward appropriate and expanded service provision.

Increase housing choice through stronger rental communities and options, and expanded homeownership opportunities.

Homeownership is an important housing choice option for many low-income families, and is an appropriate program given the local market. LMHA's nationally recognized Housing Choice Voucher Homeownership Program is an affordable and secure way for LMHA families to achieve housing self-sufficiency. The Agency can boast that together more than 150 public housing residents and HCV program participants have purchased homes through the program. For the many other families for whom homeownership isn't a viable option, LMHA will look at its public housing communities to see what policy and program changes might strengthen those communities and make them better places to live.

Develop programs and housing stock targeted to populations with special needs not adequately served elsewhere in the community.

MTW allows LMHA to break from HUD established "norms" and therefore maximize the potential of locally available resources to develop programs for people with specific needs. The goal is to meet needs not met by other agencies and to partner with local organizations that have social services programs that need a housing support element. Some of these needs will be transitional; others are for programs that provide more long-term support, particularly for single parents with children where the parent is working or preparing for work by participating in educational programs and young people enrolled in job and college prep programs. Developing comprehensive initiatives in these areas will continue to require regulatory relief.

Encourage program participant self-sufficiency

The MTW agreement allows LMHA to reinvent the FSS program to make it appropriate to local program participant needs. The Demonstration also allows LMHA to rethink other policies – like the rent policy for Clarksdale HOPE VI replacement scattered sites – to encourage families to work towards housing self-sufficiency.

II. General Housing Authority Operating Information

A. Housing Stock Information

The Louisville Metro Housing Authority projects that as of June 30, 2013 there will be a total of 4,158 annual contribution contract (ACC) units in its public housing stock, 3,431 of which are owned and managed by the Agency, and 727 HOPE VI/mixed finance units that are privately managed. LMHA anticipates it will be authorized 10,164 units of leased housing in 2013, bringing the grand total of housing units authorized to 14,322 by the fiscal year end.

Changes in Assisted Housing Stock (Units to be Acquired, Constructed or Removed)

During FY2013, LMHA projects it will decrease its public housing stock by 302 ACC units. This net decrease will result from the razing of 326 units at KY1-004 Sheppard Square and will be partially offset by the acquisition of 9 scattered site units developed with Neighborhood Stabilization Program funds. In addition, 11 units at Downtown Scholar House will be added to the housing stock this spring and 4 ACC units, located at Stoddard Johnston Scholar House, may also be purchased by the Agency, bringing the total of units at year end to 4,158. Downtown Scholar House and Stoddard Johnston Scholar House are both mixed-finance initiatives of Family Scholar House.

Due to their obsolete function, Iroquois Homes was slated for a series of phased demolition projects that started in FY 2001/2002. LMHA staff received approval from HUD in October 2008 to demolish 192 additional units in 16 buildings south of Bicknell on the Iroquois Homes site. The relocation process for the households residing in those units began in mid-March 2009 and demolition had been completed by the end of 2010. A demolition application for the remaining 168 units in 27 buildings was submitted to HUD's Special Applications Center on January 7, 2009. This fifth and final phase of demolition is broken into sub-phases that are projected for completion by the close of FY 2012.

Relocation of residents in the remaining 27 buildings was completed in 2011and demolition work continues to move forward at a rapid pace. LMHA anticipates the residential structures will be completely cleared by the end of March, 2012. The Management Office, Day Care facility and gymnasium will also be demolished. The management office demolition was approved in a previous application. LMHA is preparing a demolition and disposition application for the gym and day care facility. The last day of operation for the Day Care was January 13, 2012.

New housing on the site is an option but it is not mandatory; the Iroquois site may have other potential uses related to economic development and job creation because of its proximity to the Expressway and the Airport. The Authority intends to replace these units through acquired or developed properties using Replacement Housing Factor (RHF) funds and Section 8 reserves. LMHA staff will also research additional funding sources as they become available for these purposes.

On November 13, 2009, LMHA submitted an application for a FY 2009 HOPE VI grant to revitalize the Sheppard Square public housing development. The 67-year old development, which was built in 1942, suffers from inherent design deficiencies, as well as numerous operations failures. The FY 2009 application was not funded, therefore, LMHA submitted an application for a FY 2010 HOPE VI grant. The application was submitted on November 17, 2010 and the Agency has since been selected from over 30 agencies as one of 8 public housing authorities to receive a FY 2010 HOPE VI grant. LMHA was awarded \$22 million, the maximum HOPE VI grant, for Sheppard Square.

On-site, the new Sheppard Square will consist of public housing, low-income tax credit and market rate units in a variety of housing types including single-family homes, semi-detached and row townhouses and multi-family apartment buildings. Off-site, the public housing replacement units will include supportive service enriched units, and single-family homes and apartments in mixed-income communities. All new construction will meet Energy Star standards and the Enterprise Communities Green Community criteria. As with all revitalization plans following Park DuValle that require demolition of existing public housing units, LMHA has committed to one-for-one replacement of the 326 units at Sheppard Square.

As of March 2012, relocation of residents living at Sheppard Square was nearly complete. HUD approved demolition on February 22, 2012. LMHA will submit to the SAC a disposition application for Sheppard Square this spring. The disposition plan was outlined in the HOPE VI application.

In conjunction with the Sheppard Square HOPE VI Revitalization, LMHA is committed to exploring new opportunities to develop housing for disabled and homeless veterans and their families. The site of the historic Presbyterian Community Center, which LMHA is going to rehabilitate, is being considered as a possible location for this type of housing.

Table II-A.1 presents the inventory of LMHA public housing units, vouchers and MTW funded local programs. Table II-A.2 and Table II-A.3 present the number and type of planned new public housing units to be added during the fiscal year and the number and location of planned public housing units to be removed during the fiscal year, respectively.

Housing Choice Vouchers Authorized

The Agency anticipates managing 9,809 MTW Housing Choice vouchers in its leased housing program at the beginning of FY 2013 and does not anticipate being authorized any new vouchers over the course of the year. Additionally, LMHA will manage 275 HCVs that are not included in the MTW block grant. The 275 non-MTW vouchers are earmarked for the Veterans Administration Supportive Housing (VASH) program, which requires participants to be veterans.

MTW Special Referral/Direct Access Housing Choice Voucher Programs

LMHA has developed several MTW Housing Choice Voucher Special Referral programs. The first of these was with the Center for Women and Families. LMHA allocates 22 Housing Choice vouchers to this program yearly. The Agency replicated this MTW referral voucher program in a partnership with Family Scholar House (formerly Project Women) in 2009, which annually allocates 56 vouchers for residents at their Louisville Scholar House campus.

LMHA has also developed a co-venture agreement with Family Scholar House and Spalding University for Downtown Scholar House at the Villager, a building purchased by LMHA as a replacement housing site for Clarksdale. LMHA allocates 43 special referral vouchers for this program. Additionally in 2013, LMHA plans to continue to administer 53 MTW vouchers to support low-income residents at the Stoddard Johnston Scholar House campus. Updates on these programs are included in Section VI: Ongoing MTW Activities.

In 2012, LMHA began administering vouchers through a new Special Referral HCV Program with the 100,000 Homes initiative of the Louisville SAMHSA (Substance Abuse and Mental Health Administration) Community Consortia. LMHA will continue to administer up to 50 vouchers to this program during fiscal year 2013. The program's objective is to acquire housing and services for the 50 most vulnerable homeless persons on the streets of Louisville.

In total, LMHA could administer up to 224HCVs for these special referrals programs during FY 2013.

In addition to its Special Referral HCV programs, the Agency also offers a variety of Direct Access programs that are linked to Housing Choice Vouchers including Housing Opportunities for People with Aids (HOPWA), Partnership for Families (PforF), Center for Accessible Living – Mainstream, and the State Department of Mental Health – Olmstead. Referrals from the Wellspring and Dayspring programs, which offer supportive housing for persons with disabilities and their families in a community-based setting, will be considered as part of the Olmstead and Mainstream programs. LMHA plans to continue to provide voucher assistance to 4 households at Day Spring constructed units and 13 households who choose to live at units owned and managed by Wellspring. The Day Spring and Wellspring Housing Assistance initiatives are described in more detail in Section III: Proposed MTW Activities and in Section IV: Previously Approved MTW Activities of this plan.

LMHA anticipates administering up to 350 HCVs to the aforementioned Direct Access programs during FY 2013.

The FY 2012 plan included a new MTW Direct Access program with the U.S. Department of Housing and Urban Development's *Study of the Impact of Housing and Services for Homeless Families*. LMHA set-aside 60 Housing Choice Vouchers to the program for applicants, who are enrolled in the study in Jefferson County, randomly assigned to the subsidy intervention, and referred to LMHA through the Abt Associates study team. LMHA will continue to administer vouchers to this program during the 2013 fiscal year.

LMHA administers all of the vouchers allocated to its MTW Special Referral programs and Direct Access programs.

MTW Project-Based Housing Choice Vouchers

The Agency currently has <u>no project-based Moving to Work vouchers</u>. No MTW vouchers are anticipated to be newly project-based during the upcoming fiscal year.

Non-MTW Vouchers - HUD VASH Program

The 2008 Consolidated Appropriations act enacted December 26, 2007, provided \$75 million dollars of funding for the Veterans Administration Supportive Housing (VASH) program which requires voucher recipients to be veterans. The VASH program combines rental assistance for homeless veterans administered by LMHA and case management and case management and clinical services provided by Veterans Affairs Medical Centers (VAMC). LMHA administers 200 VASH vouchers within its area of jurisdiction. The Agency received the letter of notification of funding for 70 vouchers from the Housing Voucher Financial Division at Headquarters on May 1, 2008 and subsequently accepted the offer. The Agency also received an offer on June 12, 2009 for an additional 105 VASH Program vouchers which LMHA accepted on June 16, 2009. In FY 2010, LMHA was funded for the initial 105 vouchers, the subsequent allocation of 70 vouchers, and 25 additional vouchers, bringing the total number of VASH to 200. Then, in 2011, LMHA was authorized 25 more VASH vouchers. Finally, in FY 2012, LMHA was authorized 50 more VASH, for a grand total of 275 vouchers. LMHA is working closely with the local Veterans Administration Medical Center (VAMC) to administer these vouchers. LMHA anticipates these vouchers will be fully funded in 2013.

HUD Special Programs – Mod Rehab and Section 8 Certificates

LMHA will continue to administer 130 Section 8 Special Program certificates during FY 2013. The Housing Assistance Payment (HAP) contract with the YMCA is for a 41-unit SRO program for single, adult men. The program has operated since 1989 but had lost revenue in the past due to occupancy issues. During FY2008, LMHA authorized a specially trained YMCA-hired caseworker to determine eligibility for applicants and residents of the SRO units on-site. If the applicant is determined eligible, he

is housed immediately upon completion of processing by the YMCA caseworker. The applicant packet is then sent to LMHA for additional processing and payment begins for that participant. Using the regulatory flexibility provided through the MTW program, initial occupancy inspections of the SRO units are waived upon move-in and inspections are conducted concurrently once a year at the site. In addition to the YMCA SRO program, the Agency continues to administer 65 Section 8 certificates for Willow Place, a Mod Rehab project, and 24 certificates for St. Vincent de Paul/Roberts Hall, a facility for women who are homeless, or at risk of becoming homeless. Inspections at Roberts Hall are also conducted concurrently once a year at the site.

Table II-A.1

Note: LMHA's Local, Non-Traditional programs are "tied" to Federal Public Housing Units, therefore, the units are accounted for under the Federal Public Housing Unit line item.

