Re: Case Number: 070821-02 (Estate of David Miller)

Mr. Howard,

A complaint was filed with the Upshur County Safe Structures and Sites Board in regards to David Miller's property located in Banks Tax District -Tax Map 4 - Parcel Number 2 on June 8, 2021. Specific recommendations of the Board include correction of any health and safety hazards, including but not limited to the removal and proper disposal of any debris, trash, junk vehicles and/or removal and proper disposal of any environmental hazards. The County's Safe Structures and Sites Board sent correspondence to Mr. Bolyard, Estate Administrator, in regards to the properties' condition on the following dates:

- July 13, 2021 --- Notice of Visit
- August 16, 2021 --- Notice of Required Action
- October 15, 2021 --- Extension
- November 15, 2021 --- Extension
- December 16, 2021 – Petition for Order

After no progress was made in improving the condition of the property, the Safe Structures and Sites Board turned this case over to the Upshur County Commission. The Upshur County Commission reviewed photographs of the property taken on December 15, 2021 and the Petition for Order during a regularly scheduled Commission Meetings on January 13, 2022 and January 20, 2022. After speaking with Gloria Post, paralegal for Davis Funeral Home, on January 19, 2022, I informed the Commission of Mr. Bolyard's intent as Administrator to sell the property. After discussion, the Commission voted to re-evaluate the status of the property after 30 calendar days. Therefore, the Petition for Order was considered again during the Commission Meeting scheduled for February 24, 2022. During this meeting, the Commission was advised the property was sold and the County Clerk's office was waiting for the executed deed. The Commission voted to discuss a timeline for clean-up upon recording of the deed, which was recorded on May 5, 2022.

Provisions of the Safe Sites and Structures Ordinance allow members of the Enforcement Board to visit, review, photograph and/or obtain soil samples of the property in question in order to perform an

investigation. Please be advised that a site visit for the property in question has been scheduled for May 25, 2022 9:30 a.m. The owner of the property and/or a representative of the property owner are welcome and encouraged to be present for this site visit. Photographs from the site visit will be reviewed by the Commission during their regularly scheduled Commission Meeting on Thursday, June 2, 2022 at 9:45 a.m. These meetings are open to the public and you are encouraged to attend.

If you have any questions or updates regarding the subject property, please contact our office at the number listed above.

Best regards,

Tabatha R. Perry
County Administrator

Program: OM&R Funding
County: Upshur
Agreement #:

**Pecks Run Channel
Operation, Maintenance Funding Agreement**

THIS AGREEMENT, made this _____ day of _____, 2022, by and between the Upshur County Commission, Tygarts Valley Conservation District, and the West Virginia Conservation Agency.

AUTHORITY: WVCA: W.Va. Code 19-21A-4
 Upshur County Commission: W. Va. Code 7-1-3i

THE PURPOSE of this agreement is to recognize the need for ongoing operation, maintenance, and inspection for critical infrastructure and to provide annual funding to operate and maintain the flood control structure known as the Pecks Run Channel located in Upshur County.

It is Mutually agreed that:

This agreement shall run on a 12-month fiscal year, July 1 to June 30. This agreement may be extended for up to five years by mutual consent of each party.

All sponsors agree to provide funding to the Tygarts Valley Conservation District on an annual basis to address the operation and maintenance of the structures covered under this agreement.

The Upshur County Commission shall provide: \$4,000.00
The West Virginia Conservation Agency shall provide: \$4,000.00

The Tygarts Valley Conservation District shall send a letter in January of each year requesting these funds in accordance with the list above.

As part of the request, the Tygarts Valley Conservation District, in collaboration with the West Virginia Conservation Agency, shall make a report to the Upshur County Commission on prior fiscal year's operation and maintenance work, and provide a projection of work that will be performed during the upcoming fiscal year.

All parties listed above shall be invited to attend the scheduled operation and maintenance inspections on an annual basis at a time mutually agreed to by the parties.

Any costs outside of the regular operation and maintain will be negotiated and become part of a separate agreement between the parties.

West Virginia Conservation Agency funding is subject to annual appropriations from the WV Legislature.

Page 2 – OM&R Funding Agreement
County: Upshur
Agreement #:

Upshur County Commissions' funding is subject to annual appropriations.

This agreement reflects the entire understanding between the parties. Any changes to this agreement shall be in writing and signed by all parties.

This agreement is governed by West Virginia law. If any part of this agreement is declared to be invalid by a body having competent jurisdiction, the remaining terms and conditions of the agreement survive in their entirety.

**Mon Power and Potomac Edison Now Subscribing Solar Energy Customers
in West Virginia**

Companies plan to construct 50 megawatts of clean, renewable solar generation

FAIRMONT, W. Va. – Mon Power and Potomac Edison, subsidiaries of FirstEnergy Corp. (NYSE: FE), are accepting customer commitments to purchase solar renewable energy credits (SRECs) from five utility-scale solar facilities planned for the companies' West Virginia service territory. The companies recently received conditional approval from the Public Service Commission of West Virginia for the five projects, which will together total 50 megawatts of renewable solar generation to help make West Virginia more attractive for business development.

SRECs are certificates that represent the environmental attributes of solar power and prove solar energy was generated on the purchasers' behalf. For every megawatt hour of solar energy generated, one SREC is produced. When fully operational, the five projects planned by Mon Power and Potomac Edison are expected to create more than 87,000 SRECs per year.

With an overall subscription cost of 4 cents per kilowatt hour in addition to normal rates, customers will be able to choose from a variety of SREC subscription levels and term lengths with pricing options that allow for broad participation in the West Virginia solar program. Commercial and industrial customers will be able to choose a subscription level that reflects a percentage of their monthly energy consumption. Residential customers can support

the program by purchasing a SREC over time at monthly levels of 50 kilowatt hours (\$2 per month), 100 kilowatt hours (\$4 per month), 200 kilowatt hours (\$8 per month) or more.

When Mon Power and Potomac Edison have obtained customer commitments for 85% of the renewable energy credits generated by a solar facility, the companies will seek final approval from the commission for a modest ratepayer surcharge to cover the balance of the project costs and begin full-scale construction. Mon Power and Potomac Edison customers who make a commitment for SRECs now are not expected to begin incurring charges until early 2024.

“We are excited for our solar program to get underway and look forward to connecting with customers who have expressed interest in solar power and supporting renewable energy in West Virginia,” said Jim Myers, president of FirstEnergy’s West Virginia operations.

The companies’ solar program supports a 2020 bill passed by the West Virginia Legislature that authorizes electric utilities to own and operate up to 200 megawatts of solar renewable generation facilities to help meet the state’s electricity needs. The addition of new renewable generation also encourages economic development in West Virginia, as a growing number of companies require that a portion of the electricity they purchase be generated by renewable sources.

Mon Power will build, own and operate the five solar facilities, which are located on property owned by Mon Power or its affiliates. The locations include:

- A 26-acre reclaimed ash disposal site in Berkeley County
- A 51-acre site adjacent to a Mon Power substation in Hancock County
- A 27-acre retired ash disposal site in Marion County
- A 95-acre site in Monongalia County adjacent to Fort Martin Power Station
- A 44-acre reclaimed strip mine property in Tucker County

To subscribe or find out more about the solar program, Mon Power and Potomac Edison customers in West Virginia can submit their information at www.firstenergycorp.com/WVSolar or by calling 1-800-505-7283.

Mon Power serves about 395,000 customers in 34 West Virginia counties. Follow Mon Power at www.mon-power.com, on Twitter [@MonPowerWV](https://twitter.com/MonPowerWV), and on Facebook at www.facebook.com/MonPowerWV.

Potomac Edison serves about 275,000 customers in seven counties in Maryland and 151,000 customers in the Eastern Panhandle of West Virginia. Follow Potomac Edison at www.potomacedison.com, on Twitter [@PotomacEdison](https://twitter.com/PotomacEdison), and on Facebook at www.facebook.com/PotomacEdison.

