

Our office is proud to offer Township Section and Quarter Section file folders (**Sleeves**) on DVD or Flash Drive. This project was designed to transform our paper copies into a digital format for archival purposes and also make it available to our customers. The files are published by Township and are in PDF format. No special software is needed to view or print these documents. (*See list below*)

The information in the file is the exact content of every sleeve we maintain in our office. We had every document scanned within the sleeves and indexed by selected fields (*i.e. Linen Map, Survey Plats, and Subdivision Plats...*). The scanned information is current within about a month of recording and new documents are added daily. The price of each file is **\$25.00** and are available from Maps and Plats on a made-to-order basis. We ask that you give at least one (1) day lead-time when you place your order. Please contact our office at 692-7040 ext. 4586 to place your order or email:

ateffler@madisoncountyl.gov

PUBLISHED HISTORY CARDS & WORK BOOK MAPS

Our History Cards and Work Book Maps have been scanned in 2005 and are available to purchase. The cards are internal documents used by our office to track ownership back to 1958. The maps are used by

our office to track property lines for adherence to the Illinois State Plat Act that regulates land divisions. See History Cards & Work Book Maps for more information or contact our office.
