Newton Medical Center/Atlantic Health System Offering Grants for Projects Addressing Community Health Needs

Recognizing and addressing the needs of our local community is a top priority for Atlantic Health System and Newton Medical Center. We are committed to building healthier communities, extending our commitment beyond providing excellent healthcare within our hospitals, medical practices, and facilities, into the wider community.

To further this commitment, the Community Advisory Board of Newton Medical Center is currently accepting grant applications from non-profit organizations in the area. These grants aim to fund projects focusing on the health-related needs of the communities served by Newton Medical Center.

In the latest Community Health Needs Assessment by Newton Medical Center and Atlantic Health System, the following health priorities were identified in the service area:

- Mental Health and Substance Abuse
- Cancer
- Heart Disease
- Diabetes
- Obesity
- Stroke

If your organization is addressing one or more of these six specific health needs priorities for our local community, we invite you to apply for a grant to support your efforts. Grants will be awarded on a case-by-case basis, under the direction of the Community Advisory Board of Newton Medical Center. For further details about the Community Health Needs Assessment for Newton Medical Center, please visit www.atlantichealth.org/chna.

If you have any questions, please email michele.mcgrogan@atlantichealth.org.

The deadline for submitting completed applications is Friday, May 3, 2024.
