

NORTH HAVEN CLEAN ENERGY TASK FORCE  
MEETING MINUTES 12/13/21

- SCROG request re: SolSmart program
  - SolSmart is a federal program that provides technical assistance to towns and municipalities to make getting solar onto homes easier
  - Task Force agrees to follow-up
- North Haven Climate Change Forum Follow-Up
  - Sending to NH High School to share with science department (Environmental Science class is being taught there)
  - Posting link onto Community 2.0 group on Facebook
  - Following up on when it's scheduled to broadcast on NHTV
  - Sending to ECSU
  - Will try to download video for native uploading and selecting clips
- Proposal for Climate Change/Clean Energy Newspaper Column
  - Tried to reach out multiple times but haven't heard back
  - Have a list of strong story ideas
- HeatSmart Heat Pump Campaign
  - Too short-handed to take on the project at the moment – would require at least nine people
  - Can partner with contingent municipalities – Hamden is the best candidate
  - HeatSmart campaign would check a box to qualify for the utility company partnership grant
  - Task Force agrees next step would be to collect info from Branford's task force on their successful HeatSmart campaign
- Continued recruiting efforts are ongoing
