### **Curriculum and Instruction Meeting Agenda**

**December 12, 2019**

**6 PM Central Office**

Present: Melinda McKenna, Dot Logan, Wes O'Brien (recording)

K-12 Science Coordinator **Paris Godbout** proposed the purchase of a new textbook, *Environmental Science for AP*. 3<sup>rd</sup> ed. 2019, W.H. Freeman and Company. Request is for one classroom set of the print edition. Course is taught by **Mike Proto**. Funds are already allocated. C&I unanimously approved the request.

K-12 Music Coordinator **Brian Hutton** met to propose a ½ year music technology course to be taught by **Sarah Iaderola**. The course will become an L3 option, will not include a performance component and will be open to all students. Mr. Hutton also proposed reinstatement of a ½ year guitar class—a currently dormant class that has been offered in the past. It too would be open to all students. C&I unanimously recommends approval of both classes.

C&I unanimously recommends approval of a new club: Kind NHHS. We figured it would be mean to say no.
