Rancho Simi Recreation and Park District Announces Partnership with Simi Valley Unified School District for Additional Athletic Field Space

In response to the continuing need for quality athletic field space in the community, the Rancho Simi Recreation and Park District (Park District) is pleased to announce that the Park District and the Simi Valley Unified School District (School District) have partnered to provide for additional recreational and athletic field space at the Adult Education Apollo Field site, located at 1880 Blackstock Avenue in Simi Valley.

The partnership agreement provides for a two-year term, with the option to extend the use for additional years if needed, with the School District providing the location and the Park District providing required maintenance and field use oversight.

Park District Board of Director's Chair Ed Abele commented, "The additional athletic field space is an exciting development for our local youth sports leagues and will benefit the entire community. The cooperation between the park district and the school district on this important project once again illustrates the excellent relationship between these outstanding entities."

Following completion of necessary rehabilitation and renovations, the 4.10-acre Apollo Field site is now available for use by the public and local sports leagues and teams for athletic activities.

For more information about scheduling use of field space at the new location or any of Rancho Simi Recreation and Park District locations, visit www.rsrpd.org or call 805-584-4400.