Other Changes to the Housing Stock Anticipated During the Fiscal Year

The Friary (KY001000034, 24 units) - The Friary, a historic structure that adjoins both St. Boniface Church and Liberty Green in downtown Louisville, was purchased several years ago from New Directions and used as public housing until. However, the units are currently being held offline as the site is in dire need of comprehensive rehabilitation. While LMHA is compeled to embark on redevelopment as quickly as possible, the project is on-hold at the moment due to budgetary constraints. LMHA may have an opportunity to partner with a private developer to rehabilitate the site and put the units back into service.

Iroquois Homes Day Care Facility and Gymnasium (KY001000002, 2 non-residential facilities) - Due to their obsolete function, the residential buildings at Iroquois Homes were slated for a series of phased demolition projects that started in FY 2001/2002 and completed in early 2012. The Management Office, Day Care facility and gymnasium will also be demolished. The management office demolition was approved in a previous application. LMHA is preparing a demolition and disposition application for the gym and day care facility. The last day of operation for the Day Care was January 13, 2012.

*Examples of the types of other changes can include but are not limited to units that are held off-line due to the relocation of residents, units that are off-line due to substantial rehabilitation and potential plans for acquiring units.

General Description of All Planned Capital Fund Expenditures During the Plan Year (For Each Expenditure Provide the Award Year of the Funding to be Utilized)

LMHA's emphasis on modernization and extraordinary maintenance to preserve and improve the current public housing stock is evidenced by \$8,976, 000 (includes contingency) in committed capital funding during the upcoming year. Following is summary of LMHA's proposed capital improvements projects by site that are planned to occur in fiscal year 2013. The Authority also summarizes the proposed capital improvements projects planned at all its sites over the next five years, as shown in the Annual Statement Performance and Evaluation Report for the Capital Fund Program that is included in the Appendix.

At Sheppard Square, funds from the Federal FFY 2010 Grant for a Comprehensive Modernization have been reprogrammed for HOPE VI and demolition activities in FY 2013. Additional funds from the Federal FFY 2009 Grant have been obligated for Legal and A/E fees related to the new development.

At Dosker Manor, LMHA will continue to pay for security services and the eviction prevention program with funds from the Federal FFY 2011 Grant. Funds from the Federal FFY 2010 Grant are being used to perform exterior corridor walkway renovations, replace booster pumps and retube boilers. Funds from the Federal FFY 2009 Grant that have been obligated for dwelling equipment and resident stipends, remain to be spent in FY 2013.

At Saint Catherine, capital funds from the Federal FFY 2011 Grant will be used to pay for security guards and the eviction prevention program. Funds from the Federal FFY 2010 Grant are being used to replace booster pumps at the site. Funds from the Federal FFY 2009 Grant that were previously obligated for resident stipends, dwelling equipment and tree trimming at the site, remain to be spent in FY 2013.

At Avenue Plaza, LMHA will pay for security services and the eviction prevention program with capital funds from the Federal FFY 2011 Grant. Funds from the Federal FFY 2010 Grant are being used to replace booster pumps at the site. Funds from the Federal FFY 2009 Grant that were previously obligated for resident stipends, remain to be spent in FY 2013.

At Scattered Sites KY1-17, LMHA will pay for security services and the eviction prevention program with funds from the Federal FFY 2011 Grant. Funds from the Federal FFY 2010 Grant are being used to renovate staircases at three scattered sites in this AMP. Funds from the Federal FFY 2009 Grant, previously obligated for resident stipends, remain to be spent in FY 2013.

At Scattered Sites KY 1-34, funds from the Federal FFY 2011 Grant have been obligated for kitchen renovations at multiple sites and will be applied toward the cost of temporarily relocating residents affected by the improvement activities. Funds from the Federal FFY 2009 Grant, previously obligated for tree trimming and dwelling equipment, remain to be spent in FY 2013. Funds from Federal FFY 2009 are also being used to replace the roofs of multiple units in this AMP and applied toward the kitchen renovations.

At Lourdes Hall, funds from the Federal FFY 2011 Grant have been obligated to pay for security services and the eviction prevention program at the site. Funds from the Federal FFY 2009 Grant, previously obligated for dwelling equipment and resident stipends for the site, remain to be spent in FY 2013.

In fiscal year 2013, LMHA will make mixed finance capital contributions to Park DuValle from Federal FFY Grants 2011.

PHA-Wide, LMHA has obligated funds from the Federal FFY Grant 2011 for the Annual Environmental Contract and Annual Asbestos/Lead Removal services. Funds from the Federal FFY Grant 2009 have been obligated for an Environmental Consultant (remediation) and will also contribute to the purchase of asbestos/lead removal services.

B. Leasing Information

Anticipated Households to be Served through Local Non-Traditional Services Only	6	9	

Reporting Compliance with Statutory MTW Requirements

LMHA has not been out of compliance with any of the required statutory MTW requirements listed in Section II(C) of the Standard MTW Agreement, as determined by HUD in its review of the previous fiscal year's Annual MTW Report. Since the Agency is currently in compliance, no discussion or reporting is necessary.

Table II-B.4

Vacancy Information	
Anticipated Public Housing Vacancies at the Beginning of the Fiscal Year	579 vacancies/4,460 units= 12.98% (including vacant units at Sheppard Square) or 253 vacancies/4,134 units= 6.12% (excluding Sheppard Square)
Anticipated Fublic Housing Vacancies at the Deginining of the Fiscal Teal	
Projected Vacancies at the End of the Fiscal Year	195 vacancies/4,147 units= 4.70%

Table II-B.5

Housing Program	Description of Anticipated Leasing Issues and Possible Solutions
Public Housing PHA-Wide Occupancy Level	The PHA-wide public housing occupancy level is expected to be 87% (including vacancies a Sheppard Square) at the beginning of the fiscal year and increase to 96% by the end of FY 2013, primarily due to re-occupancy of units that were being held open for the relocation of Sheppard Square residents at scattered sites and at the Agency's family sites. When residents are being involuntarily displaced, Federal regulation requires that each resident be given at least 3 choices of alternate housing, including the option to move into another public housing unit. Consequently, LMHA had reserved units for those residents who chose to continue to live in public housing. As of March 2012, relocation of Sheppard Square residents was nearly complete.
Public Housing Avenue Plaza (KY001000006)	While the occupancy rate at Avenue Plaza is anticipated to be 91% at the beginning of the fiscal year, the rate will increase as units that were being held open due to ongoing energy efficiency upgrades are reoccupied. LMHA is pleased to partner with Louisville Metro Government and the Kentucky Housing Corporation in the Weatherization Assistance Program. With assistance provided through the program, LMHA is undertaking energy efficien upgrades to the site, including new windows and PTAC units for all 225 units. Work will be completed this spring.
Public Housing Scattered Sites (KY001000034)	Anticipated vacancies in this AMP are attributable mostly to unoccupied units at The Friary. LMHA purchased this historic structure several years ago and had used it as public housing units units. More recently, however, the site has been emptied because the structure is in new of a comprehensive rehabilitation. The architecture and engineering firm on annual contract with LMHA is completing pre-design work. While the historical significance of the building and its proximity to Liberty Green compel the Agency to embark on rehab as quickly as possible, funds for the project are limited, so the project is on hold for now. LMHA may partner with a private developer, who is interested in redeveloping the site.

Г

Table II-B.5 cont.

Public Housing Mixed-Population High Rises	LMHA anticipates occupancy rates will continue to increase and stabilize at the elderly/disabled high-rises. The Authority has experienced improved occupancy rates at these sites since HUD's approval of the locally defined definition of elderly. Due to ongoing leasing issues at Dosker Manor, the Authority will determine whether an elderly and/or disabled-only designation of units at one or more buildings at the site is appropriate during FY 2013. LMHA will hold a public hearing and submit a plan to HUD if such designations is deemed beneficial. The Authority also intends to reapply for the elderly-only designations at St. Catherine and the Weathers Building at Park DuValle, which were up for their renewal in February of 2010.
	For purposes of tracking program utilization, the number of units assigned in the Annual Contributions Contract is now simply an informational number which reflects the number of units that have been awarded to an agency since the inception of the Section 8 program. It is no longer practical for housing authorities to use ACC unit numbers for tracking utilization, and HUD now permits operations to be tracked based on fund utilization rather than unit ratios. The are several reasons for this change and the first is inconsistent funding levels from year to year by HUD, e.g., funding for the Section 8 program by HUD for calendar year 2006 was limited to 94.599 percent of the amount needed to fully fund all units allocated under the ACC . Annual funding has been consistently reduced by use of proration factors as a result of federal budgetary constraints. Consequently, although the number of units in the ACC is used to mathematically determine annual funding, because of the funding process, there is no longer an absolute correlation between the amount of funding necessary to operate the program at 100 percent utilization and the amount of funds provided by HUD.
Housing Choice Vouchers	As noted above, the number of units in the ACC is now simply a number that designates the number of units assigned to the LMHA since the program began in the mid-1970s. An additional factor for no longer using ACC units for utilization purposes is that the increasing costs of housing assistance (increased rents and higher utilities allowances) affects the number of units that can be assisted by the agency. These cost increases have not been accounted for in the funding formula used by HUD as noted above. The LMHA has done a number of things over the past few years in attempts to control the rising program costs and these include reducing payment standards, changing occupancy standards to reduce unit sizes, stopped absorbing and began billing for incoming portability clients, and in an effort to reduce overlapping payments to two landlords the LMHA placed restrictions on when new lease papers could be submitted for families moving from one unit to another with continued assistance.
	Finally, an additional factor that affects LMHA's utilization numbers is our long-standing strategy to utilize 5% of Section 8 funds to supplement efforts, including the HOPE VI program, that support innovative affordable housing and family self-sufficiency services in the community. LMHA has not been able to do this over the past few years because 100 percent of the Section 8 annual funding, as well as a significant amount of program reserves, were used to cover Section 8 program costs during this period of time. However, in FY 2013, the Agency will once again be in a position to begin allocation of Section 8 funds to these types of activities.

C. Waiting List Information

LMHA streamlined its waitlist and referral list structure when it modified its ACOP and Administration Plan in 2005. The Authority maintains a single, centralized waitlist for its owned and managed public housing sites. LMHA may conduct a formal purge of the public housing waitlist in 2012.

LMHA also maintains a referral list of residents recommended for its scattered site units. Eligibility requirements for scattered sites include residency in a family or elderly public housing development for a one year period and a recommendation by the site manager as an outstanding resident. Outstanding resident status is attained by having no more than 2 late rent payments, passing annual inspections, and by adhering to all other LMHA leasing guidelines.

In addition to these criteria, there is also a five-year time limitation on residency for single family, scattered-site replacement units (excluding scattered sites I, II, III, IV and V, and Newburg). This time limitation is waived for elderly/disabled households. In addition, the criteria for these sites include mandatory participation in a case management program and active movement towards self-sufficiency. Elderly and disabled households may also be exempted from these criteria.

Residents of the public housing units being developed at the Downtown Scholar House (these units are Sheppard Square HOPE VI replacement housing) are selected from the program's site-based wait list. Family Scholar House property management staff will manage the waitlist records and verify applicants. Applicants must meet LMHA eligibility criteria and the requirements of the program while residing at the facility (single; have a child, children, or be pregnant; meet low-income housing requirements; have a high school diploma or GED; and have the desire to pursue a college degree). Also, if LMHA acquires 4 units for public housing at the Stoddard Johnston Scholar House, Family Scholar House will maintain a site-based waiting list for those units.

LMHA maintains a separate waitlist for its HCV program. Section 8 staff initiated a formal purge of the wait list in 2011 and the process is nearing completion. All applicants whose applications were submitted in 2009 and prior years are being contacted to determine their ongoing needs for housing. The process should be completed this March. It is estimated that the wait list will be reduced by 3,600 applicants based on the results so far.

Individual site-based waitlists are used for most of the privately managed and/or owned public housing units in mixed-income developments. Applicants for St. Francis, Stephen Foster and Village Manor are recommended from LMHA's referral list for scattered sites.

At the beginning of the fiscal year, the LMHA central-based wait list is expected to contain 3,950 applicants for LMHA's public housing programs and 15,000 applicants for the HCV program.

Former Clarksdale residents continue to receive preference for Clarksdale off-site replacement units and Liberty Green units. Also, former Iroquois residents have preferences for both Housing Choice Vouchers and public housing units. In addition, residents that have been relocated for the demolition of the Sheppard Square site also have preferences for both Housing Choice Vouchers and public housing units.

Proposed MTW Activity – Housing Assistance Agreement with Wellspring

A. Description

The activity is to provide housing assistance to up to 8 households with members with severe mental illness. The housing assistance will be through the Housing Choice Voucher program and will be provided to Section 8 program eligible families who reside, or will reside in the housing Wellspring plans to purchase in the Newburg/Bashford Manor Mall area that is intended to serve persons currently living in the personal care housing on the grounds of Central State Hospital. Referrals accepted for the housing assistance program will be considered as Olmstead Program participants.

B. Relation to Statutory Objectives

This proposed activity will increase housing choices for families with members with severe mental illness. Additionally, the activity will achieve greater cost effectiveness of federal expenditures as Wellspring's responsibilities include providing assisted living services and acting as case manager for the families receiving assistance.

C. Anticipated Impact

Wellspring was founded in 1982 by a small band of community leaders, mental health professionals and parents who joined together to address the need for supportive housing for adults with severe and persistent psychiatric illnesses. All the while, the demand from clients, their family members, mental health professionals and community leaders for Wellspring's supportive housing steadily grew. In response to the scale of need and the urgency of demand, Wellspring has continued its growth, to the point that the agency now operates through 19 locations. Wellspring believes the stability and dignity of safe, secure housing is one of the essential pieces that must be in order before the work of psychiatric rehabilitation and recovery can begin.

Louisville continues to have an urgent need for independent living apartments, especially those with supportive services tied to them. Voucher assistance for low-income households who reside in a Wellspring unit provides the opportunity for families to receive these services. This effort is a small but important step in increasing housing choices for low-income individuals and families.

D. Anticipated Schedule

LMHA will submit to HUD a revised activity description, including the schedule for implementation, activity benchmarks, and the final projected outcomes, after Wellspring has acquired the units.

E. Metrics

Metrics - Information related to Voucher Utilization

- 1. Voucher utilization.
- 2. Occupancy rate.

Metrics – Supplemental Information related to Program and Participants

- 1. Number of households who receive the voucher during the fiscal year.
- 2. Range of periods of time participants receiving the voucher reside at the proposed units.
- 3. Number of participants who exit the program during the fiscal year.
- 4. Housing type upon exiting the program.

F. Baseline Performance Levels

Metrics - Information related to Voucher Utilization

- 1. Voucher utilization 0%.
- 2. Occupancy rate 0%.

Metrics - Supplemental Information related to Program and Participants

- 5. Number of households who receive the voucher during the fiscal year 0 families.
- 6. Range of periods of time participants receiving the voucher reside at the proposed units N/A.
- 7. Number of participants who exit the program during the fiscal year N/A.
- 8. Housing type upon exiting the program N/A.

G. Annual Benchmarks

LMHA will submit to HUD a revised activity description, including the schedule for implementation, activity benchmarks, and the final projected outcomes, after Wellspring has acquired the units.

Metrics – Information related to Voucher Utilization	Baseline FY 12	Bmk FY 13	Bmk FY 14	Bmk FY 15
1. Voucher utilization.	0%	N/A	N/A	N/A
2. Occupancy rate at facility.	0 of 0 months	N/A	N/A	N/A
Metrics – Supplemental information related to Program and Participants				
1. Number of participants who receive voucher assistance during the fiscal year.	0	N/A	N/A	N/A
2. Range of periods of time participants receiving the voucher reside at a Wellspring facility.	0	N/A	N/A	N/A
3. Number of participants who exited the program.	0	N/A	N/A	N/A
 4. Housing type upon exiting the program. a. Permanent, subsidized housing b. Market-rate c. Other (Moved in with family; passed away) 	0	N/A	N/A	N/A

H. Final Projected Outcome

LMHA will submit to HUD a revised activity description, including the schedule for implementation, activity benchmarks, and the final projected outcomes, after Wellspring has acquired the units.

I. Data Collection

LMHA staff will track the information related to vouchers and utilization. Wellspring will act as case manager for the families referred to LMHA and Wellspring will provide LMHA with reports about families receiving voucher assistance. LMHA will monitor voucher utilization rates and length of time families receive the voucher assistance to measure performance.

J. Authorizations Cited

Transitional/Conditional Housing Program – Section, 3,4,5,8 and 9 of the 1937 Act and 24 C.F.R. 941, and 960 Subpart B.

K. Explanation Why the Cited Authorization is Needed

The authorization is needed in order for LMHA to establish a special referral program with Wellspring.

Rent Reform Initiatives

This MTW activity does not involve any change to the regulations found in 24 CFR 960 or 24 CFR 982 Subpart K. Accordingly, it is not a rent reform activity and the additional information requirement is not applicable.

IV. Approved MTW Activities: HUD Approval Previously Granted

This section provides information about LMHA's previously approved MTW activities. LMHA has made an effort to include all previously approved MTW activities. Any exclusion is unintentional and should be considered continuously approved. If additional previously approved activities are discovered, LMHA will add them to subsequent plans and reports.

A. Implemented MTW Activities

Occupancy at Elderly/Disabled High Rise Developments

LMHA had experienced decreasing occupancy rates at several of its elderly/disabled-only sites for many years. Through a combination of MTW initiatives, LMHA is reaching its goal of 97% occupancy at these sites. Higher occupancy rates at these sites improve LMHA's operating revenues and achieve greater cost effectiveness, and increase housing choices for 0- and 1-bedroom qualified applicants age 55 to 61.

• Locally Defined Definition of Elderly

The activity, proposed and implemented in FY 2008, is to pilot the following local definition of elderly: any family whose HOH or spouse is age 55 or above. LMHA had experienced decreasing occupancy rates at its elderly/disabled-only high-rises prior to adopting a local definition of elderly for these communities. The MTW age criterion is used to determine eligibility for residency at Dosker Manor, Avenue Plaza, Bishop Lane Plaza, and Saint Catherine Court. Opening up these sites to non-disabled households between ages 55 and 61 has raised occupancy rates and increased the pool of 1 bedroom units available to these applicants. No changes are expected to be made in FY 2013.

Lease-Up Incentives for New Residents at Dosker Manor

LMHA proposed and implemented the activity in FY 2010. The activity is to give lease-up incentives to new residents at Dosker Manor, one of the Agency's elderly/disabled high-rises located in downtown Louisville. Because Dosker Manor's occupancy rate has remained below 90% for some time now, new residents receive a waiver of the initial deposit and the first month's rent free. The incentives should increase occupancy rates and defray fixed operating expenses at the site. No change to this activity is anticipated.

MTW Rent Policies

The MTW Demonstration also allows LMHA to rethink other policies – like the rent policy for Public Housing and the Housing Choice Voucher programs – to encourage families to work towards housing self-sufficiency. Alternate rent structures also ease the burden on residents and the Agency. As part of LMHA's rent reform goals, the Authority will continue to use HUD's Enterprise Income Verification (EIV) System in its day-to-day operations.

• Rents Set at 30% of Adjusted Income – Public Housing Program

Proposed and implemented in the FY 2012 Plan, families receiving rental assistance under the Public Housing program will pay either 30% of their monthly adjusted income for rent, or the minimum rent established by the LMHA, whichever is higher. Flat rents will be eliminated. No changes are expected to be made to this activity in FY 2013.

Elimination of the Earned Income Disregard

Proposed and implemented in the FY 2012 Plan, LMHA eliminated the HUD Mandatory Earned Income Disregard from the calculation of total tenant payments of families who are in the Public Housing and Housing Choice Voucher programs. This activity increases rent revenues and simplifies the rent payment calculation. No changes are expected to be made to this activity in FY 2013.

• Standard Medical Deduction

Proposed and implemented in the FY 2009 Plan, disabled and elderly families are eligible to receive a \$1,600 standard medical deduction. The deduction is not mandatory; if the families' health care costs exceed the \$1,600 exemption, the families may opt to have their expenses itemized. The cost reductions from this activity are administrative savings due to reduction in verifications and paperwork. The initiative covers families in both Public Housing and the HCV program. Taken together, Public Housing and HCV programs reduced the cost to process applicants and conduct rent calculations by \$34,633 in FY 2010 and \$33,424 in FY 2011. The activity achieved greater cost effectiveness in federal expenditures. No changes are expected to be made in FY 2013.

Alternate Year Reexaminations

LMHA proposed and implemented an alternate year schedule for reexaminations with the FY 2008 Plan. For Public Housing, each year 50% of the elderly and disabled families age 55+ residing in Public Housing receive a full reexamination of eligibility on the anniversary of their lease-up date. For the HCV program, elderly and disabled families age 55+ in the Housing Choice Voucher program are required to appear for a full reexamination every other odd numbered calendar year (referred to as an "ON" year). In an even numbered year (referred to as an "OFF" year) HCV families are required to complete a mini-recertification packet and mail it to the Agency.

In fiscal year 2010, the alternate year reexamination schedule reduced costs of the Public Housing program by \$8,700. The alternate examination schedule of the Housing Choice Voucher program achieved no cost savings in 2009 and 2011 because all clients were scheduled for a full reexamination. However, in FY 2010 the activity helped LMHA obtain nearly \$28,000 of savings due to a substantial reduction in staff time spent conducting income verifications and client interviews

In FY 2012, LMHA amended this activity to include all disabled families in the Public Housing program whose head of household or spouse is disabled.

• Earned Income Disregard for Elderly HCV Families

This activity was proposed in the LMHA 2009 Plan and implemented that year. The activity is to give a \$7,500 earned income disregard to elderly families in the Housing Choice Voucher Program who's only other source of income is their Social Security entitlement. While the disregard currently only affects a small number of families, elderly families who go to work in the future will be able to retain all of the income that falls below the threshold. No changes are expected to be made in FY 2013.

Occupancy Criteria and Rent Changes for New Scattered Sites

Many of LMHA's Scattered Sites are highly desirable properties, especially the newly acquired or constructed off-site HOPE VI Clarksdale Replacement Scattered Site units. The amenities and existing low rent structure may in some instances discourage residents from moving out of the unit towards self-sufficiency. LMHA is piloting term limits, work requirements and mandatory case management for

residents at these sites and evaluating the potential of the initiatives to incite residents to move up and out of the Public Housing program.

• Term Limits

This activity was proposed in the Agency's 2007 Annual Plan and implemented during 2007. The activity is a five-year limitation on residency at the New Scattered Site detached single-family homes. Term limits apply to public housing units created off-site under the Clarksdale HOPE VI Revitalization program and scattered site single-family homes acquired or developed since LMHA fulfilled its Clarksdale one-for-one replacement commitment. No changes to this activity are expected to be made in FY 2013

• Employment/Educational Work Requirements

This activity was also proposed in the Agency's 2007 Annual Plan and implemented during 2007.In addition, heads of household must be employed and work at least 20 hours per week to be eligible for these units. Due to the downturn in the national economy, the work requirement has been reduced from 30 hours to 20 hours. This change was made in FY 2010. No additional changes are expected to be made in FY 2013.

