Discussion of the Layouts of the Proposed Sub-division by Carl Romenesko:

Prior to the discussion of this topic, Chairman Steinhorst advised the Town of Mukwa residents in the audience there was not going to be any public comment at this time, however; after the annexation process was completed there would be a public hearing when the permanent zoning would be applied.

Prior to the meeting, Hanlon had prepared a memo to the Commissioners discussing the three (3) options proposed by Mr. Romenesko. It was noted that Option #2 actually contained 42 building lots, however; with the minimum lot size requirement that number would not be realistic.

Henke mentioned the City has been in contact with Waupaca County and the Town of Mukwa regarding traffic around the school, which has been a concern for a long time.

Motion by Thompson to recommend Option #2 which removes the farmhouse from the property and uses the entire area for new residential construction as permitted by the Zoning Code. Second by Noel. Motion carried 5/0

Recommendation for Zoning of Romenesko Property for Annexation:

A plat of survey for the Romenesko parcel being annexed was presented for approval along with a requirement of the City to place a zoning designation on the property for the purpose of annexation. Hanlon suggested R-Residential. Henke suggested R-2, which would allow only one and two family dwellings.

Motion by Henke, second by Thompson to approve the plat of survey and place R-2 zoning on the property. Motion carried 5/0

Review Zoning for Properties along the South Side of Wolf River Ave (Shawano Street to the West):

Members reviewed several properties along W Wolf River Ave from the intersection of Shawano Street to the West. The entire area is currently zoned M-Manufacturing. The following changes were recommended:
