## 505 N Main

Plans have been finalized and approved for the redevelopment of the former gas station on the corner of Commerce and Main. A traditionally-scaled building set on the lot line will accommodate first floor commercial space with 16 up-scale residential units above. The proposal includes a 40-space parking deck that is at the Main Street level with 60 spaces below the building and deck accessed by the Mill Valley Commerce Street entrance. All 100 parking spaces will be available to other downtown users. Impacted soils on the site, which is an MDEQ facility, will be removed. Final building design and finishes are to be determined, but will be in concert with downtown design guidelines and DDA/Village recommendations. Tentative plans are for construction to begin July, 2018.

## Milford Police Department 75 Years of Service

### 1943-2018

March 3, 2018 marked the official 75th anniversary of the Milford Police Department. MPD was formed on this day in 1943 when a deputy by the name of Floyd “Pop” Harger hired in as Milford’s first full-time police chief. Harger drove a 1939 Mercury as his first scout car.

In 2018, to commemorate MPD’s 75th anniversary we designed a modern Ford Explorer Police Interceptor to replicate MPD’s fleet in the 1940’s.

As our anniversary year continues we will share some cool facts and figures that highlight how far we have come in the last 75 years on our Facebook page [www.facebook.com/MilfordMichiganPD](http://www.facebook.com/MilfordMichiganPD).

Thank you Milford community for your support over the years as we celebrate our golden anniversary.

Thomas C. Lindberg  
Milford Chief of Police

## Native Plants for Water Quality

Many of the grasses and shrubs we plant in our yards aren't the best for protecting water quality. Native plants - those naturally found in Southeast Michigan, actually help improve water quality. They encourage a healthier environment by providing nesting sites and food for wildlife. Best of all, native plants are adapted to our local soils and climate, so they don't need excessive watering and require very little pesticides which can pollute our waterways.

For more information on native plants visit <http://mg.msue.msu.edu>.

## Estimated Water/Sewer Bill?

If you have received an estimated water/sewer bill take a minute and see if you have a note explaining why. Most of the time we are unable to access the remote reader that is located on the outside of your home. If you have one of these remote

boxes please make sure that the meter reader has access to it. Keep bushes, flowers and other outdoor items at least two feet from the remote box. Also, if you have any work done on your home make sure the re-

mote stays intact, otherwise a fee will be charged to replace it!

## Riverfront Property Owners

How to protect water quality - Riverfront property owners have a special responsibility to prevent pollutants from entering the waterbody. Common pollutants include: lawn fertilizer, runoff from driveways, oil and gas and septic system effluent.

Practice these healthy lawn and garden tips:

- Avoid feeding waterfowl
- Maintain a 15-foot no-mow, fertilizer free buffer area adjacent to water body
- Mow grass high for water conservation and root growth
- Never dump yard waste in watercourses

## Dog License Fees

Oakland County Board of Commissioners approved a three dollar (\$3.00) increase on all dog license fees for 2018. For more information on fees go to [www.milfordtownship.com](http://www.milfordtownship.com) under "Resident Services".

## Leash Ordinance

It's Spring (finally) and time to walk the family dog. Please remember under Village ordinance Section 14-37, when off the premises of its owner or custodian all dogs must be leashed. This includes in any park or on the Milford trail. Also, please be a good pet owner and clean up after your pet.

## Sewer Backups

The leading cause of backups in the sewer system is improper disposal of non-flushable items. Wipes, such as baby and cleaning may be labeled flushable **BUT THEY ARE NOT!** Feminine products are also not flushable. These items enter the system and cause plugs, resulting in backups into residents' homes and can be quite costly. Only human waste should enter the sewer system!

## Sewer Credits

If you water outside and do not have a separate meter for irrigation you may qualify for a watering credit. Applications are available online at [www.villageofmilford.org/forms](http://www.villageofmilford.org/forms) or at the Village office.

Reminder, credits are not reviewed until after you receive your bill!
