RE: T-1916 Target North Haven Drive Up Expansion – Letter of Intent

To Town of North Haven Planning and Zoning Commission,

On behalf of Target, Kimley-Horn is pleased to submit the proposed Preliminary/Final Site Plan for the Drive-Up Expansion at the existing Target retail store located at 200 Universal Drive North, North Haven, CT 06473. This project involves parking stall restriping for the designated Drive-Up stalls that service guests who place online orders for Target team member delivery to their vehicles. The construction documents included identify the existing drive-up area, proposed drive up area and minor changes to the lighting plan.

The existing drive up stalls onsite are to be converted back to standard parking stalls. Twenty-Four (24) new striped "drive-up" designated parking stalls with side employee walkway and loading areas are to be installed with post/panel drive up signs at the head of each stall. The reconfiguration will reduce total parking counts by 4 stalls. The alterations crosswalk installation, and necessary stop control for access to drive up parking area. Design will provide a 6' walkway between parking stalls for team member access to each stall. In addition, there is to be two (2) 12' height solar powered wayfinding beacons proposed within the drive-up parking area (vertical illuminated red poles with "drive up" verbiage). The expansion also includes an additional site lighting pole and additional lighting fixtures will be attached to the existing pole at the front of the Drive-Up stalls.

Should you have any questions, please do not hesitate to contact me directly at 914-368-9198 or [william.slater@kimley-horn.com](mailto:william.slater@kimley-horn.com).

Sincerely,

William Slater, EIT
