

## Catch Basin Marking Efforts

The Town of North Haven continues with its Stormwater Awareness efforts. As a part of this important environmental awareness program it is our job along with our student volunteers to mark the storm drains and catch basins. In conjunction with the United States Environmental Protection Agency and the State of Connecticut's Department of Energy and Environmental Protection MS4 Stormwater Best Management Practices (BMP), the Town of North Haven has been marking all storm drains and catch basins throughout the North Haven area.

These markers can raise awareness throughout the Town about the connection between the storm drains and receiving waters and can help to deter littering, reduce excess fertilizer use, illegal dumping and other practices that contribute to Stormwater pollution. If illegal dumping is observed, please report it to the non-emergency North Haven Police Department telephone line at 203-239-5321, extension 226.

The following drainage areas in Town have been marked and include:
