

## HEALTH PROMOTION SERVICES DIVISION

The goal of Health Promotion Services is to educate citizens about the positive effects of a healthy lifestyle and to encourage them to alter lifestyles through changes in behavior. Lifestyle changes are facilitated through the combination of efforts to enhance awareness, change behavior, and by creating environments that support good health practices. These lifestyle changes often require addressing physical, mental, and social issues contributing to the behavior.

Health Promotion Services administers programs with schools, community organizations, collaborations, citizens, state and regional programs, coalitions, and media. Health Promotion collaborates with many county agencies, organizations, and community members to prepare and offer education. This year the primary health promotion focus has been implementing a comprehensive tobacco prevention program, developing and implementing a countywide youth alcohol initiative, and continuing outreach and education with the Illinois Breast and Cervical Cancer Program.

### Ninth Annual Report

December 1, 2002  
through  
November 30, 2003

**Madison County Health Department**  
101 E. Edwardsville Road  
Wood River, IL 62095-1332

## To the Citizens of Madison County:

I am pleased to submit to you the 2003 Annual Report of the Madison County Health Department. Activities in Environmental Health, Personal Health, Emergency Preparedness, Health Promotion and Administration were conducted in accordance with our department's mission of providing necessary and desired programs to assure conditions in which people can be healthy.

Throughout 2003, staff of the health department remained diligent in responding to matters of public health. Briefly, some highlights include the human and environmental surveillance activities completed for West Nile Virus; implementation and delivery of Phase I smallpox vaccinations for identified public health first responders; and successful development and launching of our department's website:

[www.madisoncountyhealthdepartment.org](http://www.madisoncountyhealthdepartment.org)

In addition to providing ongoing basic public health protection and disease prevention services to the citizens of Madison County, we will continue in our role of serving as a local resource who addresses the health needs of the County in relation to core public health functions and essential public health services.

In the coming year, this department looks forward to enhancing collaborative efforts and partnerships with various health providers, health professionals, local and state officials and other community stakeholders who desire to "Enjoy Good Health" in Madison County. Thank you for your support.

Sincerely,

Toni Corona, B.S., L.E.H.P.  
Public Health Administrator

## MISSION

It is the mission of the Madison County Health Department to provide those programs and activities that are necessary and desirable to assure the conditions in which people can be healthy. The Department shall carry out its mission through: regular and systematic assessments of community needs; policy development based on knowledgeable and scientific principles of health; and assuring these actions by regulations or direct services.

## ENVIRONMENTAL HEALTH SERVICES DIVISION

### Food Sanitation Program

The goal of the Food Sanitation Program is to protect citizens from contracting and transmitting foodborne

diseases, and to educate food service operators and consumers about safe food handling practices.

Routine Inspections .....	2482
Reinspections .....	318
Consultations .....	93

Summer Food Program Inspections .....	3
Summer Food Program Reinspections .....	1
Complaint Investigations .....	156
Foodborne Illness Investigations .....	33
Plan Reviews .....	61
Pre-Opening Inspections .....	71
Permits Issued .....	1185
Responses To Fires .....	15
In-Service Training Sessions Provided .....	22
In-Service Participants .....	501
Embargoes .....	2
Voluntary Closures .....	3
Media Contacts .....	9
Handwashing Demonstrations .....	21
Handwashing Participants .....	1246

### Potable Water Supply Program

The goal of the potable water supply program is to protect groundwater from contamination, prevent citizens from contracting or transmitting waterborne disease, and to ensure proper well construction of private water supplies.

Well Permits Issued .....	26
Wells Inspected .....	29
Consultations .....	3
Water Wells Sealed .....	12
Non-Community Surveys .....	10
Real Estate Inspections .....	2
Water Well Analysis .....	334

### Tanning Program

The goal of the Tanning Inspection Program is to protect citizens from overexposure to ultraviolet radiation, which can cause skin irritation, eye damage, and forms of cancer.

Initial Inspections .....	5
Renewal Inspections .....	39
Reinspections .....	4
Complaint Investigations .....	1

### Vector Program

The goal of the Vector Program is to conduct surveillance activities to identify, control and reduce the population of specific insects that have the potential for becoming disease vectors.

Site Investigations .....	33
Dead Bird Surveillance .....	12
Dead Bird Calls .....	633
Mosquito Collections .....	31
Media Contacts .....	29
Educational In-Services .....	21
Participants .....	467

### Body Art Program

The goal of the Body Art Program is to prevent the occurrence of injury, infection, and disease transmission as a result of improper Body Art or aftercare procedures.

Initial Assessments .....	0
Routine Inspections .....	10
Establishment Permits Issued .....	4
Operator Permits Issued .....	13

## PERSONAL HEALTH SERVICES DIVISION

The primary goal of Personal Health Services is health promotion and disease prevention. This is accomplished by programs that utilize primary and secondary prevention efforts. These programs either prevent disease or minimize the impact of disease/environmental insults on a person, family, community or at risk groups.

### Communicable Disease Program:

AIDS .....	7
Chlamydia .....	570
Enteric E Coli Infections .....	4
Gonorrhea .....	230
Hepatitis A .....	15
Hepatitis B .....	18
Hepatitis C .....	59
HIV .....	19
Neisseria Meningitis - Neisseria, Other Invasive .....	1
Pertussis .....	5
Syphilis .....	18
STD Home Visits .....	71
Total Number of Confirmed Reportable Diseases ..	1261

### Immunization Program:

Clinics Offered .....	149
Clients Seen .....	5988
Total Immunizations (including IG) ..	6747

### HIV Program (Counseling, Testing, Referral, Partner Notification Services):

Clients Serviced .....	94
Tested Anonymously .....	87
Tested Confidentially .....	0

### Lead Testing and Case Management Program:

Blood Lead Tests Reported to Health Department ..	2319
Home Visits .....	26

Risk Assessments .....	249
Blood Lead Screens .....	210
Children Case Managed .....	36

### Tuberculosis Control Program:

TB Clinics Offered .....	155
Client Encounters .....	2162
Mantoux Skin Tests .....	898
New Cases of MTB .....	5
Patients started on Meds .....	62
Horne Visits for DOT .....	420
Lab Tests .....	91
Chest X-rays .....	133

### Genetics Follow-up and Education:

Home Visits .....	21
Newborn Screening Follow-up .....	5
Families Given Genetic Education .....	60

### Perinatal Hepatitis B Program:

Case Managed .....	0
Individuals Impacted .....	0

### Illinois Breast and Cervical Cancer Program:

Case Managed .....	330
Mammograms .....	559
Pap Smears .....	308
Office Visits .....	310

### Vision and Hearing Screening Program:

Number of Day Care/Schools Reached .....	104
Vision Screens Performed .....	3738
Hearing Screens Performed .....	3598
Total Children Referred (Confirmative Testing) ..	67

## PUBLIC HEALTH EMERGENCY RESPONSE

The goal of this division is to ensure the health department as a whole monitors for and is prepared to respond decisively to: terrorist attacks, new and emerging infectious diseases or disasters. This is accomplished in a collaborative effort with other Local, State and/or Federal responding agencies and Private Citizens. The type of response and collaboration is determined by the type and extent of the event, each agency doing what they do best, taking the lead as their area of expertise is called upon.

This is a new division and its success this year is demonstrated in the non-traditional relationships the agency has built with partners in law enforcement, emergency management, fire service, and the Department Of Justice. Other successes include rebuilding of the basic infrastructure of the health department, moving from paper to electronic reporting, to name but one of many achievements towards building for a better prepared community, a community more prepared to withstand the public health threats here today and those coming tomorrow.