FirstEnergy is dedicated to integrity, safety, reliability and operational excellence. Its 10 electric distribution companies form one of the nation's largest investor-owned electric systems, serving customers in Ohio, Pennsylvania, New Jersey, West Virginia, Maryland and New York. The company's transmission subsidiaries operate approximately 24,000 miles of transmission lines that connect the Midwest and Mid-Atlantic regions. Forward-Looking Statements: This news release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 based on information currently available to management. Such statements are subject to certain risks and uncertainties and readers are cautioned not to place undue reliance on these forward-looking statements. These statements include declarations regarding management's intents, beliefs and current expectations. These statements typically contain, but are not limited to, the terms "anticipate," "potential," "expect," "forecast," "target," "will," "intend," "believe," "project," "estimate," "plan" and similar words. Forward-looking statements involve estimates, assumptions, known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, which may include the following the potential liabilities, increased costs and unanticipated developments resulting from government investigations and agreements, including those associated with compliance with or failure to comply with the Deferred Prosecution Agreement with the U.S. Attorney's Office for the Southern District of Ohio; the risks and uncertainties associated with government investigations and audits regarding Ohio House Bill 6, as passed by Ohio's 133rd General Assembly ("HB 6") and related matters, including potential adverse impacts on federal or

state regulatory matters, including, but not limited to, matters relating to rates; the risks and uncertainties associated with litigation, arbitration, mediation, and similar proceedings, particularly regarding HB 6 related matters, including risks associated with obtaining court approval of the definitive settlement agreement in the derivative shareholder lawsuits; weather conditions, such as temperature variations and severe weather conditions, or other natural disasters affecting future operating results and associated regulatory actions or outcomes in response to such conditions; legislative and regulatory developments, including, but not limited to, matters related to rates, compliance and enforcement activity, cybersecurity, and climate change; the ability to accomplish or realize anticipated benefits from our FE Forward initiative and our other strategic and financial goals, including, but not limited to, overcoming current uncertainties and challenges associated with the ongoing government investigations, executing our transmission and distribution investment plans, greenhouse gas reduction goals, controlling costs, improving our credit metrics, growing earnings, strengthening our balance sheet, and satisfying the conditions necessary to close the sale of the minority interest in FirstEnergy Transmission, LLC; the risks associated with cyber-attacks and other disruptions to our, or our vendors', information technology system, which may compromise our operations, and data security breaches of sensitive data, intellectual property and proprietary or personally identifiable information; mitigating exposure for remedial activities associated with retired and formerly owned electric generation assets; the ability to access the public securities and other capital and credit markets in accordance with our financial plans, the cost of such capital and overall condition of the capital and credit markets affecting us, including the increasing number of financial institutions evaluating the impact of climate change on their investment decisions; the extent and duration of the COVID-19 pandemic and the related impacts to our business, operations and financial condition resulting from the outbreak of COVID-19 including, but not limited to, disruption of businesses in our territories, supply chain disruptions, additional costs, workforce impacts and governmental and regulatory responses to the pandemic, such as moratoriums on utility disconnections and workforce vaccination mandates; actions that may be taken by credit rating agencies that could negatively affect either our access to or terms of financing or our financial condition and liquidity; changes in assumptions regarding factors such as economic conditions within our territories, the reliability of our transmission and distribution system, or the availability of capital or other resources supporting identified transmission and distribution investment opportunities; changes in customers' demand for power, including, but not limited to, economic conditions, the impact of climate change, or energy efficiency and peak demand reduction mandates; changes in national and regional economic conditions, including recession and inflationary pressure, affecting us and/or our customers and those vendors with which we do business; the potential of non-compliance with debt covenants in our credit facilities; the ability to comply with applicable reliability standards and energy efficiency and peak demand reduction mandates; changes to environmental laws and regulations, including, but not limited to, those related to climate change; changing market conditions affecting the measurement of certain liabilities and the value of assets held in our pension trusts, or causing us to make contributions sooner, or in amounts that are larger, than currently anticipated; labor disruptions by our unionized workforce; changes to significant accounting policies; any changes in tax laws or regulations, or adverse tax audit results or rulings; the risks and other factors discussed from time to time in our Securities and Exchange Commission ("SEC") filings. Dividends declared from time to time on FirstEnergy Corp.'s common stock during any period may in the aggregate vary from prior periods due to circumstances considered by FirstEnergy Corp.'s Board of Directors at the time of the actual declarations. A security rating is not a recommendation to buy or hold securities and is subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating.

These forward-looking statements are also qualified by, and should be read together with, the risk factors included in FirstEnergy Corp.'s filings with the SEC, including, but not limited to, the most recent Annual Report on Form 10-K and any subsequent Current Reports on Form 8-K. The foregoing review of factors also should not be construed as exhaustive. New factors emerge from time to time, and it is not possible for management to predict all such factors, nor assess the impact of any such factor on FirstEnergy Corp.'s business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statements. FirstEnergy Corp. expressly disclaims any obligation to update or revise, except as required by law, any forward-looking statements contained herein or in the information incorporated by reference as a result of new information, future events or otherwise.

Next Regular Scheduled City Council Meeting Thursday, June 16, 2022

Upshur County Parks & Recreation

April 19, 2022 Meeting Minutes

Attending: Dennis Cortes, Jeremiah McCourt, Rachel Weber, Jacob Mills, and Josh Hinchman

Meeting: Called to order at 5:35 p.m. and minutes from the March meeting were approved.

Upshur County Trails Update:

On April 2, 2022, a bridge was added to the new trail segment.

The Trail Clean-Up day on April 9, 2022, which was part of the West Virginia DEP Make It Shine Day, was very successful with 9 volunteers. The Fairy Garden decorating will be rescheduled, possibly in June.

Jeremiah McCourt reported that he has attempted to contact Eric Hawkinberry on several occasions about hosting a NICA race on the trails, but has not had a response.

Trail purchases of approximately \$710 from the trail funds for bridge building materials and plastic trail markers were approved.

Jeremiah McCourt reported that someone was interested in possibly hosting a 24 hour trail run race on the Upshur County Trails. Rachel Weber recommended starting with a shorter race distance. In addition, she stated that she wants to run this by the trails group before this is approved.

Budget Approvals:

- 1) Park sign
- 2) Steel cabinet for tools and a keypad with deadbolt
- 3) Items for pool concession stand and pool bathroom partitions

Director's Report:

The gate will be coming off of the bathroom at the pavilion in a few weeks.

Jeremiah McCourt reported that he is applying for funding and submitting an application to build a low-ropes obstacle course in the area of the amphitheater. He is looking into Alpine Tower International to build the 7-obstacle course. He assured the committee that the course will not affect the trails.

He will be meeting with the Rotary Club in June and will possibly request funding for new playground equipment.

The pool is being painted and new diving boards have arrived. The pool opening day will possibly be May 28, 2022 for the public and May 22, 2022 for parties.

He reported that he is looking into Stockmeier Urehanes to repair the tennis courts. County Commission will need to approve.

Eric Jett is planning to partner with Upshur County Parks and Recreation to hold a sprint triathlon in August. Jeremiah McCourt stated that he wants to turn this into a Wellness Weekend, with Saint Joseph's Hospital present to do health screenings, possible Highland Games, Strongman Competition, and a Color Run 5K.

Disc Golf Update:

The disc golf tournament is tentatively scheduled for May 28, 2022, and will be open for 36 players with \$25 entry fee. They are looking for sponsors for each tee at \$100/tee.

J.J. Ford will be making directional signs for the disc golf course. The material has arrived for the signs.

Jacob Mills will update photos for Udisc and disc golf websites.

Meeting Time/Date:

The Upshur County Parks & Recreation Committee will now meet on the third Tuesday of the month at 5:30 p.m.

Public Comment:

Gravel and a kiosk were added to the boat ramp on Yokum Road.

Meeting was adjourned at 6:35 p.m.