• Mandatory Case Management

LMHA proposed and implemented the activity in FY 2010. LMHA has revised the occupancy criteria for these units to include mandatory participation in a case management program [Case Management, Family Self-Sufficiency (FSS), or Individual Development Account (IDA)] and movement toward self-sufficiency. No changes to this activity are expected to be made in FY 2013

Public Housing Development

LMHA's goal is to transform the physical stock of the original family developments owned and managed by the Agency in the coming years, replacing the current public housing developments with mixed income communities, while at the same time providing replacement units so that the overall number of families served will not decrease. LMHA has implemented several MTW initiatives designed to expedite the redevelopment process and insure that all new and newly acquired properties are high quality, affordable housing.

• Simplification of the Public Housing Development Submittal

LMHA proposed and implemented the activity in FY 2009. The activity is a simplified proposal for each acquired or developed public housing property. Twice yearly, LMHA also submits a six month report summarizing the Agency's acquisition and development activities to the HUD Louisville Field Office. The activity has reduced the amount of time staff spend preparing development submittals and reduced the average length of time to close on a property. No changes to this activity are expected to be made in FY 2013.

Acquisition of Mixed-Income Sites for Public Housing

This activity was proposed and implemented in the FY 2011 Plan; however the new policy has not been used to acquire property at mixed-income sites. The activity is acquire units for public housing or vacant land for developing public housing without prior HUD authorization if HUD does not respond to LMHA's request for authorization within 10 days of the submittal date. All acquired properties shall meet HUD's site selection requirements. LMHA will request approval of the HUD Field Office when a pending acquisition deviates from the selection requirements and/or at the discretion of the Executive Director. Copies of all required forms and appraisals will be maintained in the project file. No changes to this activity are expected to be made in FY 2013.

• Develop Locally Defined Guidelines for Development, Maintenance and Modernization of Public Housing

This activity was proposed in FY 2011 and is being implemented in FY 2012. The activity is to explore using MTW authority to create locally defined guidelines for the re/development, maintenance and modernization of public housing. LMHA will develop reasonable and modest design guidelines, unit size guidelines and unit amenity guidelines for new and ongoing public housing development activities. The criteria focus on strategies for developing sustainable housing, preserving affordable housing and developing low-income housing in low-concentration, non-impacted areas of the Agency's jurisdiction. Strategies include rehabilitation and new construction standards that reduce energy consumption including Energy Star criteria and increase the supply of accessible housing in the community.

Expanded Homeownership Opportunities

The Agency continues to focus on expanding homeownership opportunities for low-income families in the Public Housing and Housing Choice Voucher programs. LMHA has implemented three Moving to Work policy changes to its HCV Homeownership Program.

• Flexibility in Third-Party Verifications for HCV Homeownership

Proposed and implemented in the FY 2009 Plan, applicants to the HCV Homeownership program are allowed to provide income verification including employment verification from employer, child support verification, statements for all bank accounts, proof of CDs at the bank, pension plan verification and proof of all medical costs including prescriptions. Also, income verification is valid for 8 months. Cost savings through the elimination of staff time spent obtaining verifications and conducting reviews has been achieved. No changes are expected to be made in FY 2013.

Amount and Distribution of HCV Homeownership Assistance

This activity was proposed and implemented in the FY 2006 Plan. LMHA revised its HCV Administrative Plan to allow for the utilization of a two-bedroom payment standard for all one bedroom eligible HCV Homeownership households and maintains the 110% FMR local payment standard and the 120% FMR in exception rent areas for the Homeownership program. No changes will be made to this policy in 2013.

• Exception Payment Standards for HCV Homeownership

Proposed in the FY 2009 Plan and implemented that year, this activity adjusts payment standards for HCV Homeownership to 120% of FMR in homeownership Exception Payment areas using Census 2000 Owner Occupied Median Value instead of Renter Occupied Median gross rent to calculate exception payment census tracts. In fiscal year 2010, program homebuyers' average increase in buying power for 2-bedroom homebuyers was \$12,489 and in fiscal year 2011, the increase for 2-bedroom homebuyers was \$8,321. To date, 14 homeowners have bought in exception payment districts and LMHA homebuyers live in 24 of 26 Metro Council Districts. No changes in this activity are planned for 2013.

Local Leased Housing Program

For the many other families for whom homeownership isn't a viable option, LMHA will look at its leased housing program to see what policy and program changes might strengthen communities and make them better places to live. Developing comprehensive initiatives in these areas will continue to require regulatory relief.

Special Referral MTW HCV Programs (Restricted Portability until Graduation) MTW allows LMHA to maximize the potential of locally available resources to develop programs for people with specific needs. The goal is to meet needs not met by other agencies and to partner with local organizations that have social services programs that need a housing support element. Some of these needs will be transitional; others are for programs that provide more long-term support, particularly for single parents with children where the parent is working or preparing for work by participating in educational programs.

Special referral programs are intended to address the needs of persons not otherwise met in the community and provide the voucher as incentive for families to move toward economic self-sufficiency. LMHA has established special referral programs with two housing and support services providers at three facilities. Families with specific needs often face multiple barriers to achieving their self-sufficiency goals. LMHA's special referral MTW Housing Choice Voucher programs are a strong incentive for participants to enroll and complete the program as the current waitlist for HCV vouchers includes over 15,700 applicants. It also increases housing choice for low-income families interested in these programs.

Residents can be referred through the program staff to LMHA directly for voucher assistance provided the resident meets Housing Choice Voucher eligibility requirements. While voucher recipients are initially required to reside on site and meet the program requirements, their voucher resumes full portability after they successfully graduate from the program. As a participant moves from the site, LMHA issues a voucher to the next eligible applicant.

- The Villager - Center for Women and Families (CWF)

Proposed and implemented in the FY 2005 Plan, LMHA allocates up to 22 vouchers to a special referral program with the Center for Women and Families for their long-term transitional housing on their downtown campus. Programs at the Center focus on the elimination of domestic violence, sexual violence and economic hardship. Voucher utilization has remained 100%. Also, 6 portable vouchers were issued to program graduates in 2010. This activity has increased housing choice and cost effectiveness therefore no change to the activity in FY 2013 is proposed.

Louisville Scholar House - Family Scholar House (formerly Project Women)

Proposed and implemented in the FY 2008 Plan, LMHA allocates up to 56 vouchers to a special referral program with Family Scholar House for their Louisville Scholar House facility. Single heads of households often face multiple barriers to furthering their education and obtaining employment that will provide their families with adequate income to become self-sufficient. Project Women participants (single parent, attending school). As of June 30, 2010, four (4) program graduates had entered the Housing Choice Voucher Homeownership program and 2 graduates had left the HCV program and secured housing elsewhere. As of June 30, 2011, seven (7) graduates had left the HCV program and secured housing elsewhere and one (1) graduate had transferred their voucher to another location. No change to the activity is expected to be made in FY 2013.

Downtown Scholar House - Family Scholar House with Spalding University
 This activity was proposed in the FY 2010 Plan and implemented in FY 2011. The activity is to allocate 43 Housing Choice Vouchers annually to a special referral program with Project

Women and Spalding University at the Downtown Scholar House. As of FYE 2011, voucher utilization was 100%. No changes to this activity are expected in FY 2013.

- Stoddard Johnston Scholar House - Family Scholar House

This activity was proposed and approved in the FY 2012 Plan. The activity is to set-aside 57 vouchers to a special referral program with Family Scholar House for their new Stoddard Johnston Scholar House. No changes are expected in FY 20113.

• Special Referral MTW HCV Programs (Full Portability)

In addition to Special Referral Programs with partners who offer programs with graduation requirements, LMHA has established local preferences for individuals of the Day Spring and Wellspring programs. Although some of the units owned and managed by these partners are "tied" to supportive services, organizations provide

- Wellspring - Youngland Avenue Facility

This activity was proposed and approved in the FY 2012 Plan and implemented in FY 2012. The activity is to establish a special referral program and local preference to provide housing assistance to five (5) household with members with severe mental illness who reside at Wellspring's Youngland Avenue facility while they are participating in the program. Wellspring is a charitable organization that addresses Louisville's need for supportive housing for adults with severe and persistent psychiatric illnesses. Referrals accepted for this initiative are considered as Mainstream Program participants, therefore, they receive preference on the HCV wait list. LMHA does not anticipate making changes to this activity in FY 2013.

- Day Spring

This activity was initially proposed and approved in the FY 2009 Plan. It was tabled at the end of FY 2009 due to low voucher utilization and, then, re-authorized under the FY 2012 Plan. LMHA provides housing assistance to four (4) households with members who have a severe mental illness and who live in a Day Spring constructed unit while they participate in the program. Day Spring, a faith-based charitable organization, provides residential and supportive services to adults with developmental disabilities who want the opportunity to live independently in a supportive community setting. Residents who receive voucher assistance must meet the Section 8 program income requirements; however, under the initiative, not all of the residential units will be subject to typical HUD Housing Quality Standards and rent reasonableness requirements. No changes are anticipated to be made to this activity in FY 2013.

- 100,000 Homes Initiative

Proposed and approved in FY 2012, LMHA set aside 50 vouchers to a Special Referral HCV program with the 100,000 Homes initiative of the Louisville (Substance Abuse and Mental Health Services Administration (SAMHSA) Community Consortium. This activity increases housing choices and access to services for the 50 most vulnerable homeless persons on the streets of Louisville Metro. Participants in this Housing First model program, who are identified and referred by the Louisville SAMHSA, must be chronically homeless. No changes are expected to be made to this activity in FY 2013.

• Allocate MTW Housing Choice Vouchers to Special Referral Programs

Proposed and approved in FY 2012, LMHA may, without prior HUD approval, allocate up to ten (10) MTW HCVs to a Special Referral HCV program for service-enriched affordable housing programs within the Agency's jurisdiction. Eligible programs will offer housing and supportive services targeted to families whose needs are not adequately served elsewhere in the community. Some

allocations may be incremental additions to existing special referral programs while others will be allocations to newly established programs. No changes are expected to be made to this activity in FY 2013.

MTW Inspection Protocol

Unit inspections of facilities at LMHA's Section 8 certificate programs are waived upon initial occupancy and held once per year concurrently. Section 8 certificate programs include YMCA SRO, Roberts Hall and St. Vincent de Paul, and Willow Place. This activity has significantly reduced costs to inspect the units "tied" to these programs. *In 2013, LMHA plans to also inspect units at Villager at the Center for Women and Families once per year, concurrently.*

Amend HCV Admissions Policy to Allow for Deduction of Child-Care Expenses in Determination of Eligibility

This activity was proposed and implemented in FY 2011. LMHA amended its Housing Choice Voucher Program and Public Housing Admissions Policy to allow for the deduction of verified ongoing child-care expenses from a working household's gross income when determining income eligibility. In order to qualify for the adjustment, the family must include a head of household and/or spouse with a demonstrated work history for a period of 12 months or longer. This activity increases housing choice for working families with children who may be struggling to make ends meet. No changes to this activity are anticipated in FY 2013.

B. MTW Activities Not Yet Implemented

LMHA is in the process of implementing or has implemented all previously approved MTW activities.

C. MTW Activities On Hold

Explore HUD's Streamlined Demolition and Disposition Application Process for MTW Agencies

Proposed and approved in the FY 2009 Plan, this activity has been tabled. HUD investigated the possibility of streamlined demolition/disposition activities for MTW agencies but found that it was not feasible under MTW. Out of concern for residents' rights and the public process, HUD decided that MTW agencies must follow the established procedures for demolition and disposition of property. LMHA expects that this activity will remain dormant through FY 2013.

D. Closed Out MTW Activities

Increased Flat Rents

LMHA proposed this initiative in the 2010 Annual Plan and it was approved by HUD. LMHA proposed flat rents for the Agency's scattered sites be raised and adjusted based on the square footage, location, age and amenities at the property as rent comparables for the site are completed. LMHA will not implement this activity in lieu of adopting the MTW policy total tenant payment is calculated based on 30% of income, which was approved in FY 2012.

• Spatial Deconstruction of HCV Assisted Units

LMHA proposed this initiative in the 2007 Annual Plan and it was approved by HUD. The activity was to limit the concentration of Housing Choice Voucher assisted units in complexes of one

hundred or more units to 25% (excluding both elderly/disabled and special referral program sites). This activity was closed at fiscal yearend 2009 because of its potential to limit voucher holders' universe of housing choices.
V. Sources and Uses

This section provides information about LMHA's ongoing MTW activities. LMHA has made an effort to include all previously approved MTW activities. Any exclusion is unintentional and should be

C. Local Asset Management Plan	
Is the agency allocating costs within statute? Is the agency implementing a local asset management plan (LAMP)? *If the agency is implementing a LAMP, it shall be described in is proposed and approved. The narrative shall explain the de be updated if any changes are made to the LAMP. Has the agency provided a LAMP in the appendix?	
Agencies should provide a brief summary of any changes in the Plan.	n the Local Asset Management Plan in the body of

 D. Describe the Planned Use of MTW Single-Fund Flexibility

 Planned Uses of Funds made possible via the MTW block grant that are permissible under Sections 8 & 9 of the 1937 U.S. Housing Act and that do not require the use of any other MTW flexibility, can be described in this section. Agencies shall provide a thorough narrative detailing each activity benefitting from single fund flexibility. Agencies are not required to provide metrics but are encouraged to track the outcomes of significant activities.

 Agencies should provide this narrative in the body of the Plan.

Planned Uses of MTW Single-Fund Flexibility

- \$1,800,000 will be transferred from the Capital Fund Program to the Public Housing Program. This amount exceeds the allowance (20%) that is available for traditional PHAs. This transfer is necessary to operate some AMPs at a high level and maintain a balanced operating budget. The HUD approved project expense levels (PEL) at some AMPs do not adequately provide for management services at the level deemed necessary by LMHA.
- The transfer of \$3,200,000 in surplus funds from the Section 8 Voucher Program to the Public Housing Program will occur to fund the anticipated operating fund shortfall in the Public Housing program for calendar year 2012. Because LMHA is an MTW participant, the HUD calculation of "excess reserves" will not by utilized for LMHA. However, LMHA finance staff have estimated the amount to be withheld from operating fund eligibility to be approximately 20%. If full funding were received in the operating fund, this transfer of funds would not be necessary.

In addition, LMHA has identified two initiatives that address local issues that may require single-fund flexibility in FY 2013:

- Multi-Cultural Family Assistance Program (Estimated cost is \$50,000-\$60,000.) This activity was proposed in the LMHA FY 2008 Plan and was implemented during calendar year 2011. Louisville continues to experience a growing demand from Somali and other African immigrant families living in the Metro area for housing and social and support services. Since these families have differing beliefs, customs and lifestyles that can pose a challenge to adapting to a very different country and culture, LMHA has hired a staff person who is knowledgeable about African-immigrant cultures and languages. The staff has demonstrated an ability to successfully address both the needs of the families and the Agency while assisting in property management, operations and lease enforcement. Though this activity does not currently utilize fungibility, LMHA would like to reserve the MTW authority to cover the cost of the position with Section 8 reserves at a later date.
- Homeownership Program Maintenance Specialist (Estimated cost is \$50,000-\$60,000.) LMHA proposed this initiative in the 2009 Annual Plan, and it has not yet been fully implemented. LMHA had plans to restructure the current homeownership inspection, training and consultation process (these three duties are currently split among different individuals) and instead steer all the tasks through a Home Maintenance Staff (HMS). Although the duties of the proposed HMS staff are being covered by existing staff, LMHA continues to re-evaluate internal staff capacity to perform these duties without complications to normal job duties. LMHA would

like to reserve the MTW authority to hire an HMS with Section 8 reserves in FY 2013, if it is deemed necessary to do so.

e Account	Reserve Balanc	;e

Planned Future Uses of Reserve Funds

LMHA currently has no specific, planned uses of available reserves in the Public Housing or Section 8 Voucher Programs. However, generally these reserves are necessary to allow for such things as:

- Emergencies and catastrophic events
- Funding shortfalls
- Planned operating deficits
- To provide adequate cash flow when receipt of federal subsidy is delayed
- To increase housing inventory (Section 8 Vouchers)
- To provide gap financing in mixed-finance projects

VI. Administrative

A. Board Resolution

The Board of Commissioners will be presented on Tuesday, April 17, with a Resolution to approve the Moving to Work Annual Plan for the fiscal year ending June 30, 2013 and to adopt the Annual Moving to Work Plan Certifications of Compliance.

B. Requirements for Public Participation

The draft of the Annual Moving To Work Plan for FY 2013 was made available for public review and beginning March 9th and ending April 9th. A hard copy of the plan was placed at the Agency's Central Offices, located at 420 S 8th Street and posted on the Agency's website at *www.lmha1.org*. A public hearing to discuss the plan will be held April 2 at 6pm at Dosker Manor, Building A, in the Nutrition Room, as advertised in the legal section of The Courier-Journal and The Louisville Defender on March 29th and April 1st, respectively. Copies of the ads, as well as, the sign-in sheet from the public hearing, copies of comments made at the hearing and in-writing or by email, and the Agency's responses will be included in the Appendix.

C. Agency-directed Evaluations of the MTW Demonstration

LMHA has not directed an evaluation of its MTW program beyond those to be conducted and reported on in the MTW Annual Report and the impact analysis and annual reevaluation of ongoing rent reform initiatives.

D. Forms

The form SF-LLL, Disclosure of Lobbying Activities, form 50071, Certificate of Payments to Influence Federal Transactions and form 50700, Requirements for a Drug-Free Workplace are included in the Appendix.

16. The PHA will comply with the Lead-Based Paint Poisoning Prevention Act and 24 CFR Part 35.

17. The PHA will comply with the policies, guidelines, and requirements of OMB Circular No. A-87 (Cost Principles for State, Local and Indian Tribal Governments) and 24 CFR Part 85 (Administrative Requirements for Grants and Cooperative Agreements to State, Local and Federally Recognized Indian Tribal Governments).

18. The PHA will undertake only activities and programs covered by the Plan in a manner consistent with its Plan and will utilize covered grant funds only for activities that are approvable under the Moving to Work Agreement and Statement of Authorizations and included in its Plan.

19. All attachments to the Plan have been and will continue to be available at all times and all locations that the Plan is available for public inspection. All required supporting documents have been made available for public inspection along with the Plan and additional requirements at the primary business office of the PHA and at all other times and locations identified by the PHA in its Plan and will continue to be made available at least at the primary business office of the PHA.

A. LMHA Board of Commissioner's Resolution to approve the 2013 Annual Moving To Work Plan

RESOLUTION NO. 15-2012 (4/17/2)

RESOLUTION APPROVING LMHA'S MOVING TO WORK PROGRAM FY 2013 ANNUAL PLAN

Item No. <u>56</u>

WHEREAS, the Louisville Metro Housing Authority (LMHA), as the Housing Authority of Louisville (HAL), executed a Moving to Work (MTW) Agreement on August 2, 1999 and an Amended and Restated Agreement on April 15, 2008 which provides LMHA with the authority to investigate and adopt new policies and to flexibly use HUD funding; and

WHEREAS, as part of the Amended and Restated MTW agreement, an Annual Plan for Fiscal Year 2013 must be developed and submitted to HUD to formally enable the Authority to fully use the policy and budget flexibility provided to participants in the MTW Program; and

WHEREAS, a Board Resolution approving the proposed MTW Annual Plan and required Certification must be included in the submission provided to HUD; and

WHEREAS, LMHA staff distributed the Annual Plan to the Board of Commissioners and conducted a Public Hearing on April 2, 2012 to discuss the proposed FY 2013 MTW Annual Plan before its submission to HUD.

NOW, THEREFORE, BE IT RESOLVED BY THE LOUISVILLE METRO HOUSING AUTHORITY BOARD OF COMMISSIONERS that the FY 2013 MTW Annual Plan is approved, and that the Executive Director and Contracting Officer, Tim Barry, is hereby authorized to execute and submit this plan to the U.S. Department of Housing and Urban Development.

RESOLUTION BACKGROUND STATEMENT

RESOLUTION APPROVING LMHA'S MOVING TO WORK PROGRAM FY 2013 ANNUAL PLAN

Item No. 56

I. <u>STATEMENT OF FACTS</u>

Moving to Work (MTW) is a deregulation demonstration program legislated by Congress in 1996 that provides increased autonomy for selected Public Housing Authorities (PHAs) to meet specific local housing needs. The MTW Demonstration Program provides participating PHAs flexibility to test various housing approaches that achieve greater cost effectiveness, provide incentives to residents to obtain employment and become economically self-sufficient, and to increase housing choices for low-income families. MTW legislation allows participating housing authorities to combine federal resources from the Operating Budget, Capital Fund and the Housing Choice Voucher Tenant-Based Rental Assistance programs, and the flexibility to efficiently utilize these HUD funding sources.

In October 1997, the former Housing Authority of Louisville was chosen as one of 24 MTW demonstration awardees. HAL'S MTW agreement, which specified the regulatory relief afforded to the organization, was finalized and signed on August 2, 1999, and was originally for a five-year period. This agreement, which now covers the Louisville Metro Housing Authority, was to expire as of June 30, 2005. LMHA was fortunate to receive a one-year extension, followed by an additional three-year extension.

On December 20, 2007 HUD notified LMHA of its intent to amend and restate MTW agreements with participating PHAs. This new agreement was adopted by the Board in a resolution on April 15, 2008 and will extend participation in the MTW program until June 30, 2019.

MTW demonstration agencies are still required to prepare and submit MTW Annual Plans in lieu of the Public Housing Annual Plan as is currently required of other agencies. The FY 2013 Annual Plan will be effective from July 1st, 2012 to June 30th, 2013.

Copies of the proposed FY 2013 MTW Annual Plan were distributed to the Board of Commissioners and it was discussed at a Public Hearing on April 2, 2012 prior to submission of the FY 2013 Annual Plan to HUD.

As part of the FY 2012 Annual Plan submission, Executive Director Tim Barry will be required to certify a number of statements as required by HUD. A list of these certifications is attached.

RESOLUTION BACKGROUND STATEMENT

RESOLUTION APPROVING LMHA'S MOVING TO WORK PROGRAM FY 2013 ANNUAL PLAN

Item No. <u>56</u>

II. <u>ALTERNATIVES</u>

- A. Approve the resolution authorizing the submission of the proposed FY 2013 Moving to Work Annual Plan.
- B. Do not approve the resolution authorizing submission of the proposed FY 2013 Moving to Work Plan.

III. <u>RECOMMENDATION</u>

Staff recommends Alternative "A".

IV. JUSTIFICATION

- LMHA, in consultation with residents, has developed the proposed FY 2013 Moving to Work Annual Plan.
- Approval of this resolution is a contractual requirement under the MTW program that will allow LMHA to move forward and take advantage of the flexibility afforded to Moving to Work sites.

MOVING TO WORK PUBLIC HEARING

HELD AT DOSKER MANOR

APRIL 2, 2012

Tim Barry: We welcome you to the Moving to Work public hearing. We're going to go over the plan and, more importantly, get your input, comments and questions. Thank you.

Manfred Reid: Good afternoon. How are you all doing? In our efforts to move to work I want you to know that our staff is struggling in order to preserve funds. We are facing funding cuts from the government and during the cold months the staff is putting forth an effort now to preserve the social programs that we have. That includes Family Self-Sufficiency and all the other programs that we have to include our educational programs and the services to our residents. We want to preserve all these programs in order we might maintain the quality of life that we have for our people. That's why I appreciate so much that you all came out tonight. Because any question you want to raise about our programs and how we're going to administer the programs in light of the cuts, Mr. Barry will explain in full details and whatever questions that you want to bring forward, please feel free to bring it up and express yourself so we can answer all the questions that you have in your mind. And with that I'm going to turn it over to the Executive Director. Mr. Barry, please.

Tim Barry: I will be brief but if I may give you a bit of an agency overview and what's been going on the last year or so. One of the primary things we've been dealing with are budgets cuts coming from Washington to the tune of 20% cut in our operating budget over the last few years.

(Somali gentleman - indistinguishable)

Tim Barry: You want to translate as I go along. Okay, I'll go slowly. Budget cuts this year – 20% operating and 23% capital in our money, our funding. Everyone is going through budget cuts so we're not immune to that. Alright, let me also talk about our three HOPE VI redevelopment projects beginning with Park DuValle. HOPE VI is a redevelopment program. In Park DuValle, a new grocery store is about to open in a couple of weeks. Liberty Green, right next door, we've got some homeownership units that have been built and, I believe two have been sold. Sheppard Square, which is just a few blocks south of here, everyone has moved and actual demolition will start by the end of the month.

Let me talk a little bit about Moving to Work. We got a special designation from HUD back in 1999. That was for the old Housing Authority of Louisville, pre-merger. In order to keep our Moving to Work designation, anything we do must meet at least one of the following statutory objectives: reduce costs and achieve greater cost effectiveness in federal expenditure; give incentives to residents, especially families with children, to obtain employment and become economically self-sufficient; increase housing choices for low-income families. Now we have three new initiatives this year. We are implementing a Housing Choice Voucher preference for participants of Wellspring. Wellspring is a program that provides housing and services to individuals with severe and persistent mental illness. We are also doing an agreement with YouthBuild to provide housing for lowincome program participants, those people that participate in the YouthBuild program. We are also doing an agreement with Frazier Rehab for temporary housing for people with spinal cord injuries. We are also assisting the following programs with direct access. These are special referral or direct access Housing Choice Voucher programs – Center for Women & Families; Family Scholar House, three of those: Louisville Family Scholar House, Downtown Scholar House, and Stoddard Johnston. We are also administering about 50 vouchers for the 100,000 Home Initiative which is to help house the most vulnerable homeless people. We also have direct access programs for HOPWA, Housing Opportunities for People with AIDS and the Center for Accessible Living. With that, I'm going to conclude and ask if there are any comments or questions you may have. Cathy, I'm going to start with you if that's okay.

Cathy Hinko: Are you recording this?

Barry: Yes, it's on.

Hinko: My name is Cathy Hinko and I'm the director of the Metropolitan Housing Coalition an education and advocacy organization for fair and affordable housing. I have two general comments and then one more specific. One is about getting comments and having a chance to review the plan. I understand that due to circumstances beyond everyone's control, the plan was not posted until significantly after the notice in the newspaper and I do not fault the Housing Authority for that, but I don't think it is very clear about when written comments can be due and the ability to send them by e-mail. It looks like you're asking them all to be snail mailed. There was some ambiguity so I would really hope that the Housing Authority makes it clear to the people here, to all its residents, of what date the comments are due and how to get them to you and make sure everyone knows that they can see the plan and it is easy for them to see this plan. Do you know what date the comments are due?

Barry: I believe it is April 12th.

Hinko: April 12th. Can we e-mail them?

Barry: By all means. Send them to me.

Hinko: And do people know the e-mail address? Can they deliver them to their resident managers?

Barry: I'll give you my e-mail address. With Sarah out...it is <u>barry@lmha1.org</u> Send them directly to me.

Hinko: So, even if people do not feel ready today to comment, they can take their time to read the plan and make whatever comments they want.

The second general comment is that we really recommend that you keep the waiting list open. It was said in the plan that you were contemplating closing the waiting list. The records you keep on the waiting list are used by many agencies in their applications for funding to show the need in Jefferson County. The waiting list is the only really market driven place where we know what the demand is for assistance. It is a very persuasive number. On a very serious note within this plan we think that there are fair housing violations on the basis of familial status. Now this is just the plan so there is time to rectify this but there are so many biases against families with children that the plan appears to be deliberately discriminatory against families with children. Over the last 15-20 years the Housing Authority of Louisville and subsequently the Louisville Metro Housing Authority has taken family units out of public housing stock never to be replaced with exactly the same criteria for entry for other

families. Before Cotter and Lang were torn down there were 4,400 family public housing units. As of the empty Sheppard Square and the Friary and Iroquois coming down and even attempting Clarksdale being replaced, there are now only 1,635 family units serving the lowest income families. There are about another 1,200 family units but they all have extra entry criteria so they no longer serve the same population they did and they are almost half of all family units. But even added together, they are a very small part of the original over 4,000 family units. Whereas, the number of units for elderly has remained steady or grown during this time period. These are one-bedroom units and they are dedicated to people who are elderly. They could be disabled people who are elderly. And the need is not there right now because you have had to lower your criteria of elderly to 55 and the units don't change only the paperwork does. You could have waiting 5 or 10 years if you thought more people who were elderly were going to need these units. Also, this means that there has also been a systematic reduction in the number of public housing units for people not elderly but who are disabled. And those units left ...public housing units left for people who are disabled are in the worst neighborhoods that you have. The better the neighborhood the less opportunity for someone who is just disabled, not elderly, or elderly and disabled, to be a resident in public housing.

At the same time you have a ????? sense of while there is funding by your accounting of about 9,400 units of Section 8, you are only planning to lease 8,400 of them. The Section 8 vouchers are used by everyone, especially families and disabled people because obviously with elderly, you can't even fill the units. And the number was, excuse me, 9,800 ???? of Section 8 but you are only planning to lease 8,745 so the units serving families that are low income are diminished but that does not happen for the elderly who are taken care of and at the expense of those who are disabled. While I applaud your new programs, it is only robbing Peter to pay Paul because you are not creating any new vouchers. You are taking the diminished number of vouchers and rearranging them. Now, that alone gives pause but you have other policies that punish or make families do more than people who are elderly or disabled or just elderly. For instance, the mandatory earned income deduction is eliminated for families. It doesn't exist for those who are disabled but if you are elderly you get to deduct \$7,500 of earned income. It certainly shows a bias.

Another example is, in the scattered sites, which are family units, you place five-year limitations and people must engage in case management. Those limitations are not placed on elderly people who come back into the one-bedroom units in public housing that is part of HOPE VI. It is only families that have to, you know, tip their hat and move along when you tell them to and have time limits on how long they can be there and are forced into case management whether they want it or not. So even for the privilege of living in the nicer units, families are forced to pay in humiliating ways and being forced to move and these again reflect an attitude of the Housing Authority that families are not wanted or trusted or allowed to make their own decisions. Also, when we look at where you spend the capital improvement money it is to destroy family units. It is to put in family units those that are coming back with higher criteria or to be used on units for the elderly, so family units serving the lowest income people are getting the least money of the capital expenditures. The Housing Authority is taking \$3.2 million that they call surplus in Section 8 that could probably serve those thousand families and is putting it into administration, making the administration of public housing extremely expensive. The Housing Authority is also taking in under \$1.8 million from capital expenditures, improvements that could benefit places like Parkway Place. Again, just moving it around and these affect families most of all. They deny families improvements and access to decent housing. And the way this is done is the Housing Authority tries to hide what you're doing with money because you say only if more than 20% of the money is moved around do

we get to know what's going on. We should get to know when very little money is getting moved around. We deserve that transparency. Now, the Louisville Metro Housing Authority has been a friend to many agencies and many people and we know that...we hope that this inadvertent even though...MHC has raised this before...and we would be very happy to work with you to eliminate the worst of these policies to make sure that the Housing Authority is treating every protected class under the Fair Housing laws fairly and with respect. Thank you.

Barry: Thank you, Cathy. I appreciate your analysis, your input. I would hope that you would send those comments to me in writing since Sarah is out. I do want the opportunity to sit down and talk to you certainly about the Fair Housing which got my attention and scared me a little bit. I will tell you we will keep the Section 8 waiting list open. We just threw that out here for consideration but we will certainly do that. Again, I apologize for some of the missteps we've had recently with the publication of the plan. We've had some unexpected staffing problems at the Housing Authority. Thank you. Before I forget I want to thank our two gentlemen who have provided translation services for us. Are there any other comments or questions? Would anybody like to make a comment? Feel free. It's on the record. Are there any questions?

Translator: He said a lot of people get lost. They can't find ????

Barry: Coming to Dosker?

Translator: Yes, for this meeting.

Barry: Well, I'm sorry for that. I thought the directions were pretty clear. We've always had the hearing meetings here but we will try to do a better job of making sure next time that people have good directions to Dosker Manor. We choose this place, we have in the past because it is centrally located. But we are not wed to it. We can move it if it becomes necessary. Thank you.

Any other questions or comments?

Somali Man: Why are we here tonight?

Barry: We are here tonight. We are required by the people in Washington to put together an annual plan for the agency. What we hope to do with our money and other projects and we are required as it should be to ask for input from the public. Let me say something else. The plan is our annual plan and is done under a program called Moving to Work. It is labeled incorrectly. It is called something that is very confusing because it has nothing to do with moving. Nobody has to move and it has nothing to do with work. And I'm not trying to be funny. It really has nothing to do with those two things. That name came from Washington so we blame everything on Washington. Are there any other comments or questions? Feel free to ask whatever you want to ask.

Somali man: When the people leave the houses ?????? (lot of noise in the room).

Barry: Alright, this gentleman is asking about I guess when you've moved under the Section 8 program to other houses that somethings don't work in the houses like they should, like the lights and other things. You need to let us know. You need to call the Section 8 office or you can call me directly because we have an agreement with the landlord and the unit has to pass inspection. So if things aren't working, the landlord has to fix them.

Do you have a specific family you are talking about? You need to tell me after the meeting and we will make sure and look into it.

Man: ?????

Barry: Well, I will tell you, in the process of doing relocations, we had some issues with the inspections and making sure the units pass as they should so we have brought somebody in to help us with that to make sure residents aren't preyed upon by an unscrupulous landlord. But if you have particular instances where there have been problems, you need to let me know.

Any other questions or comments? Curtis.

Curtis: I just had some questions reqarding some more specificity in the plan. In particular, on page 9 you say that the Housing Authority intends to replace demolished Iroquois Homes. These were replaced with housing factor funds and Section 8 reserves but it doesn't provide a timeline or identify those units in your plan. I think there needs to be more specificity about when those units will be acquired or constructed.

Barry: Okay. Got it. (noise) Everybody hold on for one second please.

Curtis: And again, I just want to reiterate the comment you made about ????? 5% of annual funding in support of services. You haven't been able to in years past been able to support the actual rental program. Given the extraordinary wait list, I strongly encourage you to develop the maximum amount of resource for the Section 8 voucher program to make sure people can get into housing and despite the important role support services play, those housing funds ?????? .

Barry: Good point.

Curtis: And finally, the designated use of the \$3.2 million in surplus funds from the Section 8 Voucher Program will be transferred to the public housing program. The budgetary line item, you don't identify where those surplus funds come from, whether they are reserves or otherwise, and this is especially important given that one of your long-term goals for the planned future use of reserves as identified on page 42 is to increase housing inventory (Section 8 vouchers). These seem to contradict themselves. So, again I reiterate that please try to get as much of that money on the street and get people housed as possible.

Barry: Good point. And you will send those to me in writing?

Curtis: Yes.

Barry: Thank you. Yes, sir.

Man: I live ????? I just applied for Section 8 program for ??????? like four years.

Barry: There is a very long waiting list for Section 8 and I see some heads nodding and I think people recognize there is a long waiting list. I'll be happy to check on your status after the meeting if you want to give me your name and I can call you back tomorrow and let you know if you've moved up. You live in public housing now?

Okay. Well, it may be awhile so I'm happy to check for you if you want to give me your name and phone number after the meeting. Any other questions or comments? Yes, sir.

Man: ????? (lots of noise)

Barry: Please, one at a time. One at a time. Yes, sir.

Barry: Do you live in public housing now, sir?

Translator: Yes.

Barry: The gentleman asked about someone under housed is what I'm gathering. They need a bigger unit, a large unit?

Translator: Yes.

Barry: Again, if you will let me have your name and number after the meeting I'll look into it and see what is going on. Any other questions or comments? Alright. I thank everybody for coming. I appreciate your attendance. I hope you weren't mislead by the Moving to Work announcement and we'll try to resolve that or make that a little more clear next year but again thank you for coming and thank you for your comments. If you gentlemen would hang around after the meeting I'll get the information and get back to you tomorrow. Thank you.

FW: Comments on FY2013 MTW Annual Plan 2 messages

Tim Barry <Barry@lmha1.org> To: Sarah Laster <sarah.laster@gmail.com> Thu, Apr 5, 2012 at 8:18 AM

From: Curtis Stauffer [mailto:curtisstauffer@metropolitanhousing.org] Sent: Wednesday, April 04, 2012 8:02 PM To: Tim Barry Cc: cathy@metropolitanhousing.org Subject: Comments on FY2013 MTW Annual Plan

Hi Tim:

Per your request, here is a summary of the comments I made at the hearing on Monday at the public hearing, along with a couple additional comments.

On page 9, the plan states that "The Authority intends to replace these [Iroquois Homes] units through acquired or developed properties using Replacement Housing Factor (RHF) funds and Section 8 reserves. LMHA staff will also research additional funding sources as they become available for these purposes." However, the Housing Stock Information table on page 50 does not identify any public housing units designated as Iroquios Homes replacement units coming online by June 30, 2016, nor does it indicate an increase in any new scattered site units (with the exception of Sheppard Square off-site replacement units, which are required under the one for one replacement commitment made under the Sheppard Square HOPE VI grant.) A close examination of the the housing stock chart reveals no additional public housing units added to the inventory by June 30, 2016, except for new Sheppard Square HOPE VI units. Therefore, unless this projection is in error, page 9 should read, at minimum "The Authority intends to replace theseunits through acquired or developed properties using Replacement Housing Factor (RHF) funds and Section 8 reserves after June 30, 2016." Or, if the 953 Iroquois units are to be replaced, even at least partially before June 30, 2016, they should be accounted for in the housing stock projections. I emplore LMHA to commmit (rather than intend) to replace these public housing units lost through the demonlition of Iroquis Homes with others that can serve the most needy residents of the city at this time when our community afacesprofound and growing affordable housing needs. A timeline for their replacement shoud be established that includes the projected number of Iroquois Homes replacement units to be created or acquired annually.

• On page 13, the table shows that LMHA has a anticipates managing a total of 10,034 Housing Choice vouchers (both MTW and non-MTW) at the beginning of FY 2013. However, on page 17, the "Anticipated Number of Households Served (Units to be Occupied/Leased) at the End of the Fiscal Year" table states that only 8912 vouchers (both MTW and non MTW) are anticipated to be utilized. Why is this voucher non-utilization rate of 11.2% (1,122 vouchers) anticipated, especially given the 15,000 households projected to remain on the wait list? What programmatic barriers exist within LMHA's systems that lead to such a high non-utilization rate? What steps need to be taken to ensure full usage of these valuable resources?

Strategies to increase the utilization rate should be outlined in the plan.

• On page 20, the plan states "an additional factor that affects LMHA's utilization numbers is our longstanding strategy to utilize 5% of Section 8 funds to supplement efforts, including the HOPE VI program, that support innovative affordable housing and family self-sufficiency services in the community. LMHA has not been able to do this over the past few years because 100 percent of the Section 8 annual funding, as well as a significant amount of program reserves, were used to cover Section 8 program costs during this period of time. However, in FY 2013, the Agency will once again be in a position to begin allocation of Section 8 funds to these types of activities." While social services are valuable, housing units for households in need are much more so. It is imperative that Section 8 funds be used to house as many families as possible given the growing demand for assisted housing and the staggering size of the wait list.

• On page 41, the plan states that "\$3,200,000 in surplus funds from the Section 8 Voucher Program to the Public Housing Program." Given the size of the wait list and the long-standing demand for housing choice vouchers, what is the source of these "surplus" funds?

• As stated by Cathy Hinko and agreed to by you at the hearing, LMHA should not "consider closing the wait list in early 2012" (page 21). The LMHA wait list is one of the most powerful indicators of affordable housing need in our community and should remain open to new applicants. In addition to providing the public with an accurate picture of the demand for LMHA services, these figures are also used by other agencies, both non-profit and governmental, to seek funding to support additional housing and social service programs.

• I'd also like to reiterate what was observed by Cathy Hinko in her statement regarding policies governing single family scattered-site units. Page 21 states "there is also a five-year time limitation on residency for single family scattered-site replacement units (excluding scattered sites I, II, III, IV and V, and Newburg). This time limitation is waived for elderly/disabled households. In addition, the criteria for these sites include mandatory participation in a case management program and active movement towards self-sufficiency. Elderly and disabled households may also be exempted from these criteria." The differentiation in these standards based on the age of householder and household type can be seen as a policy bias against families with children and they should be reassessed by LMHA.

Thank you for your consideration of my comments.

-Curtis

April 17, 2012

Mr. Curtis A. Stauffer Development Director Metropolitan Housing Coalition PO Box 4533 Louisville, KY 40204

Dear Mr. Stauffer:

Thank you for attending the recent public hearing on the Authority's draft Annual Moving To Work (MTW) Plan. We appreciate your interest and support, and your strong commitment to affordable housing within this community. Your comments and this letter of response will be included within the Annual MTW Plan submission.

- 1. You expressed concerns over the replacement of the units that have been demolished at Iroquois Homes. LMHA has pledged one-for-one replacement of the units lost during the phased demolition at Iroquois, as we have done with Clarksdale, albeit this will proceed at a slower pace than what can be accomplished through a HOPE VI program like Clarksdale. While you commented that no replacement units appear in the plan for Iroquois, in actuality, LMHA has already started replacing those units. Because of the flexibility provided through the MTW program, LMHA was able to combine Iroquois Replacement Housing Factor Funds with Clarksdale Replacement Housing Factor Funds to purchase units for Iroquois. If we had purchased the units outright, with only Iroquois Replacement Housing Factor Funds, that additional leverage would not have been available. To date, over 40 units have been acquired that count toward Iroquois replacement units. These units are included in the Housing Stock Table under AMP KY 1-34 New Scattered Sites. LMHA is firmly committed to replacement of the units, and we will resume replacement after Sheppard Square HOPE VI activities are complete, however the timeline depends on funding availability.
- 2. You also voiced concern about the utilization of Section 8 program funds. Please know that, as described on page 20 of the plan, for purposes of tracking program utilization, the number of units assigned in the Annual Contributions Contract is now simply an informational number which reflects the number of units that have been awarded to an agency since the inception of the Section 8 program. It is no longer practical for housing authorities to use ACC unit numbers for tracking utilization, and HUD now permits operations to be tracked based on fund utilization rather than unit ratios. There are several reasons for this change, and the first is inconsistent funding levels from year to year by HUD, e.g., funding for the Section 8 program by HUD for calendar year 2006 was limited to 94.599 percent of the amount needed to fully fund all units allocated under the ACC. Annual funding has been consistently reduced by use of proration factors as a result of federal budgetary constraints. Consequently, although the

Curtis Stauffer April 17, 2012 Page 2

number of units in the ACC is used to mathematically determine annual funding, because of the funding process there is no longer an absolute correlation between the amount of funding necessary to operate the program at 100 percent utilization and the amount of funding provided by HUD. As noted above, the number of units in the ACC is now simply a number that designates the number of units assigned to the LMHA since the program began in the mid-1970s. For 2013, this number is projected to be 10,034 units (including 9,809 MTW vouchers and 225 non-MTW vouchers).

An additional factor for no longer using ACC units for utilization purposes is that the increasing costs of housing assistance (increased rents and higher utilities allowances) affects the number of units that can be assisted by the agency. These cost increases have not been accounted for in the funding formula used by HUD as noted above. LMHA has done a number of things over the past few years in attempts to control the rising program costs, including a reduction in payment standards and a change to occupancy standards to reduce unit sizes. Also, LMHA stopped absorbing incoming portability clients and, instead, now bills for them. In addition, in an effort to reduce overlapping payments to two landlords, the LMHA placed restrictions on when new lease papers can be submitted for families moving from one unit to another with continued assistance.

Therefore, considering these factors, we ask you to account for LMHA's local average cost per Section 8 unit (which is \$583) when determining voucher funding utilization. Based on this cost, LMHA estimates that it could actually lease 9,312 vouchers given the amount of funds we anticipate receiving from HUD. LMHA estimates leasing 8,912 vouchers or a 95.7% funding utilization rate.

It has been the Agency's long-standing strategy to limit Section 8 costs to about 95 percent of the actual Section 8 funding made available in order to use the remaining five percent to supplement revitalization efforts in the HOPE VI program. We have not been able to actually do this over the past few years because100 percent of the Section 8 annual funding (as well as a significant amount of program reserves) were used to cover Section 8 program costs during this period of time. However, we are now in a position to begin the allocation of funds to the HOPE VI program and other LMHA activities.

3. You also noted that you believe LMHA should utilize Section 8 funds to house as many families as possible given the size of the wait list, and that although self-sufficiency services are important, housing families is much more so. LMHA agrees that housing families is critical, and, furthermore, it believes that families deserve the option to live in healthy, energy efficient homes, rather than being forced to live in distressed units such as those that existed at LMHA's family developments that have been transformed through HOPE VI revitalizations. LMHA remains firmly committed to total redevelopment of these sites and replacement of the units lost. In order to accomplish this, LMHA will continue to support HOPE VI physical development and public housing acquisition activities with gap financing provided by Section 8 reserves.

LMHA may also use reserve funds to support self-sufficiency programs. In LMHA's experience, it has found that families stand the greatest chance of becoming self-sufficient when engaged in programs such as case management and others offered by the Housing Authority and its partners. The size and success of our programs is measured by the total number of families served, not just the number of units in the Agency's housing stock. One effective way to serve more families, is to help those who are in the program achieve their

Curtis Stauffer April 17, 2012 Page 3

educational and employment goals, get back on their feet and find market-rate housing, freeing an existing unit or voucher for the next family on the wait list.

- 4. Additionally, you asked about the source of the "surplus" Section 8 funds. These funds are not "surplus" in the sense of being simply left over or unneeded. The costs to operate LMHA's public housing program exceeds typically exceeds the amount of annual funding from HUD (for 2013, the shortfall is estimated at \$3.2million), therefore, the Agency selects a Section 8 utilization rate in order to create a "surplus" in the Section 8 Voucher program to help offset the program operating gap. This is done by keeping the utilization rate at less than 100%. The so-called surplus is then transferred to the Public Housing program, which is allowed under MTW. The funds are still used for low-income tenants, however, if the shortfall is allowed to remain in the Public Housing program, the result would be further deterioration of buildings and units that may result in more vacancies in that program
- 5. You also asked that LMHA not close the Section 8 waiting list. In response to your request, LMHA has decided to keep the waitlist open for now. If we need to revisit this decision, we will do so through a public process.
- 6. Finally, you expressed concerns about LMHA's different occupancy criteria and timelimitations for select single-family scattered site units. LMHA, as well as many other public housing authorities across the nation are firmly committed to eradicating their problem plagued, large family sites. While these sites served a much needed purpose for many years, policy changes and shifting demographics have resulted in drastically different living environment for lower income households than what was envisioned when these sites were originally constructed. It is our hope to see the number of scattered sites continues to grow over the next few decades, as we continue to replace units that have been lost through demolition.

Although behind the charge, LMHA, along with other MTW public housing authorities (PHAs), is implementing term limits and work criteria for public housing residency. These types of policies are being promoted by HUD as a means to reduce waitlists and increase the number of families served by PHAs. In consultation with HUD and the public, LMHA made the decision to pilot these policies at the single-family scattered site units acquired since Clarksdale was demolished. The policies are designed to use this highly desirable type of public housing as incentive for families to move up and out of publicly assisted housing. There are now approximately 125 units with these criteria. As required by HUD, LMHA has been monitoring the outcomes of this policy change and details on the outcomes are provided in the Agency's annual reports.

While we realize that not all households can currently meet the criteria for those sites, LMHA has committed extensive resources and staff to help households meet those occupancy criteria including the Family Self-Sufficiency program, and case management and other supportive services for residents provided through the HOPE VI grants. Also, for those families who find they cannot meet the criteria and may be unable to exit the program at the end of the five-year time period, LMHA has a hardship policy. Families may be granted a two-year extension or may request a transfer to a family-site.

LMHA will continue to work closely with HUD to ensure that these policies are in compliance with Fair Housing laws and do not have unintended consequences on families of protected classes.
Curtis Stauffer April 17, 2012 Page 4

LMHA values our partnership with the Metropolitan Housing Coalition and looks forward to working with you and other agencies to implement successful MTW initiatives during the upcoming year. It will take these and other innovative approaches during these difficult times to serve all those who need quality, affordable housing. Thank you again for your input on the FY 2013 Annual MTW Plan.

Sincerely, Z Tim Barry **Executive Director**

TB:SL

April 17, 2012

Ms. Cathy Hinko Executive Director Metropolitan Housing Coalition PO Box 4533 Louisville, KY 40204

Dear Ms. Hinko:

Thank you for attending the recent public hearing on the Louisville Metro Housing Authority's draft Annual Moving To Work (MTW) Plan. The Authority welcomes input from organizations like the Metropolitan Housing Coalition that have a strong commitment to safe and affordable housing. Your comments and this letter of response will be included within the Annual MTW Plan submission.

- 1. You expressed concerns about getting the chance to review the plan and wanted to know how to submit comments to the Agency. As you correctly noted, the draft plan was not posted until after the date published in the newspaper; yet, despite the delay, the plan was placed at the front desk and online for 30 days beginning March 10, 2012, as required by HUD. Also, as described on the website and in the email that was disseminated on March 10th to the Agency's partners, including the Metropolitan Housing Coalition (MHC) among others, comments were accepted through April 10th, and as late as April 12th, either in person or inwriting at 420 S 8th Street, or by email to Sarah Laster at sarah.laster@gmail.com or Tim Barry at barry@lmha1.org.
- 2. You also recommended that LMHA keep the Section 8 wait list open. LMHA has considered MHC's recommendation and has decided to keep the wait list open for now, given its importance as an indicator of the demand/need for affordable housing in Jefferson County. If we need to revisit this decision, we will do so in a public process.
- 3. In addition, you noted that you believe that some of LMHA's policies are biased against families with children. First, LMHA wishes to assure you that it has been and will continue to work closely with our MTW partners, including HUD, to ensure that all protected classes are treated fairly and respectfully.

Second, with regards to changes in the housing stock, LMHA's strategy has been to replace the oldest, most distressed housing units first, which have been the family developments (e.g., Cotter Homes and Lang Homes, Clarksdale Homes, Iroquois Homes, and Sheppard Square). LMHA's developments for elderly and disabled families, including Dosker Manor, Saint Catherine and Avenue Plaza, were constructed more recently, therefore, as you describe, the number of units for elderly/disabled has remained stable, while the number of family units has decreased. LMHA remains firmly committed to replacing the family units that have been lost, as funds become available. To date, LMHA has achieved one-for-one replacement of the 713

Cathy Hinko April 17, 2012 Page 2

Clarksdale units (which also resulted in more bedrooms than were previously available at Clarksdale) and acquired over 40 units towards Iroquois replacements.

Third, you also voiced concern about the utilization rate of Section 8 program funds. Based on LMHA's average cost per unit of of a Section 8 voucher, which is \$583, LMHA estimates that it could actually lease 9,312 MTW vouchers. LMHA estimates leasing 8,912 vouchers which is a utilization rate of 95.7%. It has been the Agency's long-standing strategy to limit Section 8 costs to about 95 percent of the actual Section 8 funding made available in order to use the remaining five percent to supplement revitalization efforts in the HOPE VI programs.

Fourth, you expressed concerns about LMHA's different occupancy criteria and timelimitations for select single-family scattered site units. Although behind the charge, LMHA, along with other MTW Public Housing Authorities (PHAs), is implementing term limits and work criteria for public housing residency. HUD has strongly encouraged such policies as a means to reduce wait lists and increase the number of families served. In consultation with HUD and the public, LMHA decided to pilot the policies at select single-family scattered site units for which residents must qualify and ask to be placed on the referral list. While these policies are designed to use this highly desirable type of public housing as incentive for families to move up and out of publicly assisted housing, if the outcomes are not favorable, the policy will be reconsidered. As required by HUD, LMHA has been monitoring the outcomes of this policy change and details on the outcomes are provided in the Agency's annual reports.

While we realize that not all households can currently meet the criteria for those sites, LMHA has committed extensive resources and staff to help households meet those occupancy criteria including the Family Self-Sufficiency program, and case management and other supportive services for residents provided through the HOPE VI grant. Also, for those families who find they cannot meet the criteria and may be unable to exit the program at the end of the five-year time period, LMHA has a hardship policy. Families may be granted a two-year extension or may request a transfer to a family-site.

Finally, you note that LMHA is using Capital money to destroy public housing. While LMHA has demolished a large number of distressed units in recent decades, it has also continued to maintain safe and decent housing for families at the remaining developments, including Beecher Terrace and Parkway Place. In FY 2013, LMHA plans to spend over \$4,000,000 on public housing development activities including \$1,527,218 earmarked specifically for public housing rehabilitation expenses. LMHA will also use an additional \$906,840 in Capital funds to pay for security services at the sites.

LMHA also values our partnership with the Metropolitan Housing Coalition and looks forward to working with you during the upcoming year. Thank you again for your input on the Annual Plan.

Sincerely. Tim Barry

Executive Director

TB:SL

*In 2011, LMHA updated in PIC its HUD approved special use designations for public housing units at some sites. Unit counts have been adjusted to reflect these changes. ** As part of its transition to AMP numbers, the development 550 Apartments (72 units) was included in AMP KY 1-014 at the start of FY 2008.

Civil Rights Certification

Annual Certification and Board Resolution

Acting on behalf of the Board of Commissioners of the Public Housing Agency (PHA) listed below, as its Chairman or other authorized PHA official if there is no Board of Commissioner, I approve the submission of the Plan for the PHA of which this document is a part and make the following certification and agreement with the Department of Housing and Urban Development (HUD) in connection with the submission of the Plan and implementation thereof:

The PHA certifies that it will carry out the public housing program of the agency in conformity with title VI of the Civil Rights Act of 1964, the Fair Housing Act, section 504 of the Rehabilitation Act of 1973, and title II of the Americans with Disabilities Act of 1990, and will affirmatively further fair housing.

Certification for a Drug-Free Workplace

U.S. Department of Housing and Urban Development

Applicant Name

ALL SITES.

LOUISVILLE METRO HOUSING AUTHORITY

Program/Activity Receiving Federal Grant Funding

MOVING TO WORK DEMONSTRATION PROGRAM

Acting on behalf of the above named Applicant as its Authorized Official, I make the following certifications and agreements to the Department of Housing and Urban Development (HUD) regarding the sites listed below:

I certify that the above named Applicant will or will continue to provide a drug-free workplace by:

a. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Applicant's workplace and specifying the actions that will be taken against employees for violation of such prohibition.

b. Establishing an on-going drug-free awareness program to inform employees ---

(1) The dangers of drug abuse in the workplace;

(2) The Applicant's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

c. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph a.;

d. Notifying the employee in the statement required by paragraph a. that, as a condition of employment under the grant, the employee will --- (1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

e. Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph d.(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federalagency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

f. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph d.(2), with respect to any employee who is so convicted ---

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

g. Making a good faith effort to continue to maintain a drugfree workplace through implementation of paragraphs a. thru f.

2. Sites for Work Performance. The Applicant shall list (on separate pages) the site(s) for the performance of work done in connection with the HUD funding of the program/activity shown above: Place of Performance shall include the street address, city, county, State, and zip code. Identify each sheet with the Applicant name and address and the program/activity receiving grant funding.)

Check here if there are workplaces on file that are not identified on the attached sheets.

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate. Warning: HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

Certification of Payments to Influence Federal Transactions

U.S. Department of Housing and Urban Development Office of Public and Indian Housing

OMB Approval No. 2577-0157 (Exp. 01/31/2014)

Applicant Name

LOUISVILLE METRO HOUSING AUTHORITY

Program/Activity Receiving Federal Grant Funding

MOVING TO WORK DEMONSTRATION PROGRAM

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, Disclosure Form to Report Lobbying, in accordance with its instructions. (3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all sub recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate. **Warning:** HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

F. Louisville Metro Housing Authority's definition of substantial deviation and significant amendment/modification.

Substantial deviations or significant amendment/modifications are defined as discretionary changes in the plans or policies of the Louisville Metro Housing Authority that fundamentally change the mission, goals, objectives or plans of the Agency's MTW (Moving to Work) Annual Plan and which require formal approval of the Board of Directors. LMHA will consider the following to be substantial deviations and significant amendments/modifications:

- Significant changes to an MTW Activity outside the scope of the Agency's HUD-Approved MTW Plan;
- Changes to rent or admissions policies or organization of the waiting list;
- Changes to the Public Housing Admissions and Continued Occupancy Policy;
- Changes to the Section 8 Housing Choice Voucher Program Administrative Plan;
- Any single or cumulative annual change in the planned or actual use of federal funds as identified in the Plan of funds under the Capital Fund (including replacement housing factor funds) that exceeds 20% of the Agency's annual capital budget.
- Any single or cumulative annual change in the planned or actual use of federal funds as identified in the Plan that exceeds 20% of the Agency's annual program budgets for Section 8 or public housing activities.
- Any change with regard to demolition or disposition, designation, homeownership programs or conversion activities.

A substantial deviation does not include any changes in HUD rules and regulations, which require or prohibit changes to activities listed herein.
